This RFP outlines requirements as specified in Section 3. Clause headings appearing in this RFP have been inserted for convenience and ready reference. They do not purport to define, limit or extend the scope or intent of the respective clauses. Expenses for developing and presenting proposals shall be the entire responsibility of the RESPONDENT and shall not be chargeable to the A&M System. All supporting documentation submitted with this submittal will become the property of the A&M System unless otherwise requested by the RESPONDENT, in writing, at the time of submission, and agreed to, in writing, by the A&M System.

All technical questions concerning this RFP are to be directed, in writing, to Jeff Zimmermann at jzimmermann@tamus.edu. RESPONDENT shall provide one (1) original copy, four (4) additional hard copies, and one (1) electronic copy of the complete RFP response as specified above. Note: The electronic copy shall be combined in a single file.

All electronic copies must either be in Microsoft Office software or Adobe Portable Document Format (PDF). All image files must be in one of the following formats: .jpg, .gif, .bmp, or .tif and submitted on a CDROM or thumb drive. We prefer image files to already be inserted as part of a document such as a PDF. Individual image files on the electronic media must be clearly named and referenced in your proposal response. Electronic proposals shall indicate the RESPONDENT's company name and the RFP number.

NOTE: The original signature on the ONE (1) hard copy will serve as the official signature of record for all electronic copies. The proposal must be manually signed by a person with authority to bind the firm under a contract.

Proposals are to be submitted as a booklet or in notebook form with appropriate indices. Each submittal should be prepared simply and economically, providing a straightforward concise description of the RESPONDENT's service, approach and ability to meet the A&M System' needs as stated in this RFP. Schedules and Exhibits must be clearly identified and defined.

2.4 Inquiries and Interpretations

Responses to inquiries which directly affect an interpretation or change to this RFP will be issued in writing by addendum/amendment and posted to the Electronic State Business Daily (ESBD).

<http://www.txsmartbuy.com/sp>

All such addenda/amendments issued by the A&M System prior to the time that proposals are received shall be considered part of the RFP, and the RESPONDENT shall consider and acknowledge receipt of such in their proposal. Only those A&M System replied to inquiries

which are made by formal written addenda shall be binding. Oral and other interpretations or clarification will be without legal effect.

2.5 Selection Process

The evaluation of the proposals shall be based on the proposal that the A&M System deems to represent the **best value** to the A&M System. The RFP provides the information necessary to prepare and submit proposals for consideration by the A&M System. All properly submitted proposals will be reviewed, evaluated, and ranked by the A&M System. The A&M System will rank the RESPONDENTS in the order that they provide the overall “best value” to the A&M System based on an evaluation of the responses to the RFP. The A&M System may interview one or more of the top ranked RESPONDENTS as part of the evaluation process.

After proposal tabulation and such investigation of RESPONDENTS as the A&M System deems appropriate, an award may be made to the vendor whose proposal it judges to represent the best value to the A&M System. Final determination for award of the contract will be made on the overall best value to the A&M System. The A&M System reserves the right to reject any or all proposals.

By submitting its proposal in response to this RFP, RESPONDENT accepts the evaluation process and acknowledges and accepts that determination of the “best value” firm(s) will require subjective judgments by the A&M System.

The selection of the successful proposal may be made by the A&M System on the basis of the proposals initially submitted, without discussion, clarification, or modification. In the alternative, selection of the successful proposal may be made by the A&M System on the basis of negotiation with any of the RESPONDENTS. The A&M System shall not disclose any information derived from the proposals submitted by competing RESPONDENTS in conducting such discussions.

All proposals must be complete and convey all of the information requested to be considered responsive. If a proposal fails to conform to the essential requirements of the RFP, the A&M System alone will determine whether the variance is significant enough to consider the proposal susceptible to being made acceptable, and therefore a candidate for further consideration, or not susceptible and therefore not considered for award.

The A&M System will perform reference checks and seek further information, as needed from all Respondents whose proposals the System, at its discretion, considers viable, based on the initial evaluation and scoring. The Proposer’s response to this requirement officially authorizes the A&M System to contact these organizations to discuss the services and other considerations which the Proposer has provided to such organizations and authorizes the organizations to provide such information to the A&M System and Proposer shall and hereby does release and hold harmless the A&M System, the state of Texas, and the organization of any and all liability whatsoever, in connection with providing and receiving all such information. Any negative responses received from reference checks may be grounds for disqualification of the proposal.

The A&M System reserves the right to reject any or all proposals and re-solicit for new proposals, or to reject any or all proposals and temporarily or permanently abandon the project. The A&M System makes no representations, written or oral, that it will enter into any form of agreement with any respondent to this RFP for any project and no such representation is intended or should be construed by the issuance of this RFP.
