THE TEXAS A&M UNIVERSITY SYSTEM was officially established in 1948 and has evolved into one of the largest systems of higher education in the nation, with a statewide network of 11 universities, including our flagship, Texas A&M University, and ten regional universities across the state. Additionally, the A&M System provides service and education to the people of Texas and beyond through seven state agencies and a system administration office.

Each of the A&M System members has its own unique mission, history and goals. Together, they provide research, educational programs and community enhancement services that improve the lives of people in Texas and around the world.

A&M System members educate over 148,000 students and make more than 22 million additional educational contacts through service and outreach programs each year.

With more than 26,000 faculty and staff, the A&M System has a physical presence in 250 of the state’s 254 counties and a programmatic presence in every county. The A&M System has real property holdings totaling more than 65,000 surface acres and 55,000 mineral acres.

System-wide, externally funded research expenditures exceeded $946 million to help drive the state’s economy.

The A&M System, with a total operating budget of $4.2 billion, is governed by a nine-member Board of Regents. A nonvoting student member was added in 2006. The regents appoint the chancellor, the chief executive officer who oversees the direction and operation of the system. The system’s role is governed by the state’s education code, Title 3, chiefly Ch. 51, Sec. 51.353 and Ch. 85, Sec. 85.17.

Board of Regents

**Cliff Thomas** was appointed to the Board of Regents in 2011. He was elected to serve a two-year term as Vice Chairman of the Board on May 1, 2013, and was elected Chairman of the Board on April 29, 2015. He serves as liaison to the 12th Man Foundation. He has served as Chair of the Policy Review Committee and as a member of the Committee on Finance, the Committee on Audit and the Committee on Buildings and Physical Plant. He also chaired the search committee in 2014-2015 for the new President of Texas A&M University. His term expires February 1, 2017.

**Elaine Mendoza** was appointed to the Board in 2011. She was elected Vice Chairman of the Board on April 29, 2015. She is serving her second term as Chair of the Committee on Academic and Student Affairs. She is a member of the Committee on Audit, and also serves as a liaison to the Texas Higher Education Coordinating Board. Her term expires February 1, 2017.

**Phil Adams** is serving his third six-year term as a member of the Board. He was first appointed in 2001, again in 2009, and was reappointed in 2015. He served a two-year term as Vice Chairman of the Board from 2011 to 2013 and served as Chairman of the Board from 2013 to 2015. He serves as Chairman of the Committee on Buildings and Physical Plant, as a member of the Committee on Finance and has served as Chairman of the Committee on Audit. He also serves as the Board’s liaison to The Association of Former Students. His term expires February 1, 2021.

**Robert Albritton** was appointed to the Board in 2015. He currently serves as a member of the Committee on Finance and the Committee on Buildings and Physical Plant. He serves as a liaison to the Development Foundations of A&M System members and the Texas A&M University Corps of Cadets and System Military Training Programs. His term expires February 1, 2021.

**Anthony G. Buzbee** was appointed to the Board in 2013. He serves as a member of the Committee on Finance, as well as the Committee on Academic and Student Affairs. He has served as Chair of the Committee on Audit, as a liaison to The Association of Former Students and the Texas A&M Corps of Cadets and A&M System Military Training Programs. His term expires February 1, 2019.

**Morris E. Foster** was appointed to the Board in 2007. He was reappointed in 2013. He served as Chairman of the Board from 2009-2011. He currently serves as a member of the Committee on Buildings and Physical Plant and the Committee on Audit. He has served as a liaison to the Development Foundations of A&M System Members, and as a member of the Committee on Finance. His term expires February 1, 2019.

**Judy Morgan** was appointed to the Board in 2011. She currently serves as Chairman of the Committee on Audit and is serving a third term as a member of the Committee on Academic and Student Affairs and the Bill and Irma Runyon Art Collection Committee. Ms. Morgan has served on the Policy Review Committee and as Chairman of the Campus Art and Aesthetic Improvement Committee. She serves as the Board’s liaison to the West Texas A&M University Panhandle Plains Museum and as liaison to the Texas Higher Education Coordinating Board. She has served as a member of the Committee on Finance. Her term expires February 1, 2017.

**William “Bill” Mahomes** was appointed to the Board in 2015. He serves as a member of the Committee on Audit and the Committee on Academic and Student Affairs. He also serves as a liaison to the Development Foundations of A&M System Members and the Texas A&M University Corps of Cadets and System Military Training Programs. His term expires February 1, 2021.

**Charles W. Schwartz** was appointed to the Board in 2013. He is serving his third term as Chair of the Committee on Finance and serves as a member of the Committee on Buildings and Physical Plant. He has served on the Policy Review Committee and the Committee on Academic and Student Affairs. Mr. Schwartz also serves as a board member of the Board for Lease of University Lands. His term expires February 1, 2019.

**Stephanie Y. Martinez** of Laredo, Texas, graduated from Texas A&M International University in 2016 with a Bachelor of Arts in Communication. Ms. Martinez is a first-generation college student and is currently pursuing a Master of Arts in Communication at TAMU. She is serving a one-year term expiring on May 31, 2017.

**Chancellor**

**John Sharp** was appointed Chancellor of The Texas A&M University System by the Board of Regents on September 6, 2011. As Chancellor of The Texas A&M University System, he leads one of the nation’s largest university systems, including 11 universities and seven state agencies, which has an annual budget of $4.2 billion. Enrollment at the A&M System’s 11 universities has grown to more than 148,000, and externally funded research expenditures are in excess of $946 million. Chancellor Sharp brings with him more than three decades of public service, and a passion to make the A&M System the best system of higher education in the country.

Frequently Asked Questions

What is The Texas A&M University System?
The A&M System is one of the largest systems of higher education in the nation, with a statewide network of 11 universities and seven state agencies. A&M System members educate more than 148,000 students and reach another 22 million people through service each year. With more than 26,000 faculty and staff, the A&M System has a physical presence in 250 of the state’s 254 counties and a programmatic presence in every one. System-wide, externally funded research expenditures exceeded $946 million to help drive the state’s economy.

When was the A&M System established?
The Texas A&M University System was officially established in 1948. The original members were Texas A&M University, Prairie View A&M University, Tarleton State University, Texas A&M Forest Service, Texas A&M Engineering Experiment Station, Texas A&M Engineering Extension Service, Texas A&M AgriLife Extension Service (formerly Texas Cooperative Extension) and Texas A&M AgriLife Research (formerly Texas Agricultural Experiment Station).

Today, the Texas A&M System provides oversight and leadership for 11 universities and seven state agencies. Its role is governed by the state’s education code (Title 3, chiefly Ch. 51, Sec. 51.353 and Ch. 85, Sec. 85.17). Responsibilities include system-wide planning, coordination and execution of the policies of The Texas A&M University System Board of Regents.

What does “A” and “M” stand for?
Texas A&M, the state’s first public institution of higher education, was opened on Oct. 4, 1876, as the Agricultural and Mechanical College of Texas. Both Texas A&M and Prairie View A&M owe their origin to the Morrill Acts of 1862 and 1890, which established the nation’s land-grant college system. When Texas A&M gained university status in 1963, the “A&M” was incorporated into the official name in deference to the institution’s history and traditions, but the individual letters no longer explicitly stand for anything.

The A&M System is the state’s land-grant system. What does that mean?
A land-grant college or university is an institution that has been designated by its state legislature or Congress to receive the benefits of the Morrill Acts of 1862 and 1890. The original mission of these institutions, as set forth in the first Morrill Act, was to teach agriculture, military tactics and the mechanical arts as well as classical studies so that members of the working classes could obtain a practical education.

The A&M System’s agencies, which conduct research and bring practical applications of research findings to the people of Texas, also came out of the land-grant system. There is now at least one land-grant institution in every state and territory of the United States, as well as in the District of Columbia.

How is the A&M System governed?
The A&M System is governed by a nine-member Board of Regents, appointed by the governor and confirmed by the Texas Senate for six-year terms. A nonvoting student member was added in 2006. The A&M System chancellor oversees the day-to-day administration, and each of the A&M System’s members has a president, CEO or director.

What is the mission of the A&M System?
The mission of The Texas A&M University System is to provide education, conduct research, commercialize technology, offer training, and deliver services for the people of Texas and beyond through its universities and state agencies.

Does the A&M System have a central admissions office?
No. Students must contact directly the preferred A&M System institution’s admission office. Information about these institutions can be found on the system’s website, www.tamus.edu.

The flagship university of the Texas A&M University System, Texas A&M University is known around the world as a tier one research institution and is a member of the Association of American Universities.

Committed to the values of its land-grant heritage, Texas A&M ensures accessible education for the people of Texas through effective resource management, maintaining low costs for high-value curricular and co-curricular excellence and graduating students with less debt. World-class faculty members engage our teaching and research, which inform innovation for society’s challenges, yielding over $866 million in annual expenditures. Knowledge extends to communities beyond the classroom by engaged scholarship, outreach and partnership with system state agencies for extension. These efforts have also earned Texas A&M designations as a sea-grant and space-grant institution.

Texas’ first public institution of higher learning has strategically grown into one of the nation’s most comprehensive universities, offering over 200 bachelor’s, master’s, doctoral and professional degree programs through 19 colleges and schools, including the School of Law in Ft. Worth, and the health-related programs of the Health Science Center. Together with two special-purpose branch campuses in Galveston and Doha, Qatar—as well as a recently announced branch campus in McAllen—today’s Texas A&M is developing educated leaders of character committed to learning for a lifetime and dedicated to serving the greater good.

Texas A&M University Health Science Center is transforming health through innovative research, education and service in dentistry, medicine, nursing, pharmacy, public health and medical sciences. As an independent state agency and academic unit of Texas A&M University, the health science center serves the state through campuses in Bryan-College Station, Dallas, Temple, Houston, Round Rock, Kingsville, Corpus Christi and McAllen. Drawing from its vast network of scientists, educators and clinical partners, the health science center provides real-world solutions through evidence-based discoveries and highly qualified graduates who are equipped to address the health needs of an ever-changing population.

Texas A&M University at Galveston is the ocean campus of Texas A&M University at College Station. The students come from throughout the world, with many different backgrounds, cultures and interests, but all share the same dream: to work, study, learn and serve in a marine environment. The institution serves as regional leader for ocean and coastal studies research offering ocean-oriented undergraduate, masters and doctoral degrees covering the disciplines of science, engineering, business, transportation and general studies. The university is home to the Texas A&M Maritime Academy, one of only six maritime academies in the nation. Academy graduates receive their Third Mate license as a ship’s officer while earning a bachelor’s degree. The academy also commissions students to serve as officers in the U.S. Merchant Marine, Navy and Coast Guard.

Texas A&M University at Qatar has offered undergraduate degrees in chemical engineering, electrical and computer engineering, mechanical engineering and petroleum engineering at Qatar Foundation’s Education City campus since 2003, and graduate degrees in chemical engineering since fall 2011. In fall 2016, 550 students were enrolled and more than 735 degrees have been awarded since 2007. All four of the engineering programs offered at Texas A&M at Qatar are accredited by the Engineering Accreditation Commission of ABET. Faculty members from around the world are attracted to Texas A&M at Qatar to provide this educational experience and to participate in research activities now valued at more than $236.4 million. Texas A&M at Qatar is wholly funded by the Qatar Foundation for Education, Science and Community Development.
In 1876, the 15th Legislature of the State of Texas created PRAIRIE VIEW A&M UNIVERSITY, a land-grant institution and the second oldest institution of higher learning in the state. It began as an industrial school for minorities and has evolved to meet the changing needs of the state. The university has thrived for more than 140 years and is dedicated to fulfilling its mission of achieving excellence in teaching, research and service.

PVAMU’s eight colleges and schools boast more than 50 degree programs including engineering, natural sciences, architecture, business, nursing, and criminal and juvenile justice.

With an emphasis on the ever-changing world, the university is dedicated to preparing students not only to lead the nation, but also to succeed on an international level. New foreign language offerings, as well as the addition of an international affairs coordinator, support the university’s goal of building the next generation of global leaders through classroom instruction, cultural training, the arts and service-learning projects.

A vibrant and dynamic learning community, TARLETON STATE UNIVERSITY offers nearly 100 undergraduate and graduate degree programs. Students may choose to study in one of six colleges—agricultural and environmental sciences, business administration, education, health sciences and human services, liberal and fine arts, and science and technology.

With four new residence halls in the last three years, students enjoy living and learning communities relating to their academic majors. Tarleton has resurrected its Corps of Cadets as part of a new Leadership Academy, preparing students to lead in their individual professions.

A new Learning Commons in the Dick Smith Library and a one-stop-shop service center for Admissions, Financial Aid and Residential Living offer students quality service and support.

Tarleton’s research centers include the renowned Texas Institute for Applied Environmental Research, the Center for Agribusiness Excellence and the Southwest Regional Dairy Center.
Texas A&M International University

Established: 1970
Colors: Maroon and silver
Nickname: Dustdevils
Athletic Affiliation: Heartland Conference

Texas A&M International University is a vibrant, international university located at a dynamic multi-lingual and multi-cultural crossroads in Laredo. It is home to more than 7,500 students who “Go Beyond” at “The International U.” TAMIU offers an international learning environment anchored by the highest quality, ranked programs delivered by a global faculty. It provides a solid academic foundation in the arts and sciences, business, education and nursing. The university's modern 300-acre campus has a diverse student body and offers study abroad opportunities to more than 50 countries. Over 120 student clubs and organizations fuel a vibrant campus life.

The University has broken ground on its largest classroom addition to the campus, a 120,000 square-foot-facility that will house TAMIU’s growing engineering and science programs, and provide critical learning and laboratory space. Expected completion is Spring 2019. The University has also initiated a Cooperative Pharmacy Program with the Texas A&M University Irma Lerma Rangel College of Pharmacy.

Texas A&M University-Corpus Christi

Established: 1947
Colors: Blue and green
Nickname: Islanders
Athletic Affiliation: Southland Conference

Discover the Island University, the only university in the nation located on its own island, at the heart of the Texas Gulf Coast. Offering more than 80 of the most popular degree programs in the state, Texas A&M University-Corpus Christi has proudly provided a solid academic reputation, renowned faculty, and highly-rated degree programs since 1947. With more than 40 research centers and labs, the university leads world research in sustaining and conserving the Gulf of Mexico through the Harte Research Institute for Gulf of Mexico Studies and as one of only six federally designated unmanned aerial systems test sites in the country through the Lone Star UAS Center of Excellence & Innovation. The College of Nursing and Health Sciences continues to be named one of the top ten online programs in the nation. The prestige and strength of an A&M-Corpus Christi degree is well-respected and known worldwide. As a result, the university recently reached a new enrollment milestone of 12,000 students in a single semester. As one of Texas’ premier doctoral-granting institutions, the university upholds the highest selection standards in South Texas.
A true college experience. A vibrant and growing campus that meets the living and learning needs of its students. A wide variety of undergraduate and graduate programs. A comprehensive athletics program. A sense of community that extends beyond the campus grounds. This is TEXAS A&M UNIVERSITY-KINGSVILLE, the center of Javelina Nation.

The university offers an all-inclusive environment, with a variety of living options, and food and recreational activities within walking distance of the classroom. The expanding campus features a dining hall, student recreation center and suite-style residence halls, all recently created, with more housing and dining options on the way.

The university has superior faculty and courses to give students an education that will help them get where they want to go. Degrees include well-known programs in environmental engineering, animal and wildlife sciences, music, and natural gas engineering along with new or growing programs in veterinary technology, kinesiology and social work.

TEXAS A&M UNIVERSITY-KINGSVILLE
700 University Boulevard, Kingsville, Texas 78363 | 361-593-2111

WEST TEXAS A&M UNIVERSITY is a four-year public University that serves a diverse student population of more than 9,900 students.

For more than 100 years, WTAMU has attracted bright minds from near and far with superior academics, renowned faculty and affordable tuition. The university delivers 58 undergraduate programs, 39 graduate programs and one doctoral degree program in fields that you might expect — business, education, nursing and agriculture — as well as in ones that you might not — music industry emphasis and communication disorders. More than 20 degrees can be obtained totally online.

Students learn from top faculty in smart classrooms at both the Canyon campus and the Amarillo Center.

University initiatives facilitate research opportunities, internships, leadership development programs and network-building interactions between students and professionals in their fields.

With its award-winning academic programs, conference and national championships and state-of-the-art facilities, WTAMU is a growing, vibrant university that is well prepared to meet the educational needs of a growing student population for years to come.

WEST TEXAS A&M UNIVERSITY
2501 4th Avenue, Canyon, Texas 79016 | 806-651-0000
Since 1889, TEXAS A&M UNIVERSITY-COMMERCE has focused on giving students comprehensive access to higher education and assisting them to achieve success. From the founder’s and the university’s humble beginnings to the current era of record-breaking enrollment and the promise to prepare students for an interconnected world, the university’s mission has remained the same: to provide a personal, accessible and affordable educational experience for a diverse community of learners. A&M-Commerce offers traditional instruction at the Commerce campus and locations in Corsicana, downtown Dallas, McKinney, Mesquite, Midlothian and Rockwall as well as online degree programs to meet the needs of students anywhere in the world. Choose from 147 degree programs at the bachelor, master and doctoral levels. Outside the classroom, the administration strives to serve students from registration to graduation. The Student Access and Success Center offers a one-stop shop approach that removes barriers to admissions, financial aid and advising information. The university also has 14 NCAA Division II athletic teams, a thriving Greek system, and more than 120 student organizations. No matter where you set your goals, A&M-Commerce offers countless paths to success and the means to establish a legacy of excellence.

TEXAS A&M UNIVERSITY-COMMERCE
2600 South Neal Street, Commerce, Texas 75429 | 903-886-5000
Texas A&M University-Central Texas is an upper-level institution working in close partnership with area two-year colleges to assure residents of the region that associate, baccalaureate, and advanced degrees are attainable in reasonable proximity to their homes, delivered in an instructional mode most appropriate to the individual student, and available at a cost that will not require students or their families to take on the burden of extraordinary debt.

Its student population is diverse and growing, with more than 2,600 students. Classes are offered on a beautiful 672-acre campus in Killeen, online, and at several convenient sites, including Fort Hood and the East Williamson County Higher Education Center in Hutto. Academic programs at both undergraduate and graduate levels are expanding through three academic colleges: Arts & Sciences, Business Administration and Education.

A&M-Central Texas opened its doors in 2012, and in 2014, expanded with the addition of Warrior Hall, which includes a state-of-the-art library and biology labs. A&M-Central Texas broke ground in December 2016 on its third multiuse building, Heritage Hall.

Texas A&M University-San Antonio is one of the fastest growing universities in both the Texas A&M University System and the state. The university, which had operated as an upper-division institution since 2009, welcomed its inaugural class of more than 500 first-year students in August 2016.

With student enrollment over 5,500, A&M-San Antonio is quickly expanding to fill the grounds of its 700-acre campus in South San Antonio. Due to the rapid growth, the university’s footprint is transforming with the construction of a new residence hall, Esperanza Hall, which will be operational in Fall 2017, and the anticipated addition of a Science and Technology Building in Spring 2017.

A&M-San Antonio proudly offers 25 undergraduate degrees and 11 graduate programs with the lowest undergraduate tuition in the area. The university’s core values of “Excellence, Student Focused, Audacious, Opportunity and Collaborative” provide a foundation for its world-class faculty to inspire graduates to be lifelong learners and responsible global citizens. A&M-San Antonio will continue growing as an economic and social catalyst while becoming nationally recognized for student and academic success.
Texas A&M Agrilife Research

Established: 1888
Number of research projects: 555
FY 2015 research funding: $194.4M
Number of centers or divisions: 13
Doctoral-level scientists: 550+

Texas A&M Agrilife Research is the state’s leading public agency for research and development in agriculture, natural resources, and the life sciences. With a statewide presence — from its headquarters in College Station to other Texas A&M University System campuses and at 13 regional Research and Extension Centers — the agency provides innovative solutions to 21st-century challenges. Its goals are to enhance competition and prosperity in agriculture, sustain healthy ecosystems and conserve natural resources, improve public health and well-being, manage negative effects of global climate change, and optimize plant and animal production and human health.

AgriLife Research conducts research in the Colleges of Agriculture and Life Sciences and Veterinary Medicine and Biomedical Sciences and collaborates with nine A&M System centers and institutes, as well as with state and federal agencies, private-sector corporations, and international scientists.

Economic gains from investments in Texas’ public agricultural research have reached more than $3.6 billion over the past three decades.

Texas A&M Agrilife Extension

Established: 1915
Number of Texas counties served: 254
Number of volunteers supporting extension programs: 99,000+
Engagement in 4-H and youth development programs: 600,000 youth

As an outreach education agency, the Texas A&M Agrilife Extension Service provides programs, tools and resources that teach people how to improve agriculture and food production, advance health practices, protect the environment, strengthen the economy and enrich youth.

Whether teaching programs face-to-face, giving demonstrations, conducting field days, creating web-based resources or answering questions one-on-one, Texas A&M AgriLife Extension Service provides educational programming designed to address the needs of Texans.

Texas A&M AgriLife Extension delivers custom-designed educational and technology transfer programs to help Texans learn and benefit from research-based solutions and sound, unbiased information.

AgriLife Extension addresses the diverse range of contemporary and emerging issues that affect local communities. With 250 county offices serving Texans in all 254 counties, County Extension Agents serve families, youth, communities and businesses throughout the state.
Fulfilling the service component of a land-grant university system, **Texas A&M Forest Service** is a proud member of The Texas A&M University System. Created in 1915 by the 34th Texas Legislature, Texas A&M Forest Service conserves forests and natural resources and protects lives and property.

The state agency is driven by a call to serve, a duty to protect, the commitment to support, and the power of partnership. Accordingly, the Texas A&M Forest Service provides technical assistance, program delivery and readily-available, easily-accessible, science-based information; provides protection against wildland fires and other all-hazard emergencies; promotes statewide forestry-based economic development; builds the capacity of local responders and engages in cooperative working relationships.

Service knows no bounds as the agency continues more than 100 years of conserving, protecting and leading the state in the interest of the state’s forests, trees and related natural resources for the benefit of all.

---

By testing hundreds of specimens from around the world every business day, the **Texas A&M Veterinary Medical Diagnostic Laboratory** contributes significantly to protecting the health of livestock, poultry, companion animals, exotic animals, racing animals and wildlife. TVMDL offers more than 700 state-of-the-art diagnostic tests that deliver accurate results promptly and affordably. With four labs located in the state’s leading livestock and poultry regions, TVMDL is uniquely situated to serve animal agriculture.

As a Level I Laboratory in the National Animal Health Laboratory Network, TVMDL is among a group of state and regional labs designed to provide a nationwide surge testing, response and recovery capacity. TVMDL also acts as the backbone for a disease surveillance system that protects animal and public health, and the agriculture economy.

Animal owners, the agriculture industry and government agencies depend on TVMDL’s globally recognized expertise to help preserve animal and public health. The agency has earned accreditation from the American Association of Veterinary Laboratory Diagnosticians, Racing Medication & Testing Consortium, and holds ISO17025 Accreditation for Competition Animal Drug Testing.
Texas A&M Engineering Experiment Station

Established: 1914

Academic Partners: 19
Specialized Research Centers: 32
Research Projects: 4,838
2015 Research Expenditures: $208M
Collaborations: 874
Industrial Sponsors: 3,045

Established: 1948

Number of Educational/Outreach Classes Annually: 6,877
Number of People Served Annually: 169,000

Texas A&M Engineering Experiment Station has been performing quality engineering research and developing technology to address state and national problems for 100 years. TEES partners with industries, communities, government agencies, community colleges and universities—in and out of the Texas A&M System—to find solutions to improve quality of life, foster economic development and enhance education. The agency serves as a catalyst for collaborations that position Texas to be especially competitive for federal dollars and plays a major role in strengthening research leadership across the state. TEES also helps improve the state’s workforce by engaging more than 1,302 graduate and undergraduate students in research each year. Research activities focus on relevant needs in areas including energy systems and services, safety and security, healthcare, materials and manufacturing, information systems and sensors, industry outreach, and education and training. The agency serves Texas with headquarters in College Station and specialized research centers and partner institution offices throughout the state.

Texas A&M Engineering Extension Service is an internationally recognized leader in the delivery of emergency response, homeland security and workforce training, as well as exercises, technical assistance and economic development. Last year, TEEX served more than 168,000 people from every U.S. state and territory and 82 countries worldwide.

TEEX operates a comprehensive emergency preparedness campus, which includes some of the world’s top training facilities in the Brayton Fire Training Field, Disaster City® and the Emergency Operations Training Center, as well as state-of-the-art facilities for public utilities, law enforcement and unexploded ordnance training. As part of the National Domestic Preparedness Consortium and home to the National Emergency Response and Rescue Training Center, TEEX has been a leader in homeland security training since 1998. The agency also sponsors the state’s elite urban search and rescue team, Texas Task Force 1, standing ready to respond at a moment’s notice in times of disaster.

Domestic Preparedness Consortium and home to the National Emergency Response and Rescue Training Center,

Texas A&M Transportation Institute develops solutions to the problems and challenges facing all modes of transportation. The Institute conducts over 700 research projects annually with about 200 sponsors at all levels of government and the private sector. In the laboratory and the classroom, TTI researchers help prepare students for transportation careers.

Recognized as one of the premier higher education-affiliated transportation research agencies in the nation, TTI's research and development program has made significant breakthroughs across all facets of the transportation system.

TTI’s headquarters is located on the campus of Texas A&M University in College Station. The Institute maintains a full-service safety proving grounds facility; environmental and emissions facility; and sediment and erosion control laboratory in Bryan, Texas, as well as other facilities and laboratories on the Texas A&M campus. TTI has eight offices in Texas—Arlington, Austin, Dallas, El Paso, Galveston, Houston, San Antonio and Waco—and offices in Washington, D.C., and Mexico City, Mexico.
