I. Compliance with Texas Government Code, Section 2102.015: Posting the Internal Audit Plan, Internal Audit Annual Report, and Other Audit Information on Internet Web Site.
Compliance with Texas Government Code, Section 2102.015: Posting the Internal Audit Plan, Internal Audit Annual Report, and Other Audit Information on Internet Web Site

Texas Government Code, Section 2102.015, requires state agencies and higher education institutions to post their annual internal audit plan and their internal audit annual report on their Internet web site. It also requires a detailed summary of the issues identified in the audit reports and management’s response to the audit issues be included on the web site.

To comply with the requirements of Texas Government Code, Section 2102.015, we will include all required audit information on their Internet web site. The annual internal audit plan, the internal audit annual report, and the quarterly audit reports are included in the “electronic reports” section of the web site. The quarterly audit report includes individual audit report observations along with management’s responses. All of the required audit information as defined in Texas Government Code, Section 2102.015 will be added to the Internal Audit Department’s Internet web site within 30 days of completion.

The purpose of the Internal Audit Department’s web site is to inform viewers about “who we are, what we do, and how we help” the A&M System. Currently, the web site includes several sections of information including mission and responsibilities, code of ethics, controls, types of reviews, standards, audit staff, electronic reports, and reporting fraud.
II. Compliance with the Benefits Proportionality Audit Requirements for Higher Education Institutions
Compliance with the Benefits Proportionality Audit Requirements for Higher Education Institutions

In compliance with Rider 8, page III-39, of the General Appropriations Act (84th Legislature, Conference Committee Report), a System-wide Review of Compliance with Benefits Proportional by Fund Requirements has been included as part of the Fiscal Year 2016 Audit Plan. This review will focus on fiscal years 2012 and 2014. Fiscal year 2013 Benefits Proportional by Fund Reports were reviewed in response to Governor Perry’s letter dated May 29, 2014 and a report was issued to the Governor’s Office on October 30, 2014. Results from this review were included in the Internal Audit Annual Report for Fiscal Year 2014 submitted by the Texas A&M University System Internal Audit Department.

The audit conducted in fiscal year 2016 will use the methodology prescribed by the State Auditor’s Office for higher education institution internal audits of benefits proportional by fund. The audit will include, at a minimum, the following areas:

- Ensuring that (a) payments for benefits that are paid from appropriated funds are made proportionately from the same source as the related salaries and (b) salaries paid from General Revenue funds are related to positions authorized for General Revenue funds.

- Reviewing salary expense transfers and refunds of expenditure transactions to verify that, if the higher education institution reduced salary expenditures from General Revenue, it also made a corresponding reduction in benefit expenditures from General Revenue.

- Disclosing in the audit report (a) the aggregate dollar amount of all instances of noncompliance with the proportionality requirements identified during the audit, regardless of materiality, and (b) the status of any resulting reimbursement payments to the Comptroller of Public accounts.

A copy of the audit report will be submitted to the Legislative Budget Board, the Comptroller of Public Accounts, and the State Auditor’s Office no later than August 31, 2016. Additionally, audits of benefits proportionality will be considered when developing the annual internal audit plans for fiscal years 2016 and 2017.
III. Internal Audit Plan for Fiscal Year 2015

This section includes the status of audits in the internal audit plan for fiscal year 2015.

* Changed and broadened the scope of the audit to include university financial management services.
** Divided the original audit into three audits.
Deviations from Fiscal Year 2015 Audit Plan

The following audits were cancelled during fiscal year 2015:

- Logical Security Review of Information Systems - Texas A&M Transportation Institute, Texas A&M Engineering Extension Service, and West Texas A&M University – These three members have engaged the services of the Texas A&M Engineering Extension Service (TEEX) Cyber Security Unit to conduct logical security reviews. The TEEX Cyber Security Unit review will cover the security risk areas we planned to review in our audit.

- Review of Student Financial Aid - Tarleton State University – The university has several initiatives and process changes occurring in 2015 and requested we postpone the audit. The university contracted with external parties to conduct a review of their student financial aid area, make recommendations for improvement and provide training. Due to this level of activity in the university’s student financial aid operations, we moved the audit to fiscal year 2017.

- Review of Research Compliance - Prairie View A&M University – We cancelled this audit because the System Ethics and Compliance Office recently conducted a compliance review of this area.
IV. Consulting Services and Nonaudit Services

V. External Quality Assurance Review (Peer Review)

This section contains the most recent peer review report for the System Internal Audit Department, dated June 12, 2015.
June 12, 2015

Catherine A. Smock, Chief Auditor
System Internal Audit Department
Texas A&M University System
Moore/Connolly Bldg., 4th Floor
301 Tarrow
College Station, Texas 77840-7896

Dear Ms. Smock:

In accordance with the Institute of Internal Auditors (IIA) International Professional Practices Framework, the United States Government Accountability Office Government Auditing Standards, and the Texas Internal Auditing Act (Texas Government Code, Chapter 2102), we have completed an external quality assurance review of the System Internal Audit Department (SIAD) of the Texas A&M University System.

Based on the information received and evaluated during this external quality assurance review, it is our opinion that SIAD generally conforms to the Institute of Internal Auditors International Professional Practices Framework, the United States Government Accountability Office Government Auditing Standards, and the Texas Internal Auditing Act. According to the IIA Quality Assessment Manual, “Generally Conforms” means that an internal audit activity has a charter, policies, and processes that are judged to be in conformance with the Standards.

We found that SIAD is well managed internally, independent, objective, and able to render impartial and unbiased judgments on the audit work performed. The staff members are qualified, proficient, and knowledgeable in the areas they audit. Individual audit projects are planned using risk assessment techniques; audit conclusions are supported in the working papers; and findings and recommendations are communicated clearly and concisely. In addition, it was demonstrated that the chief auditor has effective relationships with the Board of Regents and is well respected and supported by management. Interviews conducted during the quality assurance review indicate that management considers SIAD a useful part of the overall operations and finds that
the audit process and report recommendations add value and help improve the operations.

We appreciate the courtesies and considerations extended to us during our review by members of SIAD and the A&M System community.

Sincerely,

[Signature]

VI. Internal Audit Plan for Fiscal Year 2016

This section includes the approved internal audit plan for fiscal year 2016. The total budgeted hours for the audit plan is 34,000.
Introduction

The purpose of the Audit Plan is to outline audits and other activities the System Internal Audit Department will conduct during fiscal year 2016. The plan is developed to satisfy responsibilities established by the Board of Regents Bylaws, System Policy 10.01, Section 2102.008 of the Government Code, and applicable auditing standards. The Chief Auditor is authorized to make changes to the Plan, as deemed necessary, to address changes in identified risks. The Committee on Audit and the Chancellor will be notified of any significant additions, deletions, or other changes to the Audit Plan.

The types of audits listed in this Plan demonstrate the variety of approaches the System Internal Audit Department takes to address its mission of helping The Texas A&M University System achieve its goals and objectives in an efficient and effective manner. Audits included in this Plan were primarily identified through a system-wide risk assessment process. However, some of the audits included are performed to assist the A&M System in complying with external requirements. In order to more effectively utilize audit resources and to provide better information related to certain risk areas that span across the A&M System, the department has initiated the use of system-wide audits. As a result of the system-wide audits and the overall system-wide risk assessment process, some of the A&M System members do not have any specifically planned audits in the fiscal year 2016 audit plan. The members with no specifically planned audits include Texas A&M International University, Texas A&M University – San Antonio, Texas A&M Veterinary Medical Diagnostic Laboratory, Texas A&M Forest Service, and Texas A&M AgriLife Extension Service. Deliverables for planned audits may include a variety of services, including audit reports, technical assistance, data analysis, and other written and oral communications.

The specific scope of each audit in the Plan will be determined once the audit team has completed its audit planning process for each engagement. The audit planning process includes consideration of the risk management, control, and governance processes that provide reasonable assurance that:

- Risks are appropriately identified and managed.
- Information is accurate, reliable, and timely.
- Employee actions are in compliance with policies, standards, procedures, and applicable laws and regulations.
- Operations are efficient and effective.
- Resources are acquired economically, used efficiently, and adequately protected.
- Accountability systems are in place to ensure organizational and program missions, goals, plans, and objectives are achieved.
Planned Audits for Fiscal Year 2016

Other Types of Audits/Activities

Follow-up Audits

Conduct follow-up audits on management’s implementation of prior audit recommendations to determine if management has adequately addressed the issues.

Change in Management Reviews

Conduct change in management reviews, on an as-needed basis, when there is a change in an executive management position within the A&M System.

Continuous Auditing

Continuous auditing is the application of computer assisted audit tools and techniques on organizational processes, transactions, systems and/or controls to provide greater audit coverage. Benefits of continuous auditing include the review of 100% of auditable transactions/data versus a sampling, the identification of errors or other issues through frequent monitoring and review, and the facilitation of trend analysis to identify problems and/or other concerns.

Participation and/or Assistance

Internal audit staff may participate and/or assist A&M System members in developing and maintaining strong governance, risk management, and control processes and systems. Activities may include serving as a member of a work group, participating in the design of a major information system, or providing consultative advice on financial, operational, and compliance issues. The staff may also perform work to support external audit requirements.

*These audits are required to be performed to comply with external audit requirements.
DESCRIPTION OF RISK ASSESSMENT METHODOLOGY

The development of our annual audit plan is based on a rigorous risk-based approach. Our process includes meeting with each A&M System member CEO and their executive team. We also meet with members of the Chancellor’s executive committee to get information on risks facing the A&M System in the upcoming 12 to 18 months. During the CEO meetings financial, strategic, compliance, and other potential significant risk areas are discussed. Using information gathered from these meetings, our members’ most recent enterprise risk management information, and prior audit coverage we analyze risks associated with over 400 auditable units. The auditable units include areas such as governance, finance, research, information technology, auxiliary enterprises and student services. Our plan is not a static document; risks may change during the year and audits may need to be added or cancelled due to changing risks. Any significant changes to the plan are communicated to the Committee on Audit.

This collection of information provides the means to assess the risk for each auditable unit of each A&M System member, and ultimately prioritize the list of auditable units based upon their overall risk to the organization. Those auditable units with the highest calculated risk for the A&M System are included in the annual audit plan.
Internal Audit Plan for Fiscal Year 2016

Listing of Projects included in the Fiscal Year 2016 Audit Plan which address the following:

Expenditure Transfers:

SYSTEM-WIDE AUDITS
   Compliance with Benefits Proportional by Fund Requirements

VIII. Reporting Suspected Fraud and Abuse

This section includes information on reporting suspected fraud and abuse.
Reporting Suspected Fraud and Abuse

Texas Government Code reporting requirements:

The Texas A&M University System Internal Audit Department has a separate investigative unit responsible for investigating allegations of fraud, waste, abuse, and other forms of misconduct. The investigative unit reports to the State Auditor's Office significant incidences that the department believes involve fraud, misappropriation or misuse of money received by the A&M System from the state.

General Appropriations Act fraud reporting requirements:

Every member of the A&M System has placed the required fraud reporting information on their web sites. This includes a link to the A&M System's Risk, Fraud & Misconduct Hotline, as well as a link to the State Auditor's Office Fraud, Waste or Abuse Hotline website and toll-free telephone number. The A&M System's fraud policy, Control of Fraud, Waste and Abuse, establishes the responsibilities of the employees, management, and Internal Audit related to the prevention, deterrence, detection, and investigation of fraud, waste, and abuse. http://policies.tamus.edu/10-02.pdf.
