Updates

Secure 32/Payformance

- FIS Global no longer supporting software as of 03/23
- Searching marketplace for providers to replace Secure 32
- We have been able to review 4-5 different providers and their software
  - Most are cloud based
  - Reasonable cost

Troy AssurePay

Updates

- **iPayment Upgrade**
  - Expected to be completed in October
  - Improves architecture and improves response times
  - Allows us to add other enhancements and modules available from Core Business Technologies that we will begin to evaluate after upgrade

- **Laserfiche Forms**
  - Just a reminder that all forms we have developed are available for all system members to use.
