Introduction

The purpose of this manual is to assist in accessing and utilizing information in the Sponsored Research section of Financial Accounting Management Information System (FAMIS). FAMIS is an accounting system that responds to financial regulations applicable to educational institutions. All applications access a common database that allows different users to access identical information. Other applications include Financial Accounting, Accounts Payable, Accounts Receivable, Purchasing and Fixed Assets. Manuals for these applications are being developed or are currently available.

The materials are grouped according to Sponsored Research functions. All associated screens and processing information are included along with field descriptions. The required fields are designated by a diamond symbol (◆). Data entry information (Help) can be accessed on some screen fields with the use of the PF2 key or typing an asterisk (*) or question mark (?) in the field.

By utilizing the information and guidelines contained in this manual, a user should be able to access sponsor information, create and modify sponsors, proposals, awards, and projects.

The FAMIS User Manuals are in a constant state of revision, due to screen updates, changes in procedures, or any one of a multitude of reasons. If you would like to make suggestions or call attention to errors, please contact us at (979) 458-6464, or copy the page with the error, note the correction or suggestion and send it to:

SPR Basic Concepts

Conducting research is an important part of the mission and core values of The Texas A&M University System. The Sponsored Research Module in FAMIS is designed to assist with the tracking and reporting of sponsored projects. The Proposal section handles the initiation of proposals, while the Projects section holds the data related to awarded projects.

The following includes some annotated excerpts from the A&M University System’s policy and procedures manual which outline the basic concepts in conducting research activities. (Please see the policy in its entirety at:

https://www.tamus.edu/offices/policy/policies/

Mission

The Texas A&M University System was established to provide educational opportunity and service to Texas through its universities, state agencies, and health science center (HSC). We strive for the highest quality undergraduate, graduate, and professional educational programs; outreach and community enhancement services that meet the needs of individuals and organizations, and research and knowledge generation that meet our creative needs and provides the foundation for economic development in Texas.

Research Policy

The Chancellor shall approve procedures submitted by the CEO of each component for the implementation of research projects funded from Federal, State, commercial, gift, or specific donated funds.

Initiation of Agreements

It shall be the policy of the System to cooperate whenever possible, within the limits of its means and responsibilities, with individuals, government agencies, corporations or other outside parties in the solution of problems of mutual interest. The initiative for effecting such cooperative arrangements, including the establishment of grants-in-aid for the support of research work, may be assumed either by a component of the System or by an outside party.

General

In accepting sponsored agreements, System components are obligated to fulfill the purposes, and to meet the requirements, of the sponsored agreement. Expenditures of funds or use of resources provided by the sponsor or cost shared by the System component are governed by the sponsored agreement and System policies and regulations.
Types of Sponsored Agreements

Sponsored agreements are projects and activities that are supported (in whole or in part) with funds, materials, or other resources provided by sources outside the System. Sponsored agreements are included in the major functions of an institution as defined below:

1. **Instruction** means the teaching and training activities of an institution whether offered on a credit or noncredit basis, and whether offered through regular academic departments or separate divisions, such as a summer school division or an extension division. This term does not include the training of individuals in research techniques (commonly referred to as research training) as described in 2.1(2)(a) Sponsored research.

2. **Organized research** means all research and development activities of an institution that are separately budgeted and accounted for. It includes the following:
   
   a. **Sponsored research** means all research and development activities that are externally sponsored by federal and non-federal agencies and organizations. This term includes activities involving the training of individuals in research techniques (commonly called research training) where such activities utilize the same facilities as other research and development activities and where such activities are not included in the instruction function.
   
   b. **University research** means all research and development activities that are separately budgeted and accounted for by the institution under an internal application of institutional funds.

3. **Other sponsored activities** mean sponsored programs and projects which involve the performance of work other than instruction and organized research. Examples are health service projects and community service programs.

Definitions of major types of sponsored agreements include the following:

1. **Contracts** - an award by a sponsor to procure goods or services (including research) needed by the sponsor. Contracts awarded by federal agencies are usually subject to the Federal Acquisition Regulation.

   a. **Cost Reimbursement Contract** - a contract issued on the basis of an estimate of the cost of performing the work arrived at by negotiation between the sponsor and the contractor. The contract provides for payment to the contractor for costs actually incurred up to a ceiling amount equal to the total estimated cost stated in the contract. The contractor is normally excused from further performance after the contractor’s costs reach the ceiling, unless the sponsor increases the ceiling.
(b) **Cost-Plus-A-Fee Contract** - a cost-reimbursement contract under which the contractor is paid a fee in addition to costs incurred. The fee may be set as a fixed percentage of the total estimated cost (a cost-plus-fixed-fee contract), or it may vary depending upon specified parameters such as cost, performance or schedule incentives set at the time the contract is negotiated (a cost-plus-incentive-fee contract). Cost-plus-a-fee contracts are not normally used for sponsored agreements of the System.

(c) **Fixed Price Contract** - a contract in which the contractor agrees to deliver or to perform the contract work within the period specified at a fixed price agreed upon in advance and payable regardless of the actual costs.

(d) **Fixed Price Contract With Price Revision** - a fixed price contract that contains a provision for negotiating the price, sometimes either downward or upward within preset limits, after the work has been completed.

(2) **Grants** - an award of financial assistance to accomplish a public purpose. Grants may be in the form of cash or property. The cash or property is designated by the grantor to be used for a specific educational, research, or extension project or activity, thus serving a specific interest or objective of the grantor. Grants awarded by federal agencies are subject to Office of Management and Budget (OMB) Circular A-110 and regulations established by the awarding agencies.

(a) **Project Grant** - the most common form of grant. It provides funding for a specific project or program with a defined scope of work. Most project grants are for organized research.

(b) **Consortium Grant** - a grant made to one institution in support of a project in which the program is carried out through a cooperative arrangement between or among the grantee institution and one or more participating institutions.

(c) **Demonstration Grant** - a grant, generally of limited duration, made to establish or demonstrate the feasibility of a theory or approach.

(d) **Formula Grant** - a type of grant awarded on the basis of some formula for distribution prescribed by legislation or executive directive. Examples are formula grants to agricultural experiment stations.

(e) **Grant-In-Aid** - another name for a project grant or formula grant.

(f) **Step-Funded Grant** - a project grant, usually for a period of three years, with the initial grant providing 100% of the funds for the first year, 2/3 of the funds for the second year and 1/3 for the third year. A year later, if the project is to be continued, the grant provides 1/3 of the funds for the second year, 1/3 for the third year and 1/3 for a fourth year.
(3) **Cooperative Agreement** - an award of financial assistance, similar to a grant, except that "substantial involvement" is anticipated between the awarding agency and the recipient during performance of the project or activity. "Substantial involvement" means that the recipient can expect programmatic collaboration or participation from the awarding party in the management of the award. Cooperative agreements awarded by federal agencies are usually subject to the same administrative requirements as grants.

**Preparation and Submission of Proposals/Agreements**

**Sponsored agreements** will be conducted in accordance with the terms of a written agreement between the System component involved and the sponsor. The agreement will include, but is not limited to, the following:

1. statement of work, including specific responsibility of each party;
2. name or position of faculty or staff member directly responsible for the program;
3. the amount, terms of payment, and type of costs for which the funds may be expended;
4. F&A cost considerations;
5. provisions for progress and final reports; and
6. ownership of research results, patents, equipment, publications, and copyrights. (See System Regulation 17.02.01.)

**Sponsored Agreements Administered by the Texas A&M Research Foundation**

The Texas A&M Research Foundation (Research Foundation) is an independent, nonprofit organization affiliated with and representing the System and its components in **sponsored arrangements** with research sponsors from industry, government, foundations, private business organizations, and other nonprofit organizations.
Allowability and Documentation of Costs on Federally Sponsored Agreements

Regardless of whether they are treated as direct costs or F&A costs, the allowability of costs on sponsored agreements with federal agencies is governed by the cost accounting principles prescribed by OMB Circular A-21, *Cost Principles for Educational Institutions*. These cost principles are also used in determining the cost of work performed by educational institutions under subgrants, cost-reimbursement subcontracts, and other awards under federally sponsored agreements. Further, OMB Circular A-21 cost principles are used as a guide in the pricing of fixed-price or lump sum contracts and sub-contracts performed by educational institutions where estimated costs are used in determining the appropriate price.

All costs charged to sponsored agreements must be adequately documented. Charges for salaries and wages must be documented by after-the-fact certifications (or individual time sheets for hourly staff and some student employees) of time or effort devoted to each sponsored agreement by each employee. The documentation of other costs, such as supplies and travel should be appropriate to the specific type of expense involved (e.g., invoices, airline and hotel receipts, etc.).

Consistent Treatment of Direct Costs and Facilities and Administrative Costs of Sponsored Agreements

**Direct Costs**

Those costs that can be identified specifically with a particular sponsored project, an instructional activity, or any other institutional activity or that can be directly assigned to such activity relatively easily with a high degree of accuracy. Examples of costs charged directly to a sponsored agreement are the compensation of employees for performance of work on the project, the costs of materials expended on the project, and other items of expense incurred for the project.

**F&A Costs**

Those costs that are incurred for common or joint objectives and therefore cannot be identified readily and specifically with a particular sponsored project, an instructional activity or any other institutional activity. Examples of F&A costs, which were formerly referred to as indirect costs, are general administrative expenses, departmental administration, sponsored projects administration, equipment and building use allowances, and physical plant operation and maintenance. These costs represent a real expense to the institution in the performance of sponsored agreements.

Sponsor and Researcher Information
Add/Modify Sponsor Information

Inquiry and updates to FAMIS sponsor information are handled on Screen 4. Sponsor numbers are created to identify those agencies and institutions that support research within the TAMU System. The 7-digit number, associated with each sponsor, is assigned by the user according to guidelines set by his/her System part.

A three-digit field for entering the Texas State Agency Code (Tx State Agency Cd) has been added to indicate that a sponsor is a Texas State Agency. (Examples: use 711 for TAMU and 710 for TAMUS.) FAMIS will not allow you to enter the Sponsor Code without an Agency Code. If there is no State Agency Code, you may use “999.”

A Maestro identification number is required in the Maestro field. Use PF2 to select the sponsor’s ID from the search screen; if none is available you will need to request a new Maestro sponsor number from someone authorized at your entity.

Request a new Maestro Sponsor Number

1. Download and complete the form:

2. Email the completed form to maestrosponsor@tamus.edu or FAX it to (979) 458-7619. TEES Research Services (TRS) will provide the Maestro Sponsor ID. This central maintenance is required to avoid duplicates and maintain standard names in Maestro.

3. Create the sponsor in FAMIS, entering the Maestro Sponsor ID received from TRS in the Maestro field on Screen 4.

The Sponsor Table (file) is a shared file among FAMIS users. The changes you make for a sponsor affect all TAMUS Parts using the SPR module.

Basic Steps

Add Sponsors

• Type a zero (0) in the Sponsor field and press <ENTER>.
• Type a Sponsor Name and Sponsor Type in the available fields.
• Enter additional data in the fields provided, as desired.
• Press <ENTER> to record the sponsor information.

Modify Sponsors

• Type the sponsor’s number in the Sponsor field or type an asterisk (*) to select the desired sponsor from the displayed list in the pop-up window and press <ENTER>.
• Make modifications as needed and press <ENTER> to record the information.

Field Descriptions (◆ = Required; Help = Field Help Available Using PF2, ? or *)

Action Line
◆ Sponsor:  
7 digits
Enter a FAMIS sponsor identification number.

Screen Information
◆ Sponsor Name:  
40 characters
Identify the short name or abbreviation of the sponsor.

Sponsor Long Name:  
60 characters
Type the full name of the sponsor giving awards for research. This should be the same as the previous field unless the sponsor name is too lengthy for the Sponsor Name field.
Screen 4 – Sponsor Maintenance (cont’d)

**Sponsor Type:** 2 characters
Identify the type of sponsor funding the project.

**State Code:** 2 characters
Include the State mail code. Example: Texas = TX.

**Tx State Agency Cd:** 3 digits
Enter the Texas State Agency code for a sponsor that is a Texas State Agency. (Examples: 711 for TAMU and 710 for TAMUS.) If there is none, you may use “999.”

**Classification Levels:**
Indicate hierarchical classification levels available to classify sponsors.

**Fiscal-Year-End:** 2 digits
Signify the last month of the fiscal year for the selected sponsor.

**Maestro:** 10 digits
Enter the identification code for the Maestro sponsor. If none is available, you will need to follow the steps for creating a new Maestro sponsor.

**Restrictions:** 100 characters
Identify any restrictions placed by the specified sponsor.

**Added by:** 15 characters/digits
Displays the FAMIS User ID of the person who added the sponsor, and the date the sponsor was added.

**Sel:** 1 character
Type an “X” and press <ENTER> to select and view additional contact information.

**Type:** 1 character
Identifies the function of the contact.

**Name:** 25 characters
Displays the full name of the contact.

**Title:** 20 character
Indicates the title/function of the proposal contact.

**Phone:** 10 digits
Displays the area code and phone number of the proposal contact.

**Ext:** 4 digits
Identifies the phone extension number of the specified contact.

>>> Press PF10 for a list of Sponsor Contacts <<<

Basic Steps

Add or Modify Sponsor Contacts
- Type a sponsor identification number in the Sponsor field and Contact Type field and press <ENTER>.
- Enter the name of the contact in the Name field.
- Enter additional data in the available fields, as desired.
- Press <ENTER> to record the sponsor contact information.

Contact Maintenance Process

Contact Search
Press PF10 to display a complete list of contacts for a specified sponsor. Typing an “X” next to the appropriate contact and pressing <ENTER> will take you back to Screen 5 where the selected contact information will be displayed. Press <ENTER> to return to Screen 5 without selecting a contact.
Contact Type
The contact type is used to group sponsor contacts by function. Only one contact is allowed per contact type. For example, if there are two administrative position contacts, only one would be listed under contact type "A." The second contact should be "A2"; the next should be "A3," etc. The same process applies to all contact types.

Typing a question mark (?) in the Contact Type field and pressing <ENTER> will access a pop-up window with a list of valid contact types. Enter an “X” next to the desired contact type and press <ENTER> to select it and return to Screen 5. Press PF4 if you wish to return to Screen 5 without selecting a contact type.

Sample contact types include the following values:

<table>
<thead>
<tr>
<th>VALUES</th>
<th>MEANING</th>
</tr>
</thead>
<tbody>
<tr>
<td>A</td>
<td>ADMINISTRATIVE</td>
</tr>
<tr>
<td>A2</td>
<td>ADMINISTRATIVE - 2</td>
</tr>
<tr>

Enter Sponsor Aliases

An alias is a name for a specified sponsor, other than the current record name. Aliases can help locate the sponsor through a name search. Each sponsor may have several aliases. Screen 7 is used to maintain aliases for a sponsor.

Each TAMUS Member has designated users who have the authority to update the Alias field for a sponsor.

**Screen 7 - Sponsor Alias Maintenance**

<table>
<thead>
<tr>
<th>007 Sponsor Alias Maintenance</th>

</tr>
</tbody>
</table>

**Basic Steps**

**Add a Sponsor Alias**
- Type a sponsor identification number in the Sponsor field.
- Press <ENTER> to display any existing alias information.
- Type the name of the sponsor alias and press <ENTER> to record.

**Drop a Sponsor Alias**
- Type “Y” in the Drop field next to the desired alias. No sponsor data is lost when an alias is dropped.
- Press <ENTER> to confirm the drop.

When a sponsor is deleted (using Screen 192), FAMIS will automatically remove all aliases that have been created for the sponsor.
Screen 7 – Sponsor Alias Maintenance (cont’d)

Field Descriptions (◆ = Required; Help = Field Help Available Using PF2, ? or *)

Action Line
◆ Sponsor: [Help] 7 digits
   Enter a FAMIS sponsor identification number.

Screen Information
◆ Alias: 40 characters
   Enter the alias name for the sponsor, other than the current record name.

Drop: 1 character
   Type “Y” to drop the sponsor alias from the system.

Additional Functions
PF KEYS
   See the Appendix for an explanation of the standard PF keys.

PF5 Next
   Goes to the next screen that follows according to information shown on Screen 821.
Enter Sponsor Classification Levels

Entry and update of sponsor classification levels is accomplished by using Screen 8. This is used primarily for Federal sponsors to provide a hierarchical classification.

For example in the screen displayed below, the “Forth Worth division of the Army Corps of Engineers” could be identified by the following hierarchy:

Level 1 - DOD
Level 2 - Army
Level 3 - Corps
Level 4 - FW

Information entered on this screen may be viewed using Screen 4 or Screen 9.

Screen 8 - Sponsor Levels Maintenance

Basic Steps

- Type a sponsor identification number in the Sponsor field and press <ENTER> to display the existing sponsor information.
- Type up to 6 levels of organization for the sponsor and press <ENTER> to record the information.

Field Descriptions (◆ = Required; Help = Field Help Available Using PF2, ?, or *)

**Action Line**

◆ Sponsor: 7 digits
Enter a FAMIS sponsor identification number.
Screen 8 – Sponsor Levels Maintenance (cont’d)

Screen Information
Level 1, 2, 3, 4, 5, 6: 6 characters each, 6 levels
Identify the user-defined hierarchical classification of a selected sponsor.

Additional Functions
PF KEYS
See the Appendix for an explanation of the standard PF keys.

PF5
Next
Goes to the next screen that follows according to information shown on Screen 821.
Sponsors by Classification Level

You may display all sponsors for a level or combination of levels and sponsor type using Screen 9. If you enter only data in the Sponsor Type field, all levels for that type will be displayed.

Screen 9 - Sponsor Levels Inquiry

```
009 Sponsor Levels Inquiry 02/12/09 16:43
Screen: ___ Sponsor Type: F_
Levels: AID__ ______ ______ ______ ______
ID Sponsor Name ----------------- Levels ----------------
0xxxxx5 USAID AID
0xxxxx2 AID-BOLIVA AID BOLIVI
0xxxxx2 AID-IDCA AID IDCA
0xxxxx3 AID-IDCA-REDSO-WCA-OP AID IDCA REDSO

**** End of Sponsor List ****
```

Basic Steps

- Type a Sponsor Type, and Levels if desired, and press <ENTER> to display a list of sponsors and their assigned levels.
- Press <ENTER> to page through the listing.

Sponsor Levels Inquiry Process

Positioning the Display
The sponsor levels listing may be positioned by entering one or more valid levels in the fields provided. Type in the desired levels in the Levels fields to view a list of sponsors that have been assigned to the specified levels, or leave blank to view all sponsors for the sponsor type entered in the Sponsor Type field.

Sponsor Types

```
F = FEDERAL
IN = INSTITUTIONAL (TAMUS SPONSORED)
LA = COUNTY AGENCIES
LD = DISTRICTS, AUTHORITIES, COMMISSION
LG = CITY GOVERNMENTS
NC = PRIVATE NON-PROF FED FUND RES ORG
NF = PRIVATE NON-PROF FOUNDATION
NR = PRIVATE NON-PROF RESEARCH ORG.
```
Field Descriptions (◆ = Required; Help = Field Help Available Using PF2, ?, or *)

**Action Line**

◆ Sponsor Type: 2 characters

Identify the type of sponsor funding the project.

**Levels:**

6 characters each, 6 levels

Indicate the hierarchical classification levels to narrow the display of sponsors.

**Screen Information**

ID: 7 digits

Shows the FAMIS sponsor identification number.

Sponsor Name: 25 characters

Indicates the name of the sponsor.

**Levels:**

6 characters

Identifies the user-defined hierarchical classification level of a selected sponsor.

**Additional Functions**

PF KEYS

See the Appendix for an explanation of the standard PF keys.

PF5 Next

Goes to the next screen that follows according to information shown on Screen 821.
Delete a Sponsor

Sponsors may be deleted from the system using Screen 192. However, sponsors may only be deleted if they do not have any existing projects associated with them.

If there are existing projects associated with the sponsor, the message shown on the screen below will appear at the top of the window.

**Screen 192 - Sponsor Delete**

S6304 12 Project(s) exist on Campus 17 - Cannot Delete Sponsor
192 Sponsor Delete 02/13/09 08:38
Screen: ___ Sponsor: 0001682

FY 2009 CC 02

Enter 'Y' to Delete: _

Sponsor: RURAL COASTAL BEND PRIVATE INDUSTRY COUNCIL
Short Name: RURAL COASTAL BEND PRIVATE INDUSTRY CNCL
Sponsor Type: PP State Code: TX

Basic Steps

- Type a sponsor identification number in the Sponsor field and press <ENTER> to display existing sponsor information.
- If there are no existing projects associated with the sponsor, you may type “Y” in the Delete field and press <ENTER> to remove the sponsor from the system.
- Type “Y” in the pop-up window to confirm deletion of the specified sponsor.

Sponsor Deletion Process

**Delete a Sponsor**
If there are no existing projects associated with the specified sponsor, you may type “Y” in the Delete field on Screen 192 to initiate removal of the sponsor from the system. Type a “Y” in the confirmation window to delete the specified sponsor.
**Field Descriptions** (◆ = Required; **Help** = Field Help Available Using PF2, ? or *)

**Action Line**

◆ Sponsor: 7 digits
Enter a sponsor identification number.

◆ Enter ‘Y’ to Delete: 1 character
Type “Y” to delete the sponsor.

**Screen Information**

Sponsor: 60 characters
Displays the full name of the sponsor to be deleted.

Short Name: 40 characters
Identifies a short name or abbreviation of the sponsor to be deleted.

Sponsor Type: 2 characters
Indicates the type of sponsor.

State Code: 2 characters
Shows the state mail code.

**Additional Functions**

PF KEYS
See the Appendix for an explanation of the standard PF keys.
Add/Modify Researcher Information

Screen 6 allows update and informational inquiry about a researcher. The researcher’s UIN (Universal Identification Number) is currently used as the researcher identification number.

The person file for research must be set up on FRS Screen 850 before data will be displayed on this screen.

Basic Steps

- Type a researcher identification number in the **Researcher** field. If the number is not known, you may type an asterisk (*) in this field to view a list of researchers, or type part or all of the researcher’s last name to view matching researchers.
- Press <ENTER> to display existing researcher information.
- Type additional information or make modifications, as desired, and press <ENTER> to record the researcher information.

Field Descriptions  (◆ = Required; **Help** = Field Help Available Using PF2, ?, or *)

**Action Line**  
◆ **Researcher:**  

9 digits  
Enter a researcher’s UIN number.

**Screen Information**  

**PI/Researcher:**  

1 character  
Type “Y” in this field if the person is a PI/Researcher.

**Date Doctoral Received:**  

10 digits  
Enter the date the researcher received his/her doctoral degree.
Screen 6 – Researcher Maintenance (cont’d)

**Member Graduate Council:**
Type “Y” if the researcher is a member of the graduate council.

**Assistant Name:** Identify the name of the researcher’s assistant, if any.

**Assistant Phone:** Provide the phone number of the researcher’s assistant, if applicable.

**Areas of Interest:** Include any or the researcher’s interests/specialties. Note: this is not currently defined for the system.

**Special Instructions:** Indicate any special instructions/items of interest for the selected researcher.

**UIN:** Displays the researcher’s Universal Identification Number.

**Address:** Provides the street address of the selected researcher, as entered on Screen 850.

**Gender:** Indicates whether the specified researcher is a male (M) or female (F).

**Dept/SDept:** Identifies the department or subdepartment where the researcher is employed.

**Date Hired:** Shows the researcher’s hire date.

**City:** Displays the city where the researcher resides.

**St:** Indicates the mail code of the state where the researcher resides.

**Zip:** Identifies the ZIP code for the researcher’s mailing address.

**Title Code:** Identifies the position held by the researcher within the TAMU system.

**Phone:** Provides the researcher’s phone number.

**FAX:** Shows the researcher’s FAX number.
Screen 6 – Researcher Maintenance (cont’d)

**Adloc Part:**
- **PF2 Help** 2 digits
  As defined by BPP.

**Mail Code:**
- **PF2 Help** 5 digits
  Identifies the researcher’s campus mail stop code.

**Adloc Acct:**
- 6 digits
  Shows the adloc account, as defined by BPP.

**Suffix:**
- 1 character
  Displays the suffix assigned to the adloc account, as defined by BPP.

**E-Mail:**
- 30 characters
  Identifies the researcher’s email address, if available.

**Additional Functions**
- **PF KEYS**
  See Appendix for explanation of standard PF keys.

- PF5
  Next

  Goes to the next screen that follows according to information on **Screen 821**.
You can find the screens that are needed to transfer project and award information to and from on-line proposals by viewing Menu M10. This menu lists the available project/proposal transfer screens for the SPR application functions.

These transfer screens eliminate the extra work that would otherwise be required when an award is made from a proposal established in FAMIS.

There are two transfers from a proposal to an award:

1. creates both the project and the first award
2. creates an award to an existing project

In addition, you have the ability to create a proposal from an existing project or award. Again, this can eliminate a lot of entry work when you put out a proposal for a second award.

Menu M10 - SPR Project Proposal Transfer Menu

Create Project/Award from a Proposal

FAMIS makes it possible for you to create a new project and its first award from an existing online proposal. You may use Screen 101 to give a system assigned project number or you may assign your own number to the project. This screen will also provide information on the type of project you are creating.

Before you can create a project or an award from a proposal, the proposal status must be set to “A” or “F” on Screen 11.

This screen is only used to create new projects and their first award. If a project already exists for a proposal, or an award has already been entered on the system, you should use Screen 111 to work with the existing project.

Screen 101 - Project/Award Create from Proposal

Basic Steps

- Type a proposal number in the **Proposal** field.
- Type a version number in the **Version** field, if necessary, and press <ENTER> to display existing proposal information.
- In the fields available, indicate whether or not you would like FAMIS to assign the project number, if you would like to copy the researcher/contacts from the proposal, and enter the project instrument and funding types.
- Enter the type of award, amount of the award, as well as its beginning and ending dates in the fields provided, and press <ENTER> to record the detailed project information.
Screen 101 – Project/Award Create from Proposal (cont’d)

Project/Award Creation Process

Create New Projects
To create new projects from an existing proposal, you must first:

- Enter “Y” in the **System Assigned Number** field. This will prompt the system to assign a project number.
- OR
- Enter a 10-digit number in the **User Assigned Number** field to define your own project number.

Field Descriptions (◆ = Required; Help = Field Help Available Using PF2, ? or *)

**Action Line**
◆ Proposal: *Help 7 digits
Specify the proposal from which an award and project will be created.

Version: 3 characters/digits
Identify the specific version of the proposal from which the award and project will be created.

**Screen Information**

<table>

Use PF8 key to add up to 26 additional responsible persons.

**Basic Steps**

- Type an account number in the **Account** field and press <ENTER>. If this is the number of an existing account, the SPR attribute information will display. If no attribute information displays, you can input this information in the necessary fields.
- The **Billing Revenue Object**, **Indirect Expense Object** and **Indirect Revenue Object** fields will not automatically be populated. This change is due to the new object codes being based on source of funds rather than sponsor type.

These are now required fields when adding an SPR project number to an account.

- The entry in the **Billing Revenue Object** field determines the **Indirect Expense Object**, **Indirect Revenue Object** and **Distribution** (2026 ACT). Press <ENTER> to record the information.
**FRS Screen 9 – Subsidiary Ledger Grant/Contract Attributes (cont’d)**

- To create a new account from data existing on an SPR project, press **PF7**. This is intended to reduce the amount of input to fields that will be common to the project. To use this feature, you first enter the account number that you wish to add in the **Account** field, and press <ENTER>. Then press **PF7**. The pop-up window displayed asks that you enter the project number to be used to populate the SL. Include this in the field provided and press <ENTER>. Most attribute fields will be filled in with the values from the original account, but not all. The fields may be changed as necessary. Press **PF8** to add up to 26 additional responsible persons.

**Field Descriptions** (◆ = Required; **Help** = Field Help Available Using PF2, ?, or *)

*Only object codes 0250 through 0279, and 0286 are allowed.*
FRS Screen 9 – Subsidiary Ledger Grant/Contract Attributes (cont'd)

**Indirect Expense Object:**
4 digits
Include the object code used for billing sponsor for indirect costs associated with the project. This is filled in by FAMIS based on the code that is generated in the Billing Revenue Object field.

**Indirect Revenue Object:**
4 digits
Enter the object code used for specifying revenue received from indirect expenses for the project.

**TE Certify:**
PF2 Help 1 character
Signify (“Y” or “N”) if the account must be Time and Effort certified. The default is blank. If account meets the criteria for T&E certification (e.g. Federal Grant), this field will default to “Y.”

**System Member:**
PF2 Help 2 digits
Include the System Member campus code.

**E-Verify:**
PF2 Help 1 character
Federal contractors are required to agree to E-Verify employees paid on contracts. This flag (“Y”, “N” or blank) is used to help identify the accounts and affected employees paid on these accounts.

**Funding:**
12 characters
Displays “ARRA Stimulus” if either the AFR Fund Group field on Screen 6 contains “41” (Restricted-ARRA), or if the Sub-Sub field on Screen 6 contains “AR.” Helps to track any type of special funding such as the American Recovery and Reinvestment Act (ARRA).

**System Member:**
? Help 2 digits
Identify the TAMUS member where project is initiated.

**E-Verify:**
Help 1 character
Federal contractors are required to agree to E-Verify employees paid on contracts. This flag (“Y”, “N” or blank) is used to help identify the accounts and affected employees paid on these accounts.

**Indirect Cost:**

**Base:**
? Help 8 characters
Include base or rules for indirect cost charges.

**Rate:**
5 digits
Indicate rate indirect costs will be charged.

**Distribution:**
? Help 10 digits
Identify the code to be used for percentage distribution of indirect cost.
FRS Screen 9 – Subsidiary Ledger Grant/Contract Attributes (cont’d)

Responsible Persons:
1, 2, 3, 4:  
? Help 2 characters/9 digits
Indicate the responsible person type and identification number (UIN) of the person(s) responsible for the account. Use PF8 to add additional responsible persons.

The following fields are displayed from data input in the SPR module.

Project Information – Display Only
Short Title: 50 characters
Shows the title of project in SPR tied to account.

Sponsor: 50 characters
Identifies sponsor name for the SPR project tied to this account.

Award Nbr: 11 digits
Indicates award number associated with project.

CFDA Nbr: 8 digits
Identifies the Catalog of Federal Domestic Assistance number assigned to the SPR project.

Total Awarded: 15 digits
Gives the total dollar amount awarded to project.

Additional Functions
PF KEYS
See the Appendix for explanation of the standard PF keys.

PF5 Next
Advances to the next screen.

PF7 Create Project
Create a new account from data existing on an SPR project.

PF8 Additional Responsible Persons
Used to add up to 26 additional responsible persons.
Add New Projects

The first step in adding your project on-line is to obtain a project identification number. There are two ways to assign a project number to a new project:

1) allow FAMIS to automatically assign a sequential number

OR

2) manually assign the project number using Screen 110

Many users assign the account number as the project number to facilitate reporting. TAMU made this change in 1999.

Screen 110 - Project Add Begin

<table>
<thead>
<tr>
<th>110 Project Add Begin</th>
<th>02/13/09 09:30</th>
</tr>
</thead>
<tbody>
<tr>
<td>Screen: ___</td>
<td>FY 2009 CC AM</td>
</tr>
<tr>
<td>System Assigned Number: Y</td>
<td>User Assigned Number: __________</td>
</tr>
</tbody>
</table>

To start the add of new project, perform one of the following steps:

1) To have the system assign a project number enter a ‘Y’ in the 'System Assigned Number' field.

2) To assign your own project number enter a ten-digit project number in the 'User Assigned Number' field.

Basic Steps

- Type “Y” in the System Assigned Number field to have the system assign a project number.

OR

- Enter a 10-digit number in the User Assigned Number field.

- Press <ENTER> to advance to Screen 111 (Project General Information).

Field Descriptions (◆ = Required; Help = Field Help Available Using PF2, ? or *)

Screen Information

<table>
<thead>
<tr>
<th>System Assigned Number: 1 character</th>
</tr>
</thead>
<tbody>
<tr>
<td>Type “Y” to automatically assign the project number.</td>
</tr>
</tbody>
</table>
Screen 110 – Project Add Begin (cont’d)

User Assigned Number:

Enter a user assigned number in this field to manually assign the project number.

Since 1999, TAMU uses the *User Assigned Number* field. They assign the *account number* as the project number. This facilitates reporting on projects.

**Additional Functions**

**PF KEYS**

See the Appendix for explanation of the standard PF keys.

**PFS**

**Next**

Goes to the next screen that follows according to information shown on *Screen 821*. 
Add/Modify Project Information

To begin adding information about your project, use Screen 111. Information includes the title of the project, the sponsor, and award information.

Once the project is established, this screen is also used to update existing information.

The code entered in the Status field must be set to “A” to generate billing. Use status codes “N” or “T” when you are ready to stop the billing process. All other status codes will continue to produce bills.

Definitions for Project Instrument Types

Contract
a) The principal purpose is to acquire services for the direct benefit or use of the government.

b) Substantial involvement is anticipated between the government and the recipient, and an executive agency determines in a specific instance that a procurement contract is appropriate.

Grant
The appropriate agreement to be used whenever:

a) The principal purpose is the transfer of money, property, service or anything of value to the recipient in order to accomplish a public purpose.

b) No substantial involvement is anticipated between the government and the recipient.
**Agreement**

a) The principal purpose is the transfer of money, property services or anything of value to the recipient in order to accomplish a public purpose.

b) Substantial involvement is anticipated between government and the recipient.

**Basic Steps**

**New Projects**

- After you create the new project number on Screen 110, the system will automatically advance you to Screen 111.
- First, you must enter the title for the project in the **Title** field.
- Next, enter the sponsor number in the **Sponsor** field, or type a question mark (?) and press <ENTER> to find the identification number for your sponsor.
- Type the status of the project in the **Status** field.
- Provide the **Project Type**, **Instrument Type**, **Instrument Sub-Type**, and **Funding Type** in the fields available.
- Include any additional information in the fields provided, as desired.
- Press <ENTER> to successfully enter the project to the record.

**Existing Projects**

- You can enter a project number in the **Project** field and press <ENTER> to display existing project information, if any.
- If you don’t know the project number, type an (*) and press <ENTER> to select the project number from the list displayed.
- Add or modify the information, as desired.
- Press <ENTER> to record the information.

**Add/Modify Project Information**

**Parent-Child Projects (One project with multiple sponsors)**

Parent-Child Projects are set up when one project has multiple sponsors. To accommodate this situation in FAMIS, you must create a “Dummy” sponsor. Then the project is split up into “child projects”, each with a unique sponsor.

All accounting is posted to the Subsidiary Ledgers or Support Accounts and is not differentiated to a particular Child Project or unique sponsor.
**Indirect Cost for Parent-Child Projects**

- If indirect cost rates are the **same** for the different sponsors at the child project level, then indirect costs can be posted through the automated postings.

- If indirect cost rates are different for the **different** sponsors at the child project level, then indirect costs must be posted up front and manually.
Enter Multi-Year Projects
Multi-year projects present a special situation for entry into FAMIS. The project is set up for the full term of the contract. Then each year is entered as a separate award.

**Project 4202080000**
Single Grant – Sponsor US Department of Education
Term dates are 10/01/2002 through 09/03/2005.

Total Award Amount: 1352243.00
Screen Amount: 1352243.00

Field Descriptions (◆ = Required; Help = Field Help Available Using PF2, ? or *)

Action Line
◆ Project: *Help 10 digits
Enter the identification number of the project you want to add or modify.

Screen Information
◆ Title: 40 characters
Type the title of the project.

SRS: ?Help 1 character
Use to identify if this is an SRS account.
N = No
Y = Yes
Blank = Not applicable/No/Unknown

Long Title: 130 characters
Use this field if the project title is too long for the previous field, and needs further description.

◆ Sponsor: ?Help 7 digits
Enter the associated sponsor’s ID number.

Sponsor Awd Nbr: PF2 Help 40 digits
Indicate the award number assigned by the sponsor.

Competitive Seg: 1 character
Indicator provided by the government to designate another version of an award. (RF – for Dept DHHS awards - projects are in 4-year blocks and then continue in additional 4-year blocks - each is a competitive segment.)
Screen 111 – Project General Information – Page 1 (cont’d)

- **Status:** Enter the status of the project. This code must be set to “A” to generate billing. Use status codes “N” or “T” when you are ready to stop the billing process. All other status codes will continue to produce bills.

  - **Number of Awards:** Shows the number of awards that have been assigned to the project.

  - **Begin Date:** Displays the date the project is to begin.

  - **Total Awards Amt:** Shows you the total dollar amount from all awards to the project.

  - **End Date:** Indicates the date the project is to end.

- **Project Type:** Enter whether the project is a single project or parent/child.

  - **Parent Project:** Identify the number of the parent project – must be set to “9999999999”. This field is used to consolidate information from the “child” single sponsor projects.

- **Instrument Type:** Indicate the type of funding instrument: Grant, Contract, or Agreement.

- **Instrument Sub-Type:** Enter the instrument sub-type for your project.

- **Funding Type:** Identify how the project will be funded.

  - **CFDA Code:** Enter the Catalog of Federal Domestic Assistance Code under which the project is classified, if applicable.

  - **NSF Category:** Indicate the agency code for split-out on the NSF report.

  - **Fed Flow Sponsor:** Enter the originating Federal sponsor’s identification number, if applicable.

  - **Entered Date:** Shows the date the project information was added or modified.
**Additional Functions**

PF KEYS

- **PF5 Next**
  Goes to the next screen that follows according to information shown on Screen 821.

- **PF9 Title**
  Displays additional lines for the long title.

See the Appendix for explanation of the standard PF keys.
Enter Additional Project Information

Further information for your project is entered on Screen 112. Certain sponsors, such as Federal sponsors, require some attributes.

To stop the calculation and posting of IDC:

- change the Indirect Cost: Frequency field to “N” (or any non “M”). Using any code EXCEPT “M” in this field will stop IDC billing.
- IDC will billed for all projects with an “M” for monthly in this field.

Screen 112 - Project General Information - Page 2

If the TAMRF Number field is blank, Screen 118 puts the Sponsor in the billing address. When you type an entry in the TAMRF Number field, then it puts “Texas A&M Research Foundation” in the billing address. (See Screen 118 for an example.)

Basic Steps

- Enter a project number in the Project field and press <ENTER>.
- Enter or modify data in the fields provided.
- Press <ENTER> to record the information.

Field Descriptions (◆ = Required; Help = Field Help Available Using PF2, ?, or *)

**Action Line**

◆ Project:  
  *Help* 10 digits
  Enter the project identification number being added or modified.

◆ Research Administrator:  
  ?Help 9 digits
  Enter the identification number for the research administrator primarily responsible for the project.
Screen Information

TAMRF Number: **PF2 Help** 10 digits
Indicate the project number used by the Texas A&M Research Foundation for awards passed through TAMRF.

Prior System Project: **PF2 Help** 15 digits
Enter the project number assigned on another system prior to converting to FAMIS.

Indirect Cost: **PF2 Help** 6 digits
Percentage used to calculate the amount of indirect cost.
Typing “N” or any non “M” code in this field will stop calculation and posting of IDC. IDC will be billed for all projects with an “M” (monthly) code.

Base: **Help** 8 characters
Shows the base, or rules, for indirect cost charges.

Level: **Help** 3 characters/digits
Determines the level of cost values for funding the project. IDC related field.

Justification: **Help** 3 characters/digits
Enter the justification code to show the reason of not getting the IDC rate.

Frequency: **Help** 1 character
Indicate the frequency with which the indirect cost is calculated.

Comment: 40 characters
Enter comments about the indirect cost by using this field.

Taxation Code: **Help** 1 character
Enter “Y” if taxable; “N” if not taxed; or leave field blank to indicate this code is not applicable or the taxation is unknown.

Comment: 40 characters
Enter comments about the taxation code by using this field.

Equipment Title: **Help** 5 characters
Indicate who retains title to any equipment purchased. This field may be left blank if not applicable.

Comment: 40 characters
Enter a comment describing the Equipment Title.

Security: **Help** 1 character
Indicate the security level of the project, i.e., “top secret” “confidential”

Info Restrict: **Help** 1 character
Indicate if there is any publicity limitation on the project.
**Screen 112 – Project General Information – Page 2 (cont’d)**

Add/Modify Award Information

FAMIS allows you to view and maintain award information for a project, using Screen 113. As awards are made, Screen 113 allows you to add a new award to the project. **Every action on a project is treated as an award.**

This screen must be filled in to mark the award as ARRA stimulus funds.

These fields must be completed to view data on Screen 147 (Display Awards for a Researcher). See Screen 807 for further explanation of the process of reporting on Departmental awards.

Basic Steps

**New Awards**

- Go to Screen 113.
- Type the project number in the **Project** field.
- Type “Y” in the **Add Award** field and press <ENTER>.
- Enter the **Award Type**, **Begin Date**, and **End Date** of the award period.
- Type additional information in the fields, as desired.
- Press <ENTER> to record the data.
Screen 113 – Award Information Maintenance (cont’d)

Field Descriptions (◆ = Required; [Help] = Field Help Available Using PF2, ? or *)

Existing Awards
- Enter a project number in the Project field and press <ENTER> to display existing project information. If you don’t know the project number, type an (*) and press <ENTER> to view a list of projects to choose from. Select a project by typing an “X” in the selection field to the left of the project, and press <ENTER> to return to Screen 113.
- You may add or modify data in available fields, as necessary.
- Press <ENTER> to record the data.

Action Line
- Project: ◆ Help 10 digits
  Enter the project number to which you will add or modify an award.

- Award: 3 digits
  Indicate the award number associated with the specified project.

Add Award: 1 character
Type “Y” to add a new award to a project.

Screen Information
- Award Type: [Help] 1 character
  Enter the type of award being added or modified.

- Amount: PF2 Help 15 digits
  Type the dollar amount of the award.

- Begin Date: PF2 Help 8 digits
  Enter the start date for the award.

- End Date: PF2 Help 8 digits
  Include the date the award will end.

- Report Month: [Help] 2 digits
  Indicate the month in which to report award. (Example: Sept = “01”)
  Must be an open month.

- Report Fiscal Year: [Help] 4 digits
  Indicate the year to report the award.

- Proposal: [Help] 7 digits/3 digits
  Enter the proposal number and verification number.

- Sponsor Awd Nbr: 40 digits
  Enter the award number assigned by the sponsor. May not have to type.
Screen 113 – Award Information Maintenance (cont’d)

**Competitive Seg:** 1 character
Indicator provided by the government to designate another version of an award. (RF – for Dept DHHS awards - projects are in 4-year blocks and then continue in additional 4-year blocks - each is a competitive segment.)

**Comment:** 100 characters
Enter general comments about the award.

**Center Dept:** 4 characters
Include the Center department code.

**Sub Dept:** 4 characters
Enter the Center subdepartment code.

**Funding:** 2 characters
Identify the code to help track any type of special funding such as the American Recovery and Reinvestment Act (ARRA).

- AR = ARRA Stimulus Funding
- Blank = Not specified

**Added Date:** 8 digits
Shows the date the award was added to the project.

**Additional Functions**

**PF KEYS**
See the Appendix for explanation of the standard PF keys.

**PFS**
**Next**
Goes to the next screen that follows according to information shown on Screen 821.
Enter Researcher Award Distribution

You may view or enter the awards, and the amounts allotted to each researcher using Screen 114. This screen provides information that can be used to maintain the distribution of award dollars among your project researchers.

You can view the award distribution and Maestro information on one screen, or press PF6 to turn on the panel scroll feature to change the display of the research award distribution.

**If the “Lock” process is used, you will not be able to this screen.** If the “Report” column on SPR Screen 140 is blank, the project is locked and certain award information on SPR Screen 113 and SPR Screen 114 may not be updated. If “Y” is displayed in the column, the award information has not been “locked” and can be updated. Currently only Part 06 is still using the “lock” process on proposals and projects.

**If you have update access to this screen, you may modify the Maestro fields on closed awards.**

Screen Total: 10000.00

Using question mark (?) or the PF2 key on the Center, Admin Dept, and SDept code fields will display the codes for other campuses.

Basic Steps

- Enter a Project Number and Award in the fields provided and press <ENTER> to display existing project information. Note, you may also press PF6 to turn on the panel feature and scroll right to view 3 panels of information.
- Provide PI code, Researcher, and department information in the fields available to add or update researcher data.
- Add or modify additional data in the fields provided, as desired.
- Press <ENTER> to record the data.
Screen 114 – Researcher Award Distribution (cont’d)

Field Descriptions (◆ = Required; Help = Field Help Available Using PF2, ?, or *)

**Action Line**
◆ Project:  
* Help 10 digits  
Enter the project number being added or modified.

◆ Award:  
3 digits  
Indicate the award number associated with the specified project.

**Screen Information**

Panel 1 (NOPan)
Award Amount:  
Help 15 digits  
Displays the dollar amount of the award previously entered on Screen 113.

Distributed Amt:  
15 digits  
Shows the total dollar amount distributed among the researchers working on the proposal to date. Not all dollars must be distributed.

Auto Dist:  
1 character  
Enter a “Y” in this field to automatically distribute the total award amount evenly among several researchers.

F:  
Help 1 character  
Indicate whether or not you wish to add, update, or delete researcher information.

◆ PI:  
Help 1 digit/character  
Identify the principal investigator level of the researcher.

◆ Researcher:  
Help 9 digits  
Enter the researcher’s identification number taken from researcher file.

◆ Dept:  
Help 5 characters  
Enter the code for the department the researcher is associated with.

SDept:  
5 characters  
Enter the code for the researcher’s sub-department.

Award Amount:  
PF2 Help 15 digits  
Include the award amount distributed to the researcher(s).

Researcher Name:  
30 characters  
Displays the researcher’s full name, which is taken from the researcher file.

Dept Name:  
4 characters  
Shows the name of the department associated with the researcher, which is taken from the department code entered.

Enter Project Billing Information

With the proper information, FAMIS creates sponsor bills to be mailed to the sponsor for payment. Also, by option, programs are run to create an Accounts Receivable invoice and post the appropriate entries to FRS. The SPR billing programs are run at the end of the month with the regular month-end jobs. Use Screen 116 to enter and/or maintain billing information.

**Screen 116 - Project Billing Information**

Project Billing Information

**Project bills cannot be produced to the child level.**

Three types of billings are accommodated on this screen:

<table>
<thead>
<tr>
<th>Bill Type</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>O</td>
<td>Manual billing – not FAMIS produced</td>
</tr>
<tr>
<td>R</td>
<td>Cost reimbursable bills that are based on actual expenses</td>
</tr>
<tr>
<td>I</td>
<td>Regular installments amounts</td>
</tr>
</tbody>
</table>

Note that “non-regular” installment amounts, can be entered using Screen 117. This screen allows entry when the following fields on Screen 116 are:

- **Bill Mode** = A or M (automatic or manual)
- **Type** = I (installment)
- **Frequency** = H (according to sponsor schedule)

The combination of the **Bill Mode**, **Type** and **Frequency** fields are very important in defining how and when your bills will be produced. Look carefully at the valid values available to you.

**It is best not to use “Annual” billing for multiple years - do one year at a time.**
Screen 116 – Project Billing Information (cont’d)

For example:

- Bill Mode "R" produces an invoice report only with no posting in FAMIS.
- Bill Mode "A" produces an invoice and posts to FAMIS.

**Bill Mode:**
- "R" produces the Z invoice number
- All other bill types produce an R number

**Type:**
- "R" = reimbursable

**Both “R” and “Z” invoices come out of the same program.**

To STOP the printing of SPR bills, change the Project Status Code on Screen 11 to “T” or “N.”

**Invoice Form**

When setting up your invoice form with FAMIS Services, you have to determine the letterhead portion of the form. In addition, you set prodcards to control ranges for totals and text to print on the bills. Below is a sample:

**Prodcard 1 -- Sets up the ranges for totals.**

The columns are:

1-2  major group code
4-5  minor group code
7-10 begin object code range
12-15 end object code range

01\01\1000\1899\SALARIES AND WAGES
01\02\1900\1999\BENEFITS
01\03\2000\3999\TRAVEL
01\04\4000\4999\SUPPLIES
01\05\5000\7999\OTHER EXPENSES
01\06\8000\8999\EQUIPMENT
02\01\9600\9699\INDIRECT COST
**Prodcard 2 -- Prints on the bills.**

**CC 02 (TAMU) Example:**

Please make check payable to TAMU and reference invoice number on check. Mail check to TAMU - Contract Administration, College Station, TX 77843-1260. For inquiries, please call (979) 888-0000.

Approved: _________________________________________  
Contract Financial Administrator       Date

**CC 07 (AL-EXT) Example:**

Please make checks payable to the Texas AgriLife Extension Service. If you have any questions, please call John Smith at (979) 999-8888.

Approved: _________________________________________  
TAEX Contracts Administrator

**Prodcard 3 -- (used mainly by CC 99 - Research Foundation; most other parts leave this prodcard blank)**

Expenses incurred prior to Termination.

This is not a Final Invoice.
Basic Steps

- Enter a project number in the Project field and press <ENTER> to display existing project information. If the project number is not known, you may type an asterisk (*) in this field and press <ENTER> to view a list of projects. Select a project by typing an “X” in the selection field to the left of the project, press <ENTER>, and you will be returned to Screen 116.
- Type the Bill Mode, Type, and Frequency in the appropriate fields.
- Indicate the dates as required by the type of billing.
- Designate the regular installment amounts, if applicable.
- Type additional data in the available fields, as desired and press <ENTER> to record data.

Field Descriptions (◆ = Required; Help = Field Help Available Using PF2, ? or *)

**Action Line**

◆ Project: 10 digits
Enter the project number for the billing information you are adding.

**Screen Information**

◆ Bill Mode: 1 character
Indicate the method by which you intend to perform billing for the project.

◆ Type: 1 character
Signify the type of billing you will implement.

◆ Frequency: 1 character
Enter the frequency with which billing will be processed for your project.

- A = Annual
- BLANK = No Billing Freq. Requirement
- H = According to Sponsor Schedule
- L = Lump-Sum (Manual Bills Only)
- M = Monthly
- O = Other (Manual Bills Only)
- Q = Quarterly
- S = Semi-Annual

◆ Beg Date for Next Bill Cycle: 8 digits
Enter the date of the next billing cycle. This is the first date to pick up expenses. Disregard for installment scheduling. You still have to enter this, but it is only used to find the next installment.

◆ First Bill Date: 8 digits
Indicate the beginning date for producing the bills. The date must be the last date of the month.

If using “Annual” billing this defines the “year” (i.e. 05/30/08 will be May to May).

Screen 116 – Project Billing Information (cont’d)

**Form Number:** [PF2 Help] 8 digits
Enter the Federal form number to be used for billing.

**Number Copies:** [PF2 Help] 2 digits
Enter the number of copies of the report needed.

**Cost Share Report:** [Help] 1 character
Type “Y” to create a report for the billing clerk.

**Detail Expense:** [Help] 1 character
Enter “Y” to indicate that expense detail must accompany the bill.

**Manual Backup:** [Help] 1 character
Type “Y” to designate a manual backup must be done and included with the bill.

**Payroll Summary:** [Help] 1 character
Enter “Y” to if a payroll summary should be included with the bill.

**Payroll Detail:** [Help] 1 character
Type “Y” to include payroll detail information with the bill.

**Additional Functions**

**PF KEYS**
See the Appendix for explanation of the standard PF keys.

**PF5**
Next
Goes to the next screen that follows according to information shown on Screen 821.
Enter Project Installment Schedules

For those cases when the sponsor has given you an installment schedule, you may enter the dates and amounts on Screen 117. For FAMIS programs to produce the bills, the Date field must be the last day of a month. When the end of month billing programs are run, the bills will reflect the dates and amounts entered.

This screen is protected unless the information on Screen 116 reads:

- Bill Mode A = Automatic FAMIS Produces bill
- Bill Mode M = Manual
- Type I = Installation
- Frequency H = According to Sponsor Schedule

Screen 117 - Project Installment Schedule

<table>
<thead>
<tr>
<th>Date</th>
<th>Amount</th>
<th>Date</th>
<th>Amount</th>
</tr>

◆ Project: 10 digits
Enter the project number for the billing information being added or updated.

**Screen Information**

**BILL TO:** PF2 Help 30 characters
Name: Type the name of the person or department to be billed.

Phone: 12 digits
Enter the phone number of the person or department to be billed.

Ext: 4 digits
Indicate the phone extension number to be dialed, if available.

Title: 25 characters
Type the title of the person receiving the bill.

Fax: 12 digits
Enter the FAX number of the person or department being billed.

Address: 3 lines/30 characters
Enter the address where the bill should be sent.

City: 20 characters
Indicate the city location where the bill will be mailed.

State: ? Help 2 characters
Identify the state location where the bill will be sent.

Zip: 9 digits
Record the ZIP code for the address of the bill being mailed.

Country: ? Help 3 characters
Indicate the country where the person resides.

*******As Displayed on Invoice*******

Shows the name and address as it is listed on the invoice.

*(Reminder: if there is data in the TAMRF Number field on Screen 112, “TEXAS A&M RESEARCH FOUNDATION” will be displayed as part of the address.)*

**Additional Functions**

PF KEYS See Appendix for explanation of standard PF keys.

PF5 Next Goes to the next screen that follows according to information shown on Screen 821.
Enter Project Reporting Requirements

FAMIS allows you to add, view and maintain reporting requirements for a project using Screen 115.

Report requirements are entered in segments. A segment is a combination of a category/report type/frequency and can be seen as one line on this screen. A segment can be entered one of two ways:

1. by positioning the cursor on the desired line, pressing PF10 (CrTrk) and entering the data directly onto this screen

OR

2. by running the SBAU115 batch program. This program will create new segments based on the fields noted below, First Due Date and Last Due Date. The batch program includes a two month window, so you will see segments up to two months before their appropriate dates. (The two month window is not available online).

To view the further report detail for a project, go to Screen 127.

The report, SBAR143, lists segments that are overdue and coming due segments, but only those that are active and not completed, skipped or deleted.

</tbody>
</table>

Basic Steps

- Enter a project number in the Project field and press <ENTER> to display existing project information. If the number is not known, you may type an asterisk (*) in this field to select from a list in the pop-up window.
- To add a segment, press PF10 and fill in the category (Cat), frequency (Frq), and the First Due Date fields.
- Type additional data in the available fields, as desired, and press <ENTER> to record your data.
Screen 115 – Project Reporting Requirements (cont’d)

Field Descriptions (◆ = Required; Help = Field Help Available Using PF2, ?, or *)

Action Line
◆ Project: 10 digits
Enter the project number.

Screen Information
“Cat/Rpt Type” together make up a segment.

◆ Cat: 2 characters
Enter the category associated with the report.

Rpt Type: 3 characters
Indicate the type of report for this project. You may view valid codes for Report Type using the ? Help on the Cat field.

◆ Frq: 1 character
Identify the frequency with which reports will be provided.

Copies: 3 digits
Enter the number of copies needed.

Form Number: PF2 Help 8 characters/digits
Indicate the form number required when reporting for federal projects.

◆ First Due Date: 8 digits
Enter the date the report is first due.

Last Due Date: 8 digits
Enter the date that the last report is due.

Modify User ID: 8 characters/digits
Shows the user ID of the last person who modified this entry.

Modify Date: 8 digits
Indicates the date on which the last user modified this entry.

Additional Functions
PF KEYS See the Appendix for explanation of the standard PF keys.

PF5 Next
Goes to the next screen that follows according to information shown on Screen 821.

PF10 Create Report Tracking
Creates a new segment or if the segment already exists, creates a sequence.
Project Report Tracking

You may track project report sequences in FAMIS using Screen 127. A sequence is an iteration of a segment. The sequence has different dates connected with it.

All entries from this screen are kept for an audit trail. You may delete an entry that was entered online, but you may not delete sequences that were created by the batch program. To “disallow” them, you can change the status to “S” (SKIP) in the St field.

Will not automatically put data on this screen. You must use PF10 on Screen 115.

Only update and delete functions are allowed on this screen. If you want to add a project report, use Screen 115.

**Press Enter for More Reports**

Can use for corrections or change/orders

### Project Report Tracking Process

The status of a sequence changes to “Complete” when an entry is made in the *Date Sent to Sponsor* field.

**Segment/Sequence**

A segment is a unique combination of a category/report type/frequency. Multiple reports can be required for a segment. You can copy or create a new sequence that identifies a different set of dates to be reported for the same segment. The sequence numbers appear under the *Seq. No.* column.
Screen 127 – Project Report Tracking (cont’d)

**Sequence**
You can create a new sequence using the **PF10** key on Screen 115. If a segment already exists, a sequence is created. In the following example, the segment exists so a new sequence will be created.

![Create Report Segment](image)

**Status**
The following are valid status entries:

- **B** = Not Specified
- **C** = Complete
- **D** = Delete (Batch-Created records only)
- **S** = Skip

**Basic Steps**
- Enter a project number in the **Project** field and press <ENTER> to display existing project information. If the number is not known, you may type an asterisk (*) in this field to select from a list in the pop-up window.
- Provide the category (**Cat**), report type (**Rpt Type**), due date (**Date**) in the fields provided, and indicate if you want to include **Due/Overdue** or **Complete/Skipped** project reports.
- Type additional data in the available fields, as desired.
- Press <ENTER> to record your data.

**Field Descriptions** (**◆** = Required; **Help** = Field Help Available Using PF2, ? or *)

**Action Line**

- **◆ Project:**
  - *Help* 10 digits
  - Enter the project number.

  "**Cat/Rpt Type** together make up a segment."

- **◆ Cat:**
  - ? Help 2 characters
  - Enter the category associated with the report.

</table>
Screen 127 – Project Report Tracking (cont’d)

Date Sent to Sponsor: 8 digits
Enter the date the report was sent to the Sponsor.
Entering a date in this field completes the tracking.

St: PF2 Help 1 character
Record the status of the project report.
B = Not Specified
C = Complete
D = Delete (Batch-created records only)
S = Skip
If you use “Skip” you won’t be able to work with the sequence again.

Seq. No.: 1 digit
Identifies the sequence number of the report.

Additional Functions
PF KEYS
See the Appendix for explanation of the standard PF keys.

PF5 Next
Goes to the next screen that follows according to information shown on Screen 821.
Project Due/Overdue Report Tracking

Screen 143 is used to track project report segments that are due or overdue. This screen is in date, category and type order.

Selecting a project from this screen will advance you to Screen 127, which will show you all the sequences and additional detail about the report segment.

Note: //////////////////

** Press Enter for More Reports **

Basic Steps

- Select a tracking segment by typing “X” in the S (Select) field and pressing <ENTER> to proceed to Screen 127.
- To filter the project display, type the desired information in the fields provided.

Field Descriptions (◆ = Required; Help = Field Help Available Using PF2, ?, or *)

**Action Line**

◆ Date: 8 digits
Enter the desired due date.

Include Only: 1 character
Due/Overdue: Type “Y” to include reports due and/or overdue.

◆ Cat: 2 characters
Enter the desired category.

Rpt Type: 3 characters
Indicate the type of report requested for this project. You may view valid codes for Report Type typing a question mark in the Cat field.
Screen 143 – Project Due/Overdue Report Tracking (cont’d)

**Screen Information**

S: 1 character
Type “X” to select a tracking segment and proceed to Screen 127 to view the detail.

Due Date: 8 digits
Identifies the due date for the project report.

Cat: PF2 Help 2 characters
Displays the category code. Examples:
IN = Invention
PR = Property
TE = Technical

Rpt Type: 3 characters
Shows the report type. Examples:
CON = Invention-Upon Conception
INT = Invention-Interim
AWP = Technical-Annual w/Proposal

Project: 10 digits
Identifies the project number.

Title: PF2 Help 16 characters
Displays the title of the project.

Frq: PF2 Help 1 character
Indicates the frequency with which reports will be provided.

Copies: 3 digits
Shows number of copies of the report needed.

Date Rcvd From PI: 8 digits
Shows the date that the report is received from the Principal Investigator.

Seq. No.: 1 digit
Identifies the sequence number of the segment for a report.

**Additional Functions**

PF KEYS
See the Appendix for explanation of the standard PF keys.

PF5 Next
Goes to the next screen that follows according to information shown on Screen 821.
Add/Modify Project Researcher Information

You may view information for the researchers and departments by using Screen 119. This screen is available to maintain project researcher information.

This data must be entered to view “Projects by Researcher” on Screen 142.

Screen 119 - Project Researcher Information

<table>
<thead>
<tr>
<th>Project Researcher Information</th>
<th>02/16/09 08:50</th>

<td>8uuuuuu7</td>
<td>CLGE</td>
<td></td>
<td>SELLERS, SAMUEL S</td>
<td>COLLEGE GEOSCIENCE</td>
</tr>
</tbody>
</table>

Basic Steps

- Type a project number in the Project field and press <ENTER>.
- Enter the desired function (F), investigator level (P), the researcher’s UIN (Researcher), and the department codes (Dept) and (SDept) in the appropriate fields.
- Press <ENTER> to record the data.

Field Descriptions (◆ = Required; Help = Field Help Available Using PF2, ? or *)

Action Line

◆ Project: [* Help] 10 digits
Enter the project number for the researcher information you are adding or updating.

Screen Information

◆ F: [? Help] 1 character
Indicate whether to add, update, or delete researcher information.

◆ PI: [? Help] 1 digit
Enter the principal investigator level of the researcher.

◆ Researcher: [? Help] 9 digits
Type the researcher’s identification number taken from researcher files.
Screen 119 – Project Researcher Information (cont’d)

- **Dept:** 5 characters
  Specify the department code the researcher is associated with.

- **SDept:** 5 characters
  Include the researcher’s sub-department, if applicable.

- **Researcher Name:** 30 characters
  Displays the researcher’s full name, as taken from the researcher file.

- **Dept Name:** 4 characters
  Shows the name of the department associated with the researcher, as taken from the department code entered.

**Additional Functions**
- **PF KEYS**
  See the Appendix for explanation of the standard PF keys.

- **PFS**
  Next
  Goes to the next screen that follows according to information shown on Screen 821.
Limitation of Cost Information

Use Screen 120 to enter the limitation of the cost, amount, and days of a project. “Limitation of Cost” is when the sponsor wants to know in advance (usually 30 days) when the project gets to a certain percentage of cost - example, 75% of cost. Private sponsors often use this function.

Screen 120 - Project Limitation of Cost

<table>
<thead>
<tr>
<th>Field</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>Project: *</td>
<td>Enter the project number.</td>
</tr>
<tr>
<td>Flag: ?</td>
<td>Enter “Y” to indicate that there is a limitation of cost associated with this project. Leave this field blank if not applicable or unknown.</td>
</tr>
<tr>
<td>Percent: PF2</td>
<td>Include the percent of the project for the limitation of cost.</td>
</tr>
<tr>
<td>Amount: PF2</td>
<td>Enter the amount the project is limited to.</td>
</tr>
<tr>
<td>Days:</td>
<td></td>
</tr>
<tr>
<td>Comment:</td>
<td></td>
</tr>
</tbody>
</table>

Basic Steps

- Type a project number in the Project field and press <ENTER>.
- Include additional data in the fields available and press <ENTER> to record the data.

Field Descriptions (◆ = Required; Help = Field Help Available Using PF2, ? or *)

**Action Line**

◆ Project: [* Help] 10 digits
Enter the project number.

**Screen Information**

Flag: [* Help] 1 character
Enter “Y” to indicate that there is a limitation of cost associated with this project. Leave this field blank if not applicable or unknown.

Percent: [PF2 Help] 2 digits
Include the percent of the project for the limitation of cost.

Amount: [PF2 Help] 14 digits
Enter the amount the project is limited to.
Screen 120 – Project Limitation of Cost (cont’d)

Days: 3 digits
Indicate the number of days before the end of the contract to notify the sponsor if limitation has been reached.

Comment: 40 characters
Enter any comments to help identify the limitations of cost for the project.

Additional Functions

PF KEYS
See the Appendix for explanation of the standard PF keys.

PFS
Next
Goes to the next screen that follows according to information shown on Screen 821.
Project Compliance Codes

Screen 121 allows you to enter and maintain codes, indicating compliance with various regulations for a project. Use this screen to enter the type of project and other comments as desired.

Basic Steps

- Type a project number in the **Project** field and press <ENTER>.
- Include compliance data in the fields available and press <ENTER> to record the data.

Field Descriptions (* = Required; Help = Field Help Available Using PF2, ? or *)

**Action Line**

* Project: * Help 10 digits
Enter the project number for award information you are adding/modifying.

**Screen Information**

Typ: * Help 2 characters
Indicate the type of subjects and/or substances to be used in the research.

FS: 1 digit
Indicate if the form status is complete, or leave blank.

Committee Date: 8 digits
Enter the date of a committee action.

Committee Comment: 40 characters
Include the committee’s comments on action taken, decision made, etc.
Screen 121 – Project Compliance Codes (cont’d)

**Type Comment:**
20 characters
Enter additional comments about the type of research.

**Additional Functions**

**PF KEYS**
See the Appendix for explanation of the standard PF keys.

**PF5**
**Next**
Goes to the next screen that follows according the information on Screen 821.
NSF and THECB Codes

FAMIS allows you to enter and maintain codes that facilitate reports to the National Science Foundation (NSF) and The Coordinating Board (THECB). Screen 122 allows you to make modifications to your report.

NOTE: The Activity, Science and Engineering Field, Character of Work, and Selection Process fields are required at the project level, but not to the proposal. If any of the four THECB fields (Activity, Science/Engineering Field, Character of Work, or Selection Process) are filled in, then the other 3 fields must also be filled in. This information is displayed on FRS Screen 9.

Determination of NSF Category

The NSF Category field will be filled in automatically from the CFDA code table when:

1) The NSF Category field has not been changed by the person entering information on the screen. This includes blanking out the field.
2) The Sponsor has a Sponsor Type of “F” (Federal) or the Fed Flow Sponsor field is filled in (Screen 111).
3) If the CFDA Code is filled in, the CFDA Code will be checked at the Agency level to see if a default category exists.

For example, programs with a CFDA Code of 10.xxx are associated with the USDA. Therefore, CFDA Code 10.000 will have a default NSF Category of USDA. When a code such as “10.058” is entered on Screen 11 or Screen 111, the CFDA code “10.000” will be checked and the NSF Category will be filled in with “USDA.”
If the CFDA Code (on the Table) does not have a default category, the Sponsor will be checked to see if it is a Sponsor Type “F”. If it is, the classification information for the sponsor will be checked to see if one of the NSF category levels exists. If so, the NSF Category will be filled in with that category. Otherwise, “OTHER” will be entered in the NSF Category field.

4) If no CFDA Code is entered, the Sponsor and Fed Flow Sponsor fields will be checked as described above.

**Basic Steps**

- Type a project number in the Project field and press <ENTER>.
- Enter project information in the fields provided.
- Press <ENTER> to record the data.

**Field Descriptions** (◆ = Required; Help = Field Help Available Using PF2, ?, or *)

**Action Line**

◆ Project:  
Help 10 digits  
Enter the project number for the codes being entered and updated.

**Screen Information**

◆ Activity:  
Help 3 digits/characters  
Indicate the type of research activity for the National Science Foundation and Texas Higher Education Coordinating Board.

◆ Science and Engineering Field:  
Help 3 digits/characters  
Enter the code, which indicates the science, or engineering impact of the research.

◆ NSF Category:  
Help 8 characters  
Indicate the category for split-out on the NSF report. This facilitates separating the NSF report into categories for reporting of federal agencies: USDA, DOD, DOE, DHHS (includes NIH), NASA and NSF.

◆ Special Areas of Interest:  
Help 3 digits/characters  
Enter the area of special interest the project is concerned with as defined by the Coordinating Board.

◆ Character of Work:  
Help 3 digits/characters  
Include the code for the type of research associated with the project.

◆ Selection Process:  
Help 3 digits/characters  
Type the code for the selection process by which the research was awarded.

◆ Addtn'l Special Areas of Interest:  
Help 3 digits/characters  
Enter up to 14 additional areas of special interest the project is concerned with.
Screen 122 – Project NSF and THECB Codes (cont’d)

Federal Demonstration Project: 
Enter “Y” if this is a Federal Demonstration Project.

Other Related Projects: 
Include up to 10 additional project numbers related to this project. They may or may not be Federal Demonstration projects.

Additional Functions
PF KEYS
See the Appendix for explanation of the standard PF keys.

PF5 Next
Goes to the next screen that follows according to information shown on Screen 821.
Project Comments

You will be able to include comments about the project by using Screen 123. These comments are freeform and can be used for historical information. However, the comments do not print, and are only used as a resource of additional information about the project.

There is no word wrap feature when entering text. To avoid splitting a word between two lines, use the TAB key to advance to the next available text line.

Screen 123 - Project Comments

<table>
<thead>
<tr>
<th>Line</th>
<th>Project Notes</th>
</tr>

<td>TO BE OBLIGATED $37,047__________________________________________</td>
</tr>
<tr>
<td>3</td>
<td>TOTAL PROJECT $182,773___________________________________________</td>
</tr>
</tbody>
</table>

Basic Steps

- Type a project number in the Project field and press <ENTER>. Use the search feature if the project number is not known by typing an asterisk (*), part of the name, or part of the project number and pressing <ENTER>.
- Enter comments about the project in the space provided and press <ENTER> to record the data.

Field Descriptions (◆ = Required; Help = Field Help Available Using PF2, ? or *)

Action Line

◆ Project: [Help] 10 digits
Enter the project number requiring additional comments.

Position at line __ of __
3 digits
Type a line number in this field to position a specific line number at the top of the display.

Comments can be added in spaces provided. The comment entry is not tagged with audit information such as time, date and person entering.

Line: 2 digits
Displays the line number for the project notes displayed.
Screen 123 – Project Comments (cont’d)

Project Notes: 55 characters
Include notes about the project.

Additional Functions

PF KEYS
See the Appendix for explanation of the standard PF keys.

PF5
Next
Goes to the next screen that follows according to information shown on Screen 821.
Project Activity Log

Notes of project activity are kept in chronological order on Screen 124. This provides a history of activity on the project. Each time an update is made, you must enter the date. However, the User ID will automatically be filled in by the system.

There is no word wrap feature when entering text. To avoid splitting a word between two lines, use the TAB key to advance to the next available text line.

**Basic Steps**

- Type a project number in the **Project** field and press <ENTER>.
- Use the fields provided to add or modify the contact information.
- Press <ENTER> to record the data.
- To delete a contact, type “Y” in the **Delete this Contact** field.
Screen 129 – Project Contact Maintenance (cont’d)

Field Descriptions (◆ = Required; Help = Field Help Available Using PF2, ?, or *)

Action Line
◆ Project: * Help 10 digits
Enter the project number for the contact information you are adding or updating.

Contact Type: ? Help 2 characters
Indicate the level or position type of the contact person; i.e., administrative, financial or technical, etc.

Screen Information
Sponsor: 7 digits
Displays the ID number and name of the sponsor associated with the project.

Contact Number: 2 digits
Indicates the number that was assigned when the contact person was entered.

Delete this Contact: 1 character
Type “Y” if this contact information should be deleted.

Name: 25 characters
Enter the name of the project contact person.

Title: 25 characters
Indicate the contact person’s position title.

Address: 3 lines/30 characters
Enter the contact person’s address.

City: 20 characters
Enter the city address for the contact person.

State: ? Help 2 characters
Identify the contact’s State address.

Zip: 9 digits
Provide the ZIP code for the contact person’s address.

Phone: 10 digits
Enter the contact person’s phone number in this field. The valid sequence is xxx-xxx-xxxx.

Ext: 4 digits
Indicate the phone extension number of the contact person’s phone number, if applicable.
Screen 129 – Project Contact Maintenance (cont’d)

Country: 3 characters
Enter the country location of the contact person.

FAX: 12 digits
Type the contact person’s FAX number.

| Long Title: PF2 Help 130 characters |
| Shows the complete title of the project. |

**Basic Steps**

- Type a project number in the **Project** field and press <ENTER>.
- If there are no awards for the project, type “Y” in the **Enter ‘Y’ to Delete** field and press <ENTER> to delete the project.
- Enter “Y” in the pop-up window to confirm the project deletion and press <ENTER>.

**Field Descriptions** (◆ = Required; Help = Field Help Available Using PF2, ? or *)

**Action Line**

◆ **Project:** *Help 10 digits
Enter the project number to be deleted.

**Enter ‘Y’ to Delete:** 1 character
Type “Y” to delete the project. A pop-up window will appear to allow you to confirm the deletion of the project.
Screen 190 – Project Delete (cont’d)

**Sponsor:**  
**PF2 Help** 7 digits  
Displays the sponsor’s identification number.

**Last Award:**  
**PF2 Help** 2 digits  
Indicates the number assigned to the last award made to the project.

**Total Awards:**  
**PF2 Help** 20 digits  
Shows the total dollar amount awarded to this project.

**Sponsor Name:**  
**PF2 Help** 50 characters  
Displays the sponsor’s name.

**Award Number:**  
**PF2 Help** 20 digits/characters  
Provides the award number.

**Status:**  
**PF2 Help** 1 character  
Shows the status of the project.

**Previous Project**  
**PF2 Help** 15 digits  
Provides the previous project number, if any.

**Begin Date:**  
**PF2 Help** 8 digits  
Shows the start date for the project.

**Parent Project:**  
**PF2 Help** 15 characters  
Indicates the parent project, if applicable.

**End Date:**  
**PF2 Help** 8 digits  
Provides the estimated completion date for the project.

**Project Type:**  
**PF2 Help** 1 character  
Indicates the type of project; single, parent or child.

**Instrument Type:**  
**PF2 Help** 1 character  
Identifies the project’s instrument type.

**Instrument Sub-Type:**  
**PF2 Help** 5 characters  
Displays the category of the type of instrument.

**Funding Type:**  
**PF2 Help** 1 character  
Identifies the funding type chosen for the project.

**Function:**

Basic Steps

- Type a project number in the **Project** field and press <ENTER>.
- Use the **Budget Avail Option** field to display either the “Budget Pct Spent” or the “Budget Pct Available.”
- Designate the month and the time period you wish to view and press <ENTER>.
Field Descriptions (◆ = Required; Help = Field Help Available Using PF2, ? or *)

**Action Line**

◆ **Project:**

*Help* 10 digits
Enter the project number for the costs being researched.

◆ **Fiscal Year:**

4 digits
Enter the fiscal year in which the cost sharing period is covered.

**Budget Avail Option:**

1 character
This field controls the column to be displayed: type “N” to display the *Budget Pct Available*; type “Y” to display the *Budget Pct Spent*.

**Thru Month:**

2 digits
Enter the month through which the information is to be displayed.

**FY/PY/IN to Date:**

2 characters
Indicate the time period over which information is to be shown (fiscal year, project year, or inception to date).

**ABR Rule:**

? Help 3 digits
Displays the ABR rule number.

**Screen Information**

[ ‣ Panel 1 ]

**Sponsor:**

30 digits/characters
Identifies the sponsor’s number and name.

**Bottom Line Exclusion:**

12 digits
Displays the amount of budget excluded from the total direct budget (held in reserve).

**Res.Adm:**

25 characters
Shows name of the research administrator for the project.

**Net Dir BBA:**

12 digits
Identifies the dollar amount of the net direct budget balance available.

**Beg:**

6 digits
Shows the date of the beginning budget year.

**End:**

6 digits
Displays the end date of the budget year.

**Unprotected Available:**

12 digits
Identifies the dollar amount of unprotected budget available.

**Obj:**

4 digits
Indicates the object code used for the posting of the indirect costs.
Screen 150 – Project Summary by Budget Pool (cont’d)

**Description:**
- 35 characters
- Provides a description of the account.

**Budget:**
- 20 digits
- Designates the original plus revised budget by object code.

**Actual:**
- 10 digits
- Provides the actual dollar amount spent/received on an object code item.

**Encumbrances:**
- 10 digits
- Displays the dollar amount committed for specified object codes.

**Available:**
- 10 digits
- Shows the dollar amount available, in relation to the budget, for specified object codes.

**Budget Pct Spent:**
- 5 digits
- Identifies the percentage amount of budget available that has been spent on the project.

**Panel 2**

**CM Actual:**
- 12 digits
- Displays the current month revenue activity.

---

**Additional Functions**

PFS Next Goes to the next screen that follows according to information shown on Screen 821.
User-Defined Budget Allocation Pools

FAMIS uses the Budget Allocation process in categorizing revenues and expenses. The ABR rule on each account identifies the categories for the “accounting records” of the A&M System member. Screen 155 allows you to define your own set of revenue and expense categories.

Often, there are individuals who require that the revenues and expenses be grouped in different categories than the official records. Screen 155, Screen 156, and Screen 157 allow for multiple presentations of project data.

### Screen 155 - User Defined Category Maintenance

Cost Sharing Basics

Cost Sharing or matching means that a portion of a project or program costs is not borne by the Federal Government or sponsoring agency. Cost sharing is a term typically associated with federal grants, or cooperative agreements, rather than contracts. This relates to the notion that grants and cooperative agreements represent “financial assistance,” rather than the acquisition of goods or services for the government.

In order to qualify as cost sharing, the costs in question:

- Must be directly identifiable with the project.
- Must represent costs incurred during the period of performance of the grant or cooperative agreement.

Mandatory vs. Non-mandatory

Cost Sharing can be “Mandatory” (required by statute or program requirements as a condition of award) or “Voluntary” (offered by the grantee when not specifically required by the sponsor).

The most common example of mandatory cost sharing occurs with the National Science Foundation’s unsolicited grant program. NSF requires that each grantee share in the cost of research projects that result from the submission of unsolicited proposals.

Qualifying Costs

Cost sharing typically takes the form of either “in kind” contributions or “cash.”

“In kind” cost sharing may include:

- Salaries
- Associate employee benefits
- Equipment
- Supplies
- Indirect costs associated with these costs

“Cash” cost sharing includes:

- Funds contributed from unrestricted institutional sources

Third party contributions may take the form of either in-kind or cash contributions. The term “third party” refers to an organization other than the prime recipient that is participating in the costs of the project. The most common instance of third party contributions would occur when a university receives a grant with cost sharing requirements and also subcontracts a portion of the project to another university that is also required to make cost sharing contributions.
Unrecovered Indirect Costs and Cost Sharing

You should make every effort to recover full indirect costs. However, in the event that an agreement includes a mandatory cost sharing requirement and the sponsor is not fully reimbursing the institution’s indirect costs, unrecovered indirect costs can serve as another way to meet a mandatory cost sharing requirement.

Using Cost Share in FAMIS

The Cost Share screens allow you to enter, display and report cost share records. This entry does not post accounting transactions, but are for memo purposes only. The records are useful to indicate the various cost share accounts for one project. This aids in determining that the same dollars are only cost shared one time.

To use the Cost Share screens, take the following steps:

1. Add the Cost Share Period on Screen 130.
2. Add the Cost Share Accounts on Screen 131.
3. Enter the Cost Share Transactions on Screen 132.

Once these steps are taken, you can view the Cost Share information for the project on the Cost Share Inquiry screens.

The following pages detail the entry necessary on each of these screens.
Cost Sharing Period Maintenance

FAMIS allows you to define the cost sharing period, as well as unrecovered indirect cost information for the period. Screen 130 will allow you to add or modify the information regarding the cost sharing period.

Before entering cost sharing period maintenance modifications, you should first make certain that the Mandatory Cost Share flag on Screen 112 is set to “Y”.

FAMIS only picks up activity for the current month. To input past lump sum activity, use Screen 132.

**Screen 130 - Cost Sharing Period Maintenance**

<table>
<thead>

* * * Total Period Requirements - Display Only * * *

Total Cost Sharing Required: __632.82________
Total Cost Sharing Actuals: __632.82________
Total Remaining Requirement:

Enter-PF1---PF2---PF3---PF4---PF5---PF6---PF7---PF8---PF9---PF10---PF11---PF12---

This is for the project. See Screen 131 for total required by account.

**Basic Steps**

- Type a project number in the **Project** field and press <ENTER>.
- Enter an existing number in the **Period** field and press <ENTER>.
- To add a period, type “Y” in the **Add Period** field and press <ENTER>. FAMIS will assign a new period.
- Add or modify the cost sharing data in the fields provided and press <ENTER> to record the information.

**Unrecovered Indirect Cost as Cost Share**

Some sponsors will not pay the Federal IDC rate and instead negotiate a lower rate for the grant. The difference is the “unrecovered IDC” and can apply as Cost Sharing since it is a cost to the A&M System member.
The amount of unrecovered indirect cost is entered on Screen 130. This sets up the “000000 00000” requirement account for the cost sharing period. The “000000 00000” account can then be seen on Screen 137.

*** End of List ***

Basic Steps

- Type a project number in the **Project** field and press <ENTER>.
- Select a cost sharing period by typing an “X” in the **Sel** (Select) field and pressing <ENTER>. This will take you to Screen 137 where detailed cost sharing period summary information is displayed.

Field Descriptions (◆ = Required; Help = Field Help Available Using PF2, ? or *)

**Action Line**

◆ **Project:**

Enter the project number to display cost sharing requirements.

**Screen Information**

- **Sel:**
  - 1 character
  - Type “X” in this field to select cost sharing period to view additional information on Screen 137.

- **Period:**
  - 3 digits
  - Displays the time period assigned by FAMIS to define time slots for the cost sharing.

- **Begin Date:**
  - 8 digits
  - Provides the estimated date the cost sharing period will begin.
Screen 136 – Cost Sharing All Period Summary (cont’d)

**End Date:**
8 digits
Shows the estimated date the cost sharing period will end.

**Total Required:**
12 digits
Displays the total dollars required for the cost sharing period.

**Total Actual:**
12 digits
Provides the actual dollars accumulated in the cost sharing period.

**Total Remaining:**
12 digits
Indicates the total dollars remaining in the cost sharing period.

**Additional Functions**

**PF KEYS**
See the Appendix for explanation of the standard PF keys.

**PFS**
**Next**
Goes to the next screen that follows according to information shown on Screen 821.
Display Cost Sharing Period Summary

**Screen 137** allows you to view specific account requirements for the cost sharing period.

The dollar amount in the **Total Actual** column is obtained from:

1. Running the Cost Sharing programs
2. **Screen 132** when entered manually for another TAMUS Part
3. **Screen 132** if the Cost Sharing programs are not run
4. Manual entry of historical data

### Screen 137 – Cost Sharing Period Summary (cont’d)

**Screen Information**
- **Period Begin Date:** 8 digits
  Indicates the date the cost sharing period will begin.
- **Period Total Required:** 12 digits
  Shows the total dollar amount required for the cost sharing period.
- **Period End Date:** 8 digits
  Displays the date the cost sharing period will end.
- **Period Total Actual:** 12 digits
  Provides the total dollar amount accumulated in the cost sharing period.
- **Period Total Remaining:** 12 digits
  Shows the total dollar amount remaining in the cost sharing period.
- **Sel:** 1 character
  Type “X” to select a project account.
- **Acct CC:** 2 digits
  Shows the campus code for the account.
- **Account:** 11 digits
  Displays the assigned account number for the project.
- **Account Description:** 21 characters
  Provides the line description for the project.
- **Total Required:** 12 digits
  Indicates the total dollar amount required in the cost sharing period.
- **Total Actual:** 12 digits
  Displays the total dollar amount accumulated in the cost sharing period.
- **Total Remaining:** 12 digits
  Shows the total dollar amount remaining in the cost sharing period.

**Additional Functions**

Screen 801 – Indirect Cost Table (cont’d)

Basic Steps
- Enter an indirect cost base code table in the Base field and press <ENTER>.
- Type the desired function code in the F field, enter a subcode range to be excluded, and press <ENTER>.
- Modify or add additional subcode ranges and press <ENTER> to record the information.

Field Descriptions (◆ = Required; Help = Field Help Available Using PF2, ?, or *)

Action Line
◆ Base: 8 characters
Enter the name of the indirect cost table, or select one from the pop-up window.

Screen Information
Description: 40 characters
Enter or modify the description of the indirect cost base selected.

Func Code: 1 character
Indicate the desired function code to add or modify a range of subcode exclusions: Add (A), Update (U), or Delete (D)

Low: 4 digits
Enter the starting subcode of the range for exclusion.

High: 4 digits
Enter the ending subcode of the range for exclusion.

Error Message: 30 characters
Displays message regarding an error detected on a line during processing data entered.

Additional Functions
PF KEYS
See the Appendix for explanation of the standard PF keys.

PF5 Next
Goes to the next screen that follows according to information shown on Screen 821.
Indirect Distribution Table

Screen 802 is used to define the distribution of the indirect cost. This allows for the distribution of the indirect cost across multiple accounts.

There is no limit to the number of Distribution Codes. Each Distribution Code can have up to 30 accounts.

You can distribute many accounts, but the percentages entered must total “100.” In some cases, the distribution will go to one account and the research administrator will decide who gets what part of the IDC.

For revenue accounts, the amount is posted with the revenue object code on Screen 9 of the offset grant account, or on Screen 51 if a support account.

The total percentage entered on this screen must equal “100 percent.”

### Basic Steps

- Enter the distribution table code in the **Dist Code** field and press <ENTER>. This window will list distribution code information in alphabetical order.
- If this distribution table code is to be deleted, type “Y” in the **Delete** field and press <ENTER>.
- If adding or modifying the percent of distribution for an account number, place the cursor in the **Func Code** field and type the desired function code: Add (A), Update (U) or Delete (D).
- Enter the percentage to be distributed in the **Percent** field and the account number in the **Account** field. The amount entered must total to 100 percent.
- Press <ENTER> to record the information.
Screen 802 – Indirect Distribution Table (cont’d)

Field Descriptions (◆ = Required; Help = Field Help Available Using PF2, ?, or *)

**Action Line**

◆ Dist Code:  
  Help 10 characters  
Enter the code for the indirect cost distribution.

Delete:  
1 character  
Type “Y” to delete the distribution code.

Description:  
40 characters  
Displays the description of the indirect distribution code selected.

**Screen Information**

Func Code:  
1 character  
Designate the function desired: A (Add), U (Update), or D (Delete).

Percent:  
5 digits  
Enter the percentage of indirect cost to be distributed.

Account:  
11 digits  
Enter the account number for the indirect cost distribution.

Account Description:  
30 characters  
Displays the description of the account number for the distribution code selected.

Total:  
5 digits  
Displays total percentage of distribution.

**Additional Functions**

PF KEYS  
See the Appendix for explanation of the standard PF keys.

PFS Next  
Next  
Goes to the next screen that follows according to information shown on Screen 821.
Federal Domestic Assistance Table

The codes to be used for Federal Domestic Assistance are shown on Screen 804. CFDA (Catalog of Federal Domestic Assistance) codes are used in preparation of Schedule D-5 of the TAMUS Annual Financial Report.

The letter codes in parentheses indicate that these CFDA codes can only be used by certain projects.

By agreement, this table is maintained by TAMRF.

Security on this screen for all System members has been set to “inquiry only.”

For updates/corrections/additions contact:
SRS/Texas A&M Research Foundation at srscfda@tamus.edu.

Basic Steps

- Type the **CFDA Code** number you wish to be displayed at the top of the list, or press <ENTER> to scroll through the list of available codes.
- Enter the desired function in the **F** field: Add (A), Update (U), or Delete (D).
- Add, modify or delete a code and press <ENTER>.

Field Descriptions (◆ = Required; Help = Field Help Available Using PF2, ? or *)

*Action Line*

◆ **CFDA Code:**

Enter the Catalog of Federal Domestic Assistance (CFDA) Code under which the project is classified, or scroll through the list by pressing <ENTER> to find the code desired.
Screen Information

**Func:**
1 character
Type the desired function for the selected CFDA Code: Add (A), Update (U), or Delete (D). Press <ENTER> to process function.

**CFDA Code:**
6 digits
Enter or modify the Catalog of Federal Domestic Assistance Code under which the project is classified.

**Description:**
60 characters
Include a description of the CFDA Code.

**NSF Default Category**
Help 8 characters
Indicates the agency code for split-out on the NSF report.

Additional Functions

**PF KEYS**
See the Appendix for explanation of the standard PF keys.

**PF5 Next**
Goes to the next screen that follows according to information shown on Screen 821.

**PF9 Download**
Used to download information using Entire Connection.
Information regarding the Coordinating Board Code is found on Screen 815. Coordinating Board Codes are used in preparation of the TAMUS reports to the Texas Higher Education Coordinating Board (THECOB).

**Screen 815 – Coordinating Board Code Table**

Basic Steps

- In the **Table Type** field, type “THECOB” and append one of the following valid values: ACT, FIELD, AREA, WORK, or PROC. (Example: THECOBACT)
- Type the desired function code in the **Func** field: Add (A), Update (U), or Delete (D), to add, modify or delete items from this table and press <ENTER>.

**Field Descriptions** (◆ = Required; [Help] = Field Help Available Using PF2, ? or *)

**Action Line**

◆ **Table Type:**

Enter one of the valid table type values appended to “THECOB:” ACT, FIELD, AREA, WORK, or PROC. (Example: “THECOBACT”)

**Screen Information**

**Func:**

Enter the desired function code: Add (A), Update (U), or Delete (D) and press <ENTER>.

**Code:**

Enter or modify an existing code.

Letters of Credit are defined on Screen 816. This screen is used primarily by the TAMU Research Foundation, but is available for anyone who might find it useful.

This table should be maintained by only one or two people at each campus. FAMIS personnel do not have update access to this screen.

There are three reports available using the letter of credit information: FBAR140 (Letter of Credit Report), FBAR141 (Estimated Cash Report), and FBAR335 (Unbilled Receivables for Sponsored Research). The SBAR302 (Download of Project Information) is also available for downloading.

### Basic Steps

- To modify or delete a letter of credit type listed on this table by typing the desired function code in the *Func* field: Update (U) or Delete (D).
- To add a type of credit to the existing table type “A” (Add) in the *Func* field and include the FAMIS Letter of Credit type code in the *Credit Type* field.
- Press <ENTER> to record the information.

### Field Descriptions

- **Screen Information**

Hmenu Help EHelp Next

Basic Steps

- Enter a department code in the **Dept** field, or press **PF2** or type a question mark (?) in this field and select a code from the pop-up window. Type an “X” in the **Select** field next to the desired code to pass it back to the **Dept** field on Screen 807. To exit the pop-up window without making a selection, press **PF4**.

Tracking Award Estimates

**Research Information Tracking by Department**

Some of The Texas A&M System members are using the Research Information Tracking by Department feature in FAMIS as a tool for their reporting needs. There are currently two types of tracking in place: one is “Awards by Department,” and the other is “Proposals by Department”. These two processes are similar in that they allow you to enter estimated counts and dollars, run FAMIS programs to “lock” and display the “actual” counts and dollars for comparison.

It is necessary to run the FAMIS programs one month at a time and then to lock down the data. This is the only way that the year-to-date (YTD) figures will tie on the hard copy reports that are generated from this process.

Field Descriptions (◆ = Required; Help = Field Help Available Using PF2, ? or *)

Action Line
◆ Dept: 5 digits
Enter the department code to which the proposals are associated.

Screen Information
Fiscal Year: 4 digits
Shows the current fiscal year for displaying the proposal estimates. Change date to view a specific year.

Estimate
Count: 3 digits
Enter the estimated count of the proposal for the month.

Amount: 14 digits
Indicate the estimated dollar amount of the proposal for the month.

Actual
Count: 3 digits
Include the actual count of the proposal for the month.

Amount: 14 digits
Indicates the actual dollar amount of the proposal for the month.

YTD Total: 3 digits/14 digits
Displays the year-to-date totals of the columns.

Additional Functions
PF KEYS
See the Appendix for explanation of the standard PF keys.

PF5 Next
Goes to the next screen that follows according to information shown on Screen 821.
Keyword Table Maintenance

FAMIS allows you to maintain a tax code table and the messages concerning these codes. (This functionality is currently not used.)

This screen is maintained and updated by FAMIS Services. The information is campus specific.

Screen 809 – Keyword Table Maintenance

<table>
<thead>
<tr>
<th>Field</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>Keyword</td>
<td>15 digits/characters</td>
</tr>
<tr>
<td>Description</td>
<td>1 character</td>
</tr>
<tr>

<td>1 character</td>
</tr>
<tr>
<td>Func</td>
<td>Add (A), Delete (D), or Update (U). Include an additional code or modify an existing code and description then press &lt;ENTER&gt;.</td>
</tr>
</tbody>
</table>

Basic Steps

- Enter a keyword for either the tax code number or the description in the Keyword field. If the keyword is the description, type “Y” in the Description Search field.
- In the Table field, indicate if the table for the keyword is Part Defined (P) or Rodman’s Thesaurus (R) and press <ENTER>.
- Enter the desired function code in the Func field: Add (A), Delete (D), or Update (U).
- Include an additional code or modify an existing code and description then press <ENTER>.

Field Descriptions (◆ = Required; Help = Field Help Available Using PF2, ? or *)

**Action Line**

- **Keyword:** 15 digits/characters
  Enter a keyword to add, modify or delete.

- **Description Search:** 1 character
  Type “Y” to search by description.

- **Table:** 1 character
  Identify whether you are maintaining a Part Defined table or Rodman’s Thesaurus.
Screen 809 – Keyword Table Maintenance (cont’d)

**Screen Information**

- **F:** 1 character
  Indicate the desired function code: Add (A), Delete (D), or Update (U).

- **Code:** 15 digits
  Enter a numeric code to identify the tax code.

- **Description:** 50 characters
  Include the description of the keyword.

**Additional Functions**

- **PF KEYS**
  See the Appendix for explanation of the standard PF keys.

- **P5 Next**
  Goes to the next screen that follows according to information shown on Screen 821.
Person Information

Use Screen 850 to add a new researcher to FAMIS. This screen also allows you to modify a researcher’s personal data.

Screen 850 – Person Information

<table>
<thead>
<tr>
<th>Screen: ___ Person: 7uuuuuu8</th>

</tr>
</tbody>
</table>

Basic Steps

- Enter the personal identification number (UIN) for the new researcher, or search and select a researcher from a pop-up list by typing an asterisk (*) in the Person field and pressing <ENTER>. This pop-up window will also be displayed when you type a researcher’s name in this field.
- Enter “Y” in the Delete field to delete the specified researcher’s personal information.
**Screen 850 – Person Information (cont’d)**

**Field Descriptions** (◆ = Required; Help = Field Help Available Using PF2, ?, or *)

**Action Line**

◆ Person:  
*Help* 9 digits
Enter the researcher’s personal identification number.

**Screen Information**

Inactive:  
1 character
Type “Y” to inactivate the personal identification number entered in the **Person** field.

Delete:  
1 character
Type “Y” to delete the personal identification number entered in the **Person** field from the system.

OSRS:  
1 character
“Y” identifies this is an SRS employee.

**Person’s Name:**

Last:  
15 characters
Type the last name of the researcher.

First:  
10 characters
Include the first name of the researcher.

MI:  
1 character
Enter the initial of the middle name of the researcher.

Suffix:  
5 characters
Type the suffix of the researcher.

Prefix:  
5 character
Include the prefix of the researcher.

SSN:  
9 digits
Displays the researcher’s Social Security Number. Only visible with proper security level.

Title Code:  
Help 4 digits
Provide the title code of the researcher.

Phone:  
14 digits
Indicate the phone number and extension number where the researcher can be reached.

Date Hired:  
8 digits
Include the date the researcher was hired.

Gender:  
Help 1 character
Enter the gender of the researcher: F (Female) or M (Male).
Screen 850 – Person Information (cont’d)

**FAX:** 10 digits
Provide the fax number where faxes can be sent to the researcher.

**Adloc Part:** 2 digits
Enter the campus code for payment of salary.

**Acct:** 6 digits
Identify the account number to be used for payment of salary.

**Suffix:** 1 character
Provide the suffix associated with the Adloc Part code.

**BPP Phone:** 10 digits
Displays the office phone number for the researcher.

**Home**

**CC:** 2 digits
Enter the researcher’s campus code.

**Dept:** 5 characters
Type the department associated with the researcher; used to cross-reference with other TAMUS parts.

**S-Dept:** 5 characters
Provide a cross-reference for the researcher’s sub department information with other TAMUS parts.

**Address:** 3 lines/30 characters
Include the researcher’s mailing address.

**Mail Cd:** 5 character/digits
Indicate the mail stop code for the researcher’s department.

**City:** 15 characters
Provide the home city of the researcher’s address.

**State:** 2 characters
Enter the home state of the researcher’s address.

**Zip:** 9 digits
Indicate the Zip code for the researcher’s address.

**Country:** 3 characters
Identify the home country for the researcher’s address.

**PI/Researcher:** 1 character
Type “Y” if the researcher is a Principal Investigator.

**E-Mail from BPP:** 1 character
Displays “Y” if current email address was obtained from the BPP employee file. It shows “N” if it is changed on Screen 850, Screen 001, or through Canopy.
Screen 850 – Person Information (cont’d)

**Email:**
- 50 characters
- Enter the person’s email address.

**Printer Default:**
- 30 characters
- Identify the printer default information for reports and printouts.

**Routing Email Prefs *** / EPA**

**Notify Freq:**
- [PF2 Help] 1 character
- Displays the frequency for inbox email notification: daily, every document, or weekly.

**Type:**
- [PF2 Help] 1 character
- Identifies the type of email documents sent to the researcher’s inbox: approvals only: “N” for none (no email), “Y” for all (includes notifications).

**Voided Apps:**
- 1 character
- Determines if email notification is sent for voided applications.
  - Y = Send email notification
  - N = Don’t send email notification

**Additional Functions**

**PF KEYS**
- See the Appendix for explanation of the standard PF keys.
FAMIS provides a table of valid departments for each campus. These department codes are used extensively throughout FAMIS. Both FRS and FFX modules utilize this table.

Screen 860 is used to add a new department to FAMIS by authorized personnel. You can also modify information on existing departments and expire a department to make it inactive. Departments cannot be deleted. Other important information includes the following:

- **School/College** – This is the only screen where you can update this field. It will not be a protected field for anyone who has update access to the screen. The School/College field is also protected if you are trying to modify it on a sub-department. Remove it from the department and all its sub-departments by taking the college off of the department (FISA or FISC). The change will ripple to all of the sub-departments.

- **EPA Allow Flag** – This flag controls the creation on EPA documents and was added for Form 500 processing. Entering “Y” allows the department to create EPA documents, which will be routed through the department. If the flag is off (“N” or blank), you will still be able to view payroll data in CANOPY, provided you have the appropriate security clearance to do so.

- **Purchasing Trn Flag** – If not set to “Y” on this screen, FAMIS does not recognize that routing of purchasing documents exists for the department.

- **Exec Level** – This field is a code that can be used as a sort field by many of our reports to group all accounts that report to a specific level (such as a report of all accounts for a particular Vice President). The values are campus specific so each campus assigns their own values.

This screen is maintained and updated by each campus. The information is campus specific.

A department can't be deleted, it can only be “expired” by entering the expiration date in the Dept Expiration Date field.
Basic Steps

- Enter a department code in the **Department** field, and include a **Sub Department**, if needed. You may also type an asterisk (*) in the **Department** field to view a list of available departments and subdepartments. If the department is not listed in the pop-up box, enter an “(i)” in the **Type** field to search by Department ID. This will allow you to find what you are searching for if it is an active department or subdepartment.
- Press <ENTER> to view the information.

Field Descriptions (◆ = Required; Help = Field Help Available Using PF2, ?, or *)

**Action Line**

◆ **Department:** 5 characters
   Enter a valid department code.

Sub Dept: 5 characters
Enter the sub-department, if needed.

**Screen Information**

**Dept Name:** 50 characters
Enter the full name of the department.

◆ **Head/Director ID:** 9 digits
   Provide the Social Security number. The name will be displayed when you press <ENTER>.

Alt APO ID: 9 digits
Enter the name and ID of the alternate APO (accountable property officer).

**Head/Director Phone:** 10 digits
Indicate the phone number of the head/director of the department.

Alt APO Phone: 10 digits
Provide the phone number of the alternate APO.

**Mail Code:** 1 character
Enter the mail code for the department.

**Building Number:** 5 digits
Identify the building that the department is located in.

**Exec Level:** 2 characters
Include the executive level of the department.

**Building Campus:** 2 digits
Identify the campus code for the building.
### Division:
- **Help** 2 characters
  - Provide division code reflecting the structure of the campus.

### Room:
- 6 digits
  - Include the room or the floor of the department.

### School/College:
- **Help** 2 characters
  - Provide the level of organizational structure.

### College Dept:
- 5 characters
  - Indicates the department that represents the college dean.

### Group Cd:
- 5 characters
  - Used for grouping departments together for special purposes, perhaps security or reporting.

### Off Campus Flag:
- 1 character
  - Identify whether or not the department is located off campus.

### Other Loc:
- 20 characters
  - Provide information as to whether or not the department is located in more than one location.

### Budget Sort Dept
- **Help** 4 characters
  - Nbr: Used for AL-RSCH budget sort number.

### Approx. Inv. Count:
- 6 characters
  - Use for the entry of approximate inventory numbers.

#### Allow Flags

**FRS:**

- 1 character
  - Indicate whether this department is valid for accounting in FRS.

**EPA:**

- **PF2 Help** 1 character
  - Indicate whether or not ("Y" or "N") the department is allowed to create EPA documents.

**DBR:**

- 1 character
  - Indicate whether or not the department is allowed to create Departmental Budget Records.

**DCR**

- 1 character
  - Type "Y" if the department is allowed to initiate a Departmental Correction Request for an accounting event that has previously posted.

**SciQuest:**

- 1 character
  - Type "Y" to identify this department is using the SciQuest application.

**FFX:**

- 1 character
  - Indicate whether this department is valid for asset control in FFX.
Sponsored Research Projects User Manual Page VIII-27

Screen 860 – Department Table Maintenance (cont’d)

**TDP:** 1 character
Signify whether or not the department is allowed to initiate Departmental Property Transfers.

**Purch Trn Flag:** 1 character
Identify whether this department has been fully trained and is ready to use the Purchasing system.

**FFX Cert Month:** 2 digits
Indicate the month for inventory certification for this department.

**Maestro**

**Org Unit:** 10 digits
Identify the number of the organization unit. (as determined by TEES). This is used to group departments together for reporting.

**Parent Dept:** 5 characters
Enter a valid FAMIS department. This allows FAMIS to identify the departmental hierarchy along with the current standard hierarchy levels (executive, department, division, college, etc.) **By default the department is the parent department for a department with a subdepartment and is not modifiable.**

**Center/Institute:** 2 characters
Used to determine if a department is a Center or Institute and to group departments together for reporting.
Blank = Regular department
CA = Center – Board Approved
CG = Center – Grandfathered
CN = Center – Not Board Approved
IA = Institute – Board Approved
IG = Institute – Grandfathered
IN = Institute – Not Board Approved

**Surplus:** 1 character
Identify if this is a designated Surplus department.

**Other Part Nbr:** 2 digits
Include another campus code that owns part of the department inventory.

**Mail to Dept Head:** 1 character
Identify if the department head or director wants to receive a statement.

**Other Part Dept:** 5 characters
Enter the department on another campus code that owns part of the department inventory.

**Dept Office:** 10 characters
Shows the office for Routing & Approvals that governs this department.

**Other Part Sub Dept:** 5 characters
Enter the other FAMIS member’s sub-department, if needed.
Screen 860 – Department Table Maintenance (cont’d)

**Dept View:**
- **PF2 Help**
  - 10 characters
  - Indicates the electronic view within the electronic office for Routing & Approvals that governs this department.

**Exec Office:**
- **PF2 Help**
  - 10 characters
  - Shows the executive office for Routing & Approvals that governs this department.

**Dept Expiration**
**Date:**
- 8 characters
  - Shows the date the department will expire. This date can be removed to reuse a Department Code.

**Exec View:**
- 10 characters
  - Shows the electronic view within the executive office for Routing & Approvals that governs this department.

**General Comments:**
- 1 character
  - Indicates whether or not (“Y” or “N”) comments have been entered.

**FFX Comments:**
- 1 character
  - Indicates whether or not (“Y” or “N”) comments have been entered.

**Additional Functions**

**PF KEYS**
- See the Appendix for explanation of the standard PF keys.

**PF7**
**Audit Information**
- Displays the departmental table audit information.

Control Record Maintenance

Screen 821 controls the institution information of the FAMIS Sponsored Research module.

The rate used in calculating the indirect cost comes from FRS Screen 9. There are accounts tied to the project and the rate can be different for each account. You will need to check FRS Screen 9 for each account listed on SPR Screen 137 to see what rate has been used.

The information in the **TAMUS Indirect Base** and **TAMUS Indirect Rate** fields is used by SBMR281 (Cost Sharing Transaction Generator) to include the unrecovered exclusion table information as part of the process when generating cost sharing transactions. Some System Members use these fields and some do not.

</table>

#### Basic Steps
- Add a campus name or make modifications to the **Campus Name** field.
- Enter information in the available fields and press <ENTER> to record the information.

#### Field Descriptions (◆ = Required; Help = Field Help Available Using PF2, ? or *)

**Screen Information**

- **Campus Name**: 40 characters
  - Enter or modify the name of the campus or agency.

- **TAMUS Indirect Base**: 8 digits
  - Indicate the indirect cost base as set by the individual A&M member.

- **TAMUS Indirect Rate**: 6 digits
  - Include the cost rate as set by TAMUS. This is used by the SBMR281.
Screen 821 – Control Record Maintenance (cont’d)

- **Sponsor**
  - **Campus Cd:**
    - 2 digits
    - Include the campus code for the sponsor table.
    - The sponsor table is shared by TAMUS members.

- **Sponsor**
  - **Campus Cd:**
    - 2 digits
    - Include the campus code for the sponsor table.
    - The sponsor table is shared by TAMUS members.

- **Researcher**
  - **Campus Cd:**
    - 2 digits
    - Enter the campus code for the researcher.

- **User Assign**
  - **Proposal Format:**
    - 7 digits
    - Enter the first two digits (usually fiscal year) and FAMIS generates the rest of the number.

- **Last Sponsor**
  - **Number:**
    - 7 digits
    - Indicates the number of the last sponsor created.

- **Last Project**
  - **Number:**
    - 10 digits
    - Identifies the last project number automatically assigned by FAMIS system.

- **Last Proposal**
  - **Number:**
    - 5 digits
    - Displays the number of the last proposal created.

- **Last YR Last Proposal Number:**
  - 5 digits
  - Provides the number of the last proposal for the previous year.

- **Proposal Screens:**
  - 3 digits
  - Enter the screen sequence to be used when a new proposal is added to FAMIS.

- **Project Screens:**
  - 3 digits
  - Include the screen sequence to be used when a new project is added to FAMIS.

**Additional Functions**

- **PF KEYS:**
  - See the Appendix for explanation of the standard PF keys.

- **PF5 Next**
  - Goes to the next screen that follows according to information shown on Screen 821.
Campus Code Change

FAMIS allows you to work in different campuses and various fiscal years, provided you have the appropriate security clearance to do so. To change either the campus and/or the current year use Screen 882.

Basic Steps
- Enter the desired campus code, fiscal year, and/or processing month in the fields available.
- Press <ENTER> to record the information.

Field Descriptions (◆ = Required; Help = Field Help Available Using PF2, ? or *)

Screen Information
- Active Campus: 2 digits
  Enter the campus code you are currently accessing.
- Active Fiscal Year: 4 digits
  Displays the current fiscal year that you are accessing. To change, type the desired year and press <ENTER>.
- Valid for Inquiry: 4 characters
  Identifies the data by years you may view as set in your security.
  CCCC = Current year only
  **** = all years
  YYY = a specific year, such as “1996” allows viewing of only 1996 data
  Generally, this is not recommended.
Valid for Updates: 4 characters
Identifies the data by years you may update as set in your security.

- CCCC = Current year only
- **** = all years
- YYY = a specific year, such as “1996” allows viewing of only 1996 data

Generally, this is not recommended.

Active Processing
Month: 2 digits
Allows you to change the processing month for transactions being entered on the FAMIS screens.

If you do not have the proper security to change this date, the field will be “display only.”

Month of Fiscal Year: 2 digits
Displays the current month of the fiscal year.

Additional Functions
PF KEYS
See the Appendix for explanations of the standard PF keys.
Instructions

Listed below are general instructions that will make your job easier as you use FAMIS to input or view document information. Please become familiar with the information in this reference as it can make your navigation in FAMIS more efficient.

3270 Emulation Keys

Special keys and key combinations must be used when working with FAMIS. These keys are known as 3270 emulation keys and may be defined differently by each 3270 terminal or PC emulation software that you are using. Contact your computer support person if you do not know how to identify the following keys on your computer.

**PF Keys**
When a key is listed as **PFn**, “PF” represents Program Function. Many PCs use the function keys labeled **Fn** for these PF keys. Others have special combinations of keys to represent the PF keys, for example, on a Memorex emulation, a combination of the ALT key and the number 1 will represent the **PF1** key.

At the bottom of the FAMIS screens, there are PF keys listed that can assist in the use of the screen. For example, at the bottom of Screen 164 (Voucher Inquiry by PO Number) there is a **PF11** key with the word “Right” under it. This means that by pressing **PF11**, the screen listing will scroll to the right for an additional panel of information.

**TAB and BACKTAB Keys**
Use the **TAB** and **BACKTAB** keys on a 3270 terminal to move from field to field. This will position the cursor at the start of each field. Most PCs have a key labeled TAB, while the BACKTAB is a combination of the SHIFT/TAB keys.

Using the arrow keys, instead of the TAB keys, to move around the screen may lock the computer keyboard. Use the **RESET** key, then the **TAB** key, to position the cursor and unlock the keyboard.

**CLEAR Key**
The **CLEAR** key on many PC keyboards is the **PAUSE** key. This key is often used to clear, or refresh, the screen before typing.

**RESET Key**
After pressing <ENTER> to process data information, note the status bar at the bottom of the screen. When the system is processing information, the symbol "X ( )" or hour glass icon (  ) will appear. You cannot enter additional information until the system is finished processing. If any other symbols appear, press your **RESET** key -- often the **ESCAPE** key on a PC.
ERASE END OF FIELD Key
To erase all the information in a field with one stroke, the ERASE EOF key on a 3270 keyboard is helpful. For example, a vendor name is held in context when moving from screen to screen. To change to a different vendor, use this key and the current vendor name on the Action Line will be removed. Now the new vendor name can be input. On most PCs, the correct key to use is the END key on the numeric keypad.

HOME Key
From anywhere on the screen, the most efficient way to take the cursor back to the Screen field on the Action Line is by pressing certain keys. For the 3270 terminals, the correct combination is the ALT/RULE keys. On most PCs, the HOME key on the numeric keypad will work.

Protected Area
The Protected Area is the area of the screen that will not allow the user to enter information. Typing information in the protected area may freeze the screen. Use your reset key and then tab key to release your system when it freezes.

Action Line/Context
The Action Line is usually the first line of information on each screen. The Screen field is used to navigate from screen to screen by entering the number of the screen desired. Fields such as screen, vendor, voucher number, account, etc. are often found on the Action Line.

Data that is entered on the Action Line will be carried in “context” from screen to screen until changed. For example, the GL account number 032365 is entered on the Action Line of the screen below. That account will be carried in “context” until the user keys a different account in the field.

The <ENTER> key must be pressed after entering Action Line data. If a user does not follow this step, all information entered on the screen may be lost and must be re-entered. After pressing <ENTER>, a message will be given at the top of the screen asking for modifications or providing further processing instructions.

F0002 Record has been successfully added
002 GL 6 Digit 08/01/11 09:17
FY 2011 CC 02
Screen: ___ Account: 032365 ___ NAVSO, INC
Account Title: NAVSO, INC.___________________    __                     SRS: _
Appendix – Instructions (cont’d)

Message Line

The line above the Action Line is used to display messages to the user. These messages may be error messages or processing messages, such as the one below.

```
F6537 Please enter a valid six digit GL account
002 GL 6 Digit
01/20/92 11:26
```

Scrolling Through Data

Pressing <ENTER> will scroll through information listed on a screen. On some screens, there are PF keys to use to scroll forward, backward, left and right. These PF keys are displayed at the bottom on the screens with that function.

Help

HELP functions are available for many screen fields in FAMIS. Typing a question mark (?) in the blank beside the desired field and pressing <ENTER> will access a pop-up window with specified field information. Another way is to place your cursor in the desired field and press PF2.

To get out of the HELP function, either select a value and press <ENTER> or press PF4. The distinction on which key to use will normally be designated in the pop-up window (EX: PF4 = Exit).

Escaping from a Pop-Up Window

When in a pop-up window, pressing PF4 will usually take you back to the original screen. There are a few screens when pressing <ENTER> will take you back to the original screen.
Field Help Using the F2 Program Function Key

On selected fields, additional information can be displayed using the PF2 key. This HELP information is accessed by moving the cursor to the field in question and pressing PF2.

For example, place the cursor in the Year-end Process field and press PF2. The first screen displayed explains the purpose of the field. Sometimes you will be shown the values immediately, without a definition or explanation.

The first help screen describes the field.

Field: FS-MJR-FUND-SRC
File: IAFRS-GENERAL-SUBSIDIARY-LEDGER

This attribute specifies the major funding source for this account. i.e. General operation fund, loan funds. This attribute is also used for roll-up reporting breakdowns by funding source in programs FBMR046 and FBMR047.

Press <ENTER> to display the valid values for the field.

Question Mark (?) or Asterisk (*) Help

FAMIS has a Help feature on some screen fields that will display a field definition and/or values that may be entered.

To use the Help feature, type a question mark (?) or asterisk (*) in the field and press <ENTER>. If Help is available for the field, a pop-up window will appear displaying a definition and/or valid values. To make a selection, type an “X” next to a value and press <ENTER> to pass it back to the previous screen. This is called the “Passback” feature.

Screen 204 - Vendor Purchasing Add/Create (Panel 1)

Pop-Up Window with available vendors to select
After making a selection from the pop-up window of available vendors, you will be returned to the main screen and the information for the selected vendor will be displayed.

View summary information of the subsidiary ledger/support account data for a project by budget pool.

190 **Project Delete** ............................................................................................... IV-66
Used to delete a project from SPR.

191 **Award Delete** ............................................................................................... IV-68
Used to delete an award from SPR.

192 **Sponsor Delete** ............................................................................................ II-17
Used to delete a sponsor.

801 **Indirect Cost Table** ....................................................................................... VIII-4
Used to define the valid indirect cost bases.

802 **Indirect Distribution Table** ........................................................................ VIII-6
Used to define valid indirect cost distribution.

804 **Federal Domestic Assistance (CFDA) Table** ............................................... VIII-8
Lists the codes for Federal Domestic Assistance.

807 **Award Estimates by Department Table** ...................................................... VIII-14
Tracks estimated and actual award dollars by department reported by month in a fiscal year.

808 **Proposal Estimate by Department Table** .................................................... VIII-16
Tracks estimated and actual proposal dollars by department reported by month in a fiscal year.

809 **Keyword Table Maintenance** ...................................................................... VIII-18
Used to maintain keyword information.

815 **Coordinating Board Code Table** ................................................................. VIII-10
Lists the codes for the Coordinating Board Code.

816 **Letter of Credit Table** .................................................................................. VIII-12
Defines valid letters of credit.

821 **Control Record Maintenance** ..................................................................... IX-3
Used to control institution information of SPR system.

850 **Person Information** ...................................................................................... VIII-20
Used to enter a new researcher into FAMIS.

860 **Department Table Maintenance** ................................................................. VIII-24
Used to maintain departmental information.

Standard PF Keys

PF Keys are used in FAMIS to access additional information. Wherever possible the same assignment has been given to the same PF key, such as PF2 always being the key used for HELP. Occasionally this has not been possible and a different assignment has been made.

The following list is to help you identify the functionality behind the PF keys that you will see on the many screens in the purchasing modules of FAMIS.

Many screens have extended information windows assigned to various function keys that are designated at the bottom of each screen and pop-up window. Placing the cursor (using the cursor arrow keys) on a particular line and pressing the extended information function key will display the pop-up window information for the document or item on that line.

Typically, exiting a pop-up window is done by pressing **PF4** to return to the previous window or inquiry screen. If multiple windows have been opened pressing **PF3** will return you directly to the screen where you started.

From within many of the pop-up windows an additional set of extended function keys may appear to further inquire on the document or item.

Extended Function Keys

**EHelp**  Not Used in FAMIS

**Help**  On-Line Help

On selected fields, additional information may be displayed. This information is accessed by moving the cursor to the field in question and pressing the **PF2** key for Help. The first screen accessed will describe the field; pressing <ENTER> will display any valid values available for the field (see below).

| DESCRIPTION: AN INSTITUTIONALLY DEFINED CODE THAT GROUPS CURRENT FUND EXPENDITURES ACCORDING TO THE PURPOSE FOR WHICH COSTS WERE INCURRED. |

Pressing this key scrolls the panel to the **right**. |
Glossary

A

ABR
See Automatic Budget Reallocation.

ABR Pool Table
A user-defined table assigning rules for budget pools and the subcode ranges participating in each pool.

Account
A functional unit, identified by an account ID that serves a particular accounting purpose where one person has primary responsibility for it. Accounts include balance sheets (GL) and revenue/expenditure accounts (SL). A building (in the Plant Funds area) is an example of a General Ledger account and the President’s Office is an example of a Subsidiary Ledger account.

Account Control
The last four digits in the ten-digit account number for a General Ledger account. The account control designates a specific asset, liability, fund balance, fund addition, fund deduction or summary control.

Account ID
A 6-digit identification number for an account.

Account Number
A 10-position ID within the master file of the Financial Records System. The first 6 positions identify the specific account while the last four positions identify the account control for a balance sheet account (GL) and the object code for a revenue or expenditure account (SL).

Accounts Payable

Action/Context Line
The screen line (usually fourth from the top) or lines where the screen to be accessed and the key of the data to be addressed are input and displayed.

Alias
A commonly used name for a vendor, other than the formal customer name (primary name) that prints on the check. The Purchasing System also offers a commodity alias name and permits you to define any number of alias names, once a vendor has been created.

AP
See Accounts Payable.

Attributes
Descriptive data associated with a record. Examples are school, department, function, name and responsible person. Attributes support a variety of sophisticated reporting techniques.

Automatic Budget Reallocation (ABR)
When transactions are entered, a process by which the system automatically transfers budget dollars from predefined budget pools to specific object codes.

B

Bank Transfer
A movement of cash from one bank account to another. This allows expenditures at specific object codes to share in a single pool of money.
Appendix – Glossary (cont’d)

**Batch/Session**
A collection of related transactions input to the system with a header record and control totals, usually prepared by one person or subsystem feed.

**Batch Interface**
A type of interface where one system generates transactions to be batched for input into another system.

**BBA**
See Budget Balance Available.

**Beginning Balance**
Balances posted during implementation.

**Budget**
A plan of revenue and expenditures for an accounting period expressed in monetary terms.

**Budget Balance Available (BBA)**
That portion of budget funds that is unspent and unencumbered.

**Budget Fiscal Year**
Budgets are prepared in one fiscal year for the next fiscal year. The default is always the next fiscal year when using any Budget Preparation screen.

**Budget Pattern**
Used to group individual object codes (or ranges), into budget categories to establish new fiscal year budget. Tracks current and past year account activity in order to develop the new fiscal year budget.

**Budget Pool**
A budget summarized at significant levels of revenue or expense. A single pool of money defined for use by specific object codes.

**Budget Version**
Various versions of a budget can be created and names for comparative purposes.

**Buying Account**
Account which is allowed to “purchase” from a specific selling account via an interdepartmental transfer.

**Capital**
Assets, cash, means, property, resource.

**Cash**
Coins, currency, checks, and anything else a bank will accept for immediate deposit.

**Cash Disbursement**
A non-voucherered payment for goods received, services rendered, reduction of debt or purchase of other assets.

**Cash Receipt**
Cash received from cash sales, collections on accounts receivable and sale of other assets.

**Chart of Accounts**
A listing, at the 6-digit level, of all account numbers within FAMIS. Sometimes the COA defines the accounts at the 10-digit level as well.
Appendix – Glossary (cont’d)

**Check Override**
The capability to bypass, on an individual-voucher basis, controls that were previously set for all vouchers.

**Claim-On-Cash**
The share of ownership that an account has in the institution’s money.

**Clearing Account**
A temporary summary account (such as a payroll account) which is periodically set to zero.

**COA**
See Chart of Accounts.

**Compound Journal Entry**
A two-sided transaction that posts debits and credits.

**Context**
The information that identifies the record being displayed or to be displayed by the system.

**Copy**
The process that creates a new pattern from an existing version (specified on the Action Line) or ABR (specified in the resulting pop-up screen).

**Credit Memo**
The reduction of a payable previously paid or still open. A credit memo may result from overpayment, overbilling, or the return of goods.

**Currency Code**
A code that identifies a record in the Tax Currency Table. This record provides the factor to calculate foreign currency conversion costs or gains and the liability account used. The code is translated through a table into a conversion rate.

**Cycle**
Two or more programs that are run in a specific sequence.

**Data**
Data are representations, such as characters, to which meaning might be assigned. They provide information and can be used to control or influence a process. This term is not synonymous with information. Information is data to which meaning has been assigned.

**Database**
The collected information that is accessible to the computer for processing.

**Data Control**
The tracking of input, processing and output, and the comparing of actual results to expected results in order to verify accuracy.

**Data Element HELP**
An on-line feature that assists the user by providing immediate information about any particular field on a screen.

**Data Entry**
A means for adding information into the system.

**Default**
The value that the system will assign if no other value is entered.
Default Mandatory
Flag indicating whether the transfer is mandatory. If no value is entered in the detail lines for this field, the transfer will be flagged with the default value after pressing <ENTER>.

Delete Flag
A data element whose condition signifies that a document will be permanently removed from the database during the next archive cycle.

Demand Voucher
Voucher to be paid during the next Check Cycle.

Diagnostic Message HELP
An on-line feature that assists the user with data entry by providing an explanation of a message and the appropriate action to take.

Diagnostics
The messages that describe the results of processing. These messages may indicate an error and provide information about a process by noting what action to take to correct the error.

Digit 3 of TC
The third digit of the Transaction Code (Entry Code) which specifies the type of transaction.

Disbursement
Record money paid out by the institution from GL, SL and SA or bank account. Can reverse an encumbrance. A payment for goods received, services rendered, reduction of debt or purchase of other assets that does not go through the AP/voucher system.

Discount Account
The account credited for discounts taken by the system when a check is written.

Discount Table
A table containing user-defined values representing discount terms for vendors.

Dollar Data
A record of the dollar amount and the type of financial transactions posted to an account.

Dollar Limit
A code used in Accounts Payable to specify a check amount. If the amount of a vendor’s check is greater than this value, the check will not be generated.

Drop Flag
A data element whose condition signifies that a document is to be removed from the database immediately.

Encumbrance
An obligation incurred in the form of a purchase order or contract. Also referred to as an open commitment.

Endowment
Funds received by an institution from a donor who specifies the condition that the principal not be spent.

Endowment Income
The income generated by investing the principal of an Endowment Fund.
Entry Code
The initial three-digit code on a transaction that denotes the transaction type. This code, which is mandatory for all FRS transactions, is predefined by the system. It is also known as the Transaction Code.

Expended
Depleted, used up.

Expense
Cost, disbursement, payments.

FA
See Financial Accounting.

Feed
Transactions from other systems that are transferred to the FRS.

Field
That part of a control record, transaction or established for displaying or entering information.

File
A storage area established within a computer system or database for organizing similar kinds if data.

Financial Accounting (FA)
A Financial Records System application that balances the General and Subsidiary ledgers while providing a complete audit trail of all transactions.

Financial Records System (FRS)
A system that supports the financial record-keeping and reporting of a college or university.

Flag
A data element used to set controls or conditions on a process or program.

Freeze Flag
A data element whose condition signifies that new transactions cannot be posted. This includes no feeds or invoice postings for this document.

FRS
See Financial Records System.

FTE
Full-time Equivalents. Used by the B/P/P System.

Function
Purpose.

Fund
An accounting entity (a 6-digit GL account) with a self-balancing set of 10-digit accounts for recording assets, liabilities, a fund balance and changes in the balance.

Fund Balance
The equity of a fund (the difference between assets and liabilities).

Fund Group
A related collection of funds (6-digit GL accounts). Examples include Current Unrestricted, Current Restricted, Loan, Endowment, Annuity and Life Income, Plant, and Agency.
Appendix – Glossary (cont’d)

Fund Group ID
A one-digit identification number representing the fund group with which an account is associated.

Fund Transfer
A movement of dollars from one fund balance to another.

General Ledger (GL)
A balance sheet account for the institution. All GL account numbers begin with “0” (zero).

GL
See General Ledger.

GL/SL Relationships
User-defined structures relating Subsidiary Ledger (SL) revenue/expense accounts to General Ledger (GL) fund accounts.

Global Subcode Edit (GSE)
A system edit that checks each new 10-digit account against a table that specifies valid combinations of 6-digit accounts and subcodes.

GSE
See Global Subcode Edit.

Header
That portion of a Purchasing document containing basic information such as the document’s number, the date and amount.

HEAF
Indicates a Higher Education Assistance Fund code number.

HELP
An online feature which accesses PREDICT in order to supply descriptions, valid values and suggested actions.

IDT
Interdepartmental Transfer.

Indirect Updating
The automatic posting of real dollar activity to a GL Balance Sheet account as a result of a direct transaction.

Inquiry Screen
A screen which only displays information and cannot be used for entering data.

Interface
A communication link between data processing systems or parts of systems that permits sharing of information.

Interfund Borrowing
The transfer of an asset or liability from one fund to another.

JCL
See Job Control Language.
Appendix – Glossary (cont’d)

**Job Control Language (JCL)**
A problem-oriented language, used in IBM that expresses the statements of a processing job. It is also used to identify the job or describe its requirements, usually to an operating system.

**Journal Entry**
A non-cash transfer of dollars between two or more accounts.

**Ledger**
A collection of account records for an organization. FRS contains two ledgers: the GL (balance sheet) and the SL (revenue and expense). See also General Ledger and Subsidiary Ledger.

**Liability Account**
In AP, a GL account that is credited for the liability when a voucher is processed. Any GL account that accepts a transaction creating a liability.

**Liquidate**
Reduce encumbrance through payment; pay off debt.

**Map Code**
A five-digit attribute code in an SL account indicating the GL Fund ID to which it relates.

**Mandatory**
Flag indicating whether the transfer is mandatory. If no value is entered in the detail line(s) for this field, the transfer will be flagged with the default value after pressing <ENTER>.

**Memo Bank Account**
An account that represents the balances of demand deposits for operating accounts.

**Menu**
A screen containing a list of available processes, screens or other menus.

**Name Rotation**
A feature that allows users to print a vendor name in one format on checks and then rotate it to another format for sorting on reports.

**Object Code**
A four-digit number identifying specific items of revenue/expense or attribute records.

**Open Commitment**
An encumbrance.

**Parameter**
A variable that is assigned a constant value for a specific purpose or process. It provides the user with defined choices for report selection, processing or output requirements.

**Purpose**
The function.

**Receipts**
Cash received from cash assets, collections on account receivable and sale of other assets. The purpose is to record money received by the institution to the GL, SL and SA or bank accounts.
Appendix – Glossary (cont’d)

**Recommendation**
The budget projection version that is submitted to the Budget Office for approval.

**Regular Order**
A type or purchase order that denotes a typical order.

**Remit-To Address**
The address to which the check for goods and/or services rendered will be sent.

**Requisition**
A type of document that internally requests goods and/or services to be acquired. It must be authorized before being converted to a purchase order.

**Retention Months**
A data element defined when creating a vendor. This indicates the number of months a vendor is to be maintained on file after all outstanding items have been paid or reconciled.

**Revenue**
Income or receipts.

**Run Parameter**
A parameter from a control record or a program control transaction (as opposed to a file maintenance transaction).

**Save**
The process that creates a budget version.

**6-Digit Account**
For GL: An entity that consists of a self-balancing set of 10-digit accounts.
For SL: An entity of revenues and/or expenses

**Screen HELP**
An on-line feature that assists the user with data entry by providing information on the purpose and operation of a particular screen.

**Secondary Vendor**
The vendor record holding the multiple addresses that are used periodically, as opposed to the primary address.

**Secured Submitted Version**
Submitted budget version that has been locked. It can be flagged to indicate it is an “official” version.

**Selling Account**
Account which is allowed to “sell” to specified buying accounts via interdepartmental transfers.

**Session**
A control mechanism to track real-time posting of a group of financial transactions in order to provide an audit trail.

**SL**
See Subsidiary Ledger.

**Split Encumbrance**
An encumbrance which applies to several accounts.
Standing Order
A type of purchase order used for reoccurring services like those provided by the telephone and electric companies.

Subcode
Four digits appended to the account ID to identify attributes and dollar records within an account.

Submit
The process that attached a budget version to a budget account as a budget of an account.

Submitted Version
Version of the budget submitted for approval as the official budget of an account.

Subsidiary Ledger
Revenue and expenditure accounts for the institution. All SL account numbers begin with a ledger number of 1 through 9.

Suspense Account
A GL clearing account reflecting real dollar activity directed to the Suspense File.

1099 Vendor
A vendor (usually a consultant or professional service hired by an institution) whose payments must be reported to the IRS on Form 1099.

1099 Voucher
A voucher that must be reported to the IRS on Form 1099.

10-Digit Account
The six-digit account ID combined with the four-digit subcode, i.e. an account control or object code.

Tax Code
A code that identifies a record in the PO Tax Table (for the Purchasing System) and in the Tax Currency Table (for Accounts Payable). The code must be the same for both tables. This record contains the tax percentage and the tax liability account to be used.

Tax ID
A Social Security Number or Federal Employer Identification Number that is available for 1099 report preparation.

Taxes
An additional charge on the acquisition of goods that is imposed by the taxing authority and should be paid with the invoice.

Temporary Vendor
A vendor from whom only one purchase or service is required. No further transactions, for this vendor, are expected.

Transaction Code
A three-digit code that uniquely identifies a transaction type and determines editing criteria and dollar fields to be updated.
U

Update Screen
A screen that allows a user to enter data for updating the files.

V

Valid Value
A value of a data element that has been defined for input.

Value-Based
A mechanism used to restrict operator access to information by comparing operator security authorization with the value stored in the field.

Vendor
A provider of goods and/or services.

Vendor Addresses
See Order-From Addresses and Remit-To Addresses.

Vendor Automatic
A feature that automatically assigns a specific Number Assignment to the vendor on the Action/Context Line.

Vendor Commodity
A good or service purchased from a specific vendor.

Vendor File
A record of all attributes, dollar data, and control information for all vendors.

Version
Account Budgets created by departments. These can later be submitted as the budget recommendation for the account. Once a version is locked, it will be called a “secure version” and can never again be changed.
