Drug list: Medications covered by your prescription plan

Routinely reviewed by **independent physicians and pharmacists** to ensure you receive clinically effective care.

Plan-preferred medications, including generics and brand names.

Before you visit your doctor, log in to your online account to discover pharmacy **benefits that benefit you**.

During your visit, talk with your doctor about preferred generics so you can **stress less and save more**.

Generic prescriptions

FDA-approved generic medications contain the **same active ingredients as brand-name** counterparts.

Nine out of 10 prescriptions filled in the U.S. are for generic medications—options that usually provide the **same clinical effectiveness for less cost without a coverage review**.

Review your medications regularly with a doctor or pharmacist and ask, **“Is there a generic for that?”**

Access your online account at express-scripts.com or through our mobile app to find a generic or price a medication.

Step therapy

Helps reduce costs and ensures you receive a safe and proven-effective medication.

+ **First step medications** are typically generic and lower-cost brand name medications.

+ **Second step medications** are best suited for the few patients who don't respond to first step medications.

Prior authorization: Monitors prescription medications

Simply means that **more information is needed to see if your plan covers the medication**. This is also called coverage review.

Makes sure your prescription is suitable for the intended use and covered by your plan

Can be tracked online through your personal account, viewing where your medication is in the process and other details

Scan the **QR code** to create a digital account today.

Before your doctor sends a prescription, check your account to see if the medication requires prior authorization.
