RESPONDENT may not contact other individuals at the A&M System to discuss any aspect of this RFP, unless expressly authorized by the A&M System Procurement & HUB Program office to do so. Questions regarding the RFP, including questions for more data or information beyond that included in this RFP and attachments (if any), should be presented in writing. **Deadline for submission of questions is by end of day January 12, 2021.** The A&M System will publish all questions with responses according to the schedule in Section 1.5.

## 2.6 Selection Process

The evaluation of the proposals shall be based on the proposal that the A&M System deems to represent the **best value** to the A&M System. The RFP provides the information necessary to prepare and submit

proposals for consideration by the A&M System. All properly submitted proposals will be reviewed, evaluated, and ranked by the A&M System. The A&M System will rank the RESPONDENTS in the order that they provide the overall “best value” to the A&M System based on an evaluation of the responses to the RFP. The A&M System may interview one or more of the top ranked RESPONDENTS as part of the evaluation process.

After proposal tabulation and such investigation of RESPONDENTS as the A&M System deems appropriate, an award may be made to the vendor whose proposal it judges to represent the best value to the A&M System. Final determination for award of the contract will be made on the overall best value to the A&M System. The A&M System reserves the right to reject any or all proposals.

Submission of proposals indicates RESPONDENT's acceptance of the evaluation techniques and the recognition that subjective judgments must be made by A&M System during the evaluation process.

The selection of the successful proposal may be made by the A&M System on the basis of the proposals initially submitted, without discussion, clarification, or modification. In the alternative, selection of the successful proposal may be made by the A&M System based on negotiation with any of the RESPONDENTS. The A&M System shall not disclose any information derived from the proposals submitted by competing RESPONDENTS in conducting such discussions.

All proposals must be complete and convey all of the information requested to be considered responsive. If a proposal fails to conform to the essential requirements of the RFP, the A&M System alone will determine whether the variance is significant enough to consider the proposal susceptible to being made acceptable, and therefore a candidate for further consideration, or not susceptible and therefore not considered for award.

A&M System may perform reference checks and seek further information, as needed from all RESPONDENTS whose proposals A&M System, at its discretion, considers viable, based on the initial evaluation and scoring. The RESPONDENT's response to this requirement officially authorizes A&M System to contact these organizations to discuss the services and other considerations which the RESPONDENT has provided to such organizations and authorizes the organizations to provide such information to A&M System and RESPONDENT shall and hereby does release and hold harmless A&M System, the state of Texas, and the organization of any and all liability whatsoever, in connection with providing and receiving all such information. Any negative responses received from reference checks may be grounds for disqualification of the proposal.

A&M System reserves the right to accept or reject any or all offers, to waive informalities and technicalities, to accept the offer considered most advantageous, and/or to make the award to the most responsive RESPONDENT.

#### 4.5 HUB Subcontracting Plan

It is the policy of the state of Texas and the A&M System to encourage the use of Historically Underutilized Businesses (HUBs) in our prime contracts, subcontractors, and purchasing transactions. The goal of the HUB program is to promote equal access and equal opportunity in A&M System contracting and purchasing.

Subcontracting opportunities are possible for this RFP and therefore a HUB Subcontracting Plan (HSP) is **required**. Failure to submit a comprehensive, acceptable HSP will be considered a material failure to comply with the requirements of the RFP and will result in rejection of the submittal. The HUB Subcontracting Plan shall be submitted **with** the RFP response by the date and time specified.

Based on the scope of this RFP, RESPONDENTS must determine if they can perform the entire scope with their own resources or if it will be necessary to subcontract any portion of the scope. Subcontracting opportunities are defined as those opportunities contracted with a vendor to provide services, supply commodities, or contribute toward completing work for a governmental entity. **The HUB participation goal for this RFP is 11% for Other Services and every effort should be made to achieve this level of participation.**

Complete the HSP as found at <https://www.tamus.edu/business/hub-procurement/hub-programs-3/system-offices-hub-program/> and submit it with the RFP response. If there are pre-existing agreements in place with companies who will be hired as subcontractors, the RESPONDENT will show those vendors as subcontractors on the HSP and provide an explanation as to why solicitations were not done, e.g. contractual requirements. If no pre-existing agreements with companies who will be hired as subcontractors exist, then the RESPONDENT will be expected to make a good faith effort according to the HSP instructions. Don't forget to include any backup documentation and sign the HSP form.

If the Respondent is completing as **self-performing** a statement which attests that the respondent shall perform the subcontracting opportunities identified by the agency, with its own employees and resources is required. The sections in the HSP form to be completed for self-performing are Section 1, 2a (check No), 3 with your statement included in the open text field, and 4.

For information regarding the HUB Subcontracting Plan requirements, please contact Keith Williams from the A&M System's HUB Program at (979) 458-3265 or [soprocurement@tamus.edu](mailto:soprocurement@tamus.edu) for assistance in determining available HUB subcontractors and proper completion of the HSP. Respondents have the opportunity to submit a draft of the HSP prior to submittal of their response to the RFP for review by Mr. Williams.

## SECTION 5 - GENERAL TERMS AND CONDITIONS

- 5.1. TERMS AND CONDITIONS: A&M System reserves the right to accept, reject, modify, and/or negotiate any and all submittals received in conjunction with this RFP. It reserves the right to waive any defect or informality in the submittals on the basis of what it considers to be in its best interests. Any submittal which A&M System determines to be incomplete, conditional, obscure, or which has irregularities of any kind, may be rejected. A&M System reserves the right to award to the firm, or firms, which in our sole judgment, will best serve our long-term interest.

This RFP in no manner obligates A&M System to the eventual purchase of any products or services described, implied, or which may be proposed, until confirmed by written agreement, and may be terminated by A&M System without penalty or obligation at any time prior to the signing of a contract.

The RESPONDENT must include a formal copy of any RESPONDENT terms and conditions applicable to this transaction. Evaluation and acceptance and/or modification of these terms and conditions by A&M System Office of General Counsel are essential prior to the award of any resultant agreement.
