A&M System will make every effort to adhere to the above schedule. The schedule, however, is subject to change. This may be in the event that further clarification of responses or terms of contract are in the best interest of A&M System and/or in the event A&M System requires more time to assure that the selection of the RESPONDENT is in accordance with its policies, rules and regulations, as well as actual timing needs.

SECTION 2 – INSTRUCTIONS FOR RESPONDENTS

2.1 General Information

The A&M System is seeking proposals from qualified firms, hereafter referred to as RESPONDENT(s) and/or VENDOR(s), who can provide the service as specified and listed in Section 3 of this RFP. While it is the intent of the A&M System to effectively establish an agreement with a qualified provider for the services, there is no guarantee that an award will be made or a contract executed.

Submittals are to be in accordance with the outline and specifications contained herein, are to remain in effect a minimum of 120 days from the date of submission, and may be subject to further extensions as negotiated. A statement to this effect should be contained in the RESPONDENT's cover letter.

This RFP contains specific requests for information. RESPONDENTS are encouraged to examine all sections of this RFP carefully, in that the degree of interrelationship between sections is critical. In responding to this RFP, RESPONDENTS are encouraged to provide any additional information they believe relevant.

Clause headings appearing in this RFP have been inserted for convenience and ready reference. They do not purport to define, limit or extend the scope of intent of the respective clauses. Whenever the terms "must" "shall" "will" "is required" or "are required" are used in the RFP, the subject being referred to is to be a required feature of this RFP and critical to the resulting submittal.

In those cases where mandatory requirements are stated, material failure to meet those requirements could result in disqualification of the RESPONDENT's response. Any deviation or exception from RFP specifications must be clearly identified by the RESPONDENT in its submittal.

Expenses for developing and presenting proposals shall be the entire responsibility of the RESPONDENT and shall not be chargeable to the A&M System. All documentation submitted with the proposal response will become the property of the A&M System.

2.2 Examination of the Request for Proposal

Before submitting, each RESPONDENT will be held to have examined A&M System requirements outlined in Section 3 and satisfied itself as to the existing conditions under which it will be obligated to perform in accordance with specifications of this RFP.

No claim for additional compensation will be allowed due to unfamiliarity with the specifications and/or existing conditions. It shall be understood that the RESPONDENT has full knowledge of all of the existing and/or revised conditions and accepts them "as is."

RESPONDENT may not contact other individuals at A&M System to discuss any aspect of this RFP, unless expressly authorized by the A&M System Procurement office to do so. Questions regarding the RFP, including questions for more data or information beyond that included in this RFP and any attachment, should be presented in writing. **Deadline for submission of questions is July 27, 2020.** A&M System will publish all questions with responses according to the schedule in Section 1.4.

Responses to inquiries which directly affect an interpretation or change to this RFP will be issued in writing by addendum/amendment and posted to the Electronic State Business Daily (ESBD).

<http://www.txsmartbuy.com/sp> (Input Agency Number “710” and select “Posted” for the Status)

All such addenda/amendments issued by the A&M System prior to the time that proposals are received shall be considered part of the RFP, and the RESPONDENT shall consider and acknowledge receipt of such in their proposal. Only those A&M System replied to inquiries which are made by formal written addenda shall be binding. Oral and other interpretations or clarification will be without legal effect.

2.6 Selection Process

A&M System will base its choice on criteria to include but not limited to the following: demonstrated competence, knowledge, and qualifications of the Respondent in respect to the solution offered; as well as the capability of the solution offered to include but not limited to factors such as functionality and ease of use of the solution; and on the reasonableness of the proposed fee for the services.

The RESPONDENT selected will be the one who's experience and qualifications, as presented in response to this RFP, establish them, in the opinion of A&M System, as well qualified and offering the greatest benefits, experience and value to A&M System. A&M System may cancel this RFP or reject proposals at any time prior to an award, and is not required to furnish a statement of the reasons why a particular proposal was not deemed to be the most advantageous. Should A&M System determine in its sole discretion that only one RESPONDENT is fully qualified, or that one RESPONDENT is clearly more highly qualified than the others under consideration, a contract may be negotiated and executed with that RESPONDENT. The contract will be an agreement incorporating by reference all the requirements, terms and conditions of the solicitation and the RESPONDENT's proposal as negotiated.

Submission of proposals indicates RESPONDENT's acceptance of the evaluation techniques and the recognition that subjective judgments must be made by A&M System during the evaluation process.

The selection of the successful proposal may be made by A&M System on the basis of the proposals initially submitted, without discussion, clarification, or modification. In the alternative, selection of the successful proposal may be made by A&M System on the basis of negotiation with any of the RESPONDENTS. A&M System shall not disclose any information derived from the proposals submitted by competing RESPONDENTS in conducting such discussions.

All proposals must be complete and convey all of the information requested to be considered responsive. If a proposal fails to conform to the essential requirements of the RFP, A&M System alone will determine whether the variance is significant enough to consider the proposal susceptible to being made acceptable, and therefore a candidate for further consideration, or not susceptible and therefore not considered for award.

A&M System may perform reference checks and seek further information, as needed from all RESPONDENTS whose proposals A&M System, at its discretion, considers viable, based on the initial evaluation and scoring. The RESPONDENT's response to this requirement officially authorizes A&M System to contact these organizations to discuss the services and other considerations which the RESPONDENT has provided to such organizations and authorizes the organizations to provide such information to A&M System and RESPONDENT shall and hereby does release and hold harmless A&M System, the state of Texas, and the organization of any and all liability whatsoever, in connection with providing and receiving all such information. Any negative responses received from reference checks may be grounds for disqualification of the proposal.

A&M System reserves the right to accept or reject any or all offers, to waive informalities and technicalities, to accept the offer considered most advantageous, and/or to make the award to the most responsive RESPONDENT.

4.4 HUB Subcontracting Plan

It is the policy of the state of Texas and the A&M System to encourage the use of Historically Underutilized Businesses (HUBs) in our prime contracts, subcontractors, and purchasing transactions. The goal of the HUB program is to promote equal access and equal opportunity in A&M System contracting and purchasing.

Based on the scope of this RFP, RESPONDENTS must determine if they can perform the entire scope with their own resources or if it will be necessary to subcontract any portion of the scope. Subcontracting opportunities are defined as those opportunities contracted with a vendor to provide services, supply commodities, or contribute toward completing work for a governmental entity.

Subcontracting opportunities are possible for this RFP and therefore a HUB Subcontracting Plan (HSP) is **required**. Failure to submit a comprehensive, acceptable HSP will be considered a material failure to comply with the requirements of the RFP and will result in rejection of the submittal. The HUB Subcontracting Plan shall be submitted **with** the RFP response by the date and time specified.

Complete the HSP as found at <https://www.tamus.edu/business/hub-procurement/hub-programs-3/system-offices-hub-program/> and submit it with the RFP response. If there are pre-existing agreements in place with companies who will be hired as subcontractors, the RESPONDENT will show those vendors as subcontractors on the HSP and provide an explanation as to why solicitations were not done, e.g. contractual requirements. If no pre-existing agreements with companies who will be hired as subcontractors exist, then the RESPONDENT will be expected to make a good faith effort according to the HSP instructions. Don't forget to include any backup documentation and sign the HSP form.

If the Respondent is completing as **self-performing** a statement which attests that the respondent shall perform the subcontracting opportunities identified by the agency, with its own employees and resources is required. The sections in the HSP form to be completed for self-performing are Section 1, 2a (check No), 3 with your statement included in the open text field, and 4.

For information regarding the HUB Subcontracting Plan requirements, please contact Keith Williams from the A&M System's HUB Program at (979) 458-3265 or soprocurement@tamus.edu for assistance in determining available HUB subcontractors and proper completion of the HSP. Respondents have the opportunity to submit a draft of the HSP prior to submittal of their response to the RFP for review by Mr. Williams.
