# 12.03.99.K1 Teaching Load Credits

Approved November 6, 2014
Next Scheduled Review: November 6, 2016

## Rule Statement

To facilitate fair and equitable faculty workloads, Texas A&M University-Kingsville awards faculty members Teaching Load Credits (TLCs) for teaching and other functions.

## Reason for Rule

This rule is required by System Policy *12.03, Faculty Academic Workload and Reporting Requirements.*

## Procedures and Responsibilities

The type of instruction determines how each course is calculated as a part of a faculty member's classroom teaching credits during the long semesters of the regular academic year. The various types of instruction include: Classroom lecture and seminar, laboratory, studio, practicum, student teaching, internships, independent study, special problems, and research. Release time from teaching can be awarded for various activities. The concept of teaching load credits applies only to long semesters. Summer Sessions or shortened terms invoke separate procedures.

1. Teaching Load Credits (TLCs) will be assigned according to the following guidelines.

    1.1 Lecture and Seminar

        a. Credit hours are normally equal to contact hours for lecture and seminar courses, i.e., 1 credit hour equals 1 contact hour. A contact hour is defined as 50 minutes. Therefore a 3-credit-hour class meets for 150 minutes per week.

        b. Undergraduate Courses. TLCs correspond directly to the contact hours of the course. A course listed as 3 hours lecture and 0 hours laboratory yields 3 TLCs. If the course is cross-listed, or meets with another section, it is counted only once in determining the teaching credit received by the faculty member.

c. Graduate Courses. TLCs for master's level courses are assigned as for undergraduate courses. TLCs for doctoral level courses may be assigned as credit hour values multiplied by 1.5.

d. Stacked 4000/5000 courses count as a single course.

1.2. Laboratory Instruction. This section applies to standard laboratory instruction in the sciences and engineering, activity courses in Health and Kinesiology and similar courses in other fields of study. For these courses, semester credit hours (SCHs) are not the same as contact hours. As with lecture classes, a laboratory contact hour equals 50 minutes.

a. To earn TLCs for direct laboratory instruction the faculty member must personally teach the sections involved. Faculty members receive 2 TLCs for each 3 contact hours.

b. Graduate assistants receive 1 TLC for each 2 contact hours except for activity courses in the Department of Health and Kinesiology.

c. For Health and Kinesiology activity courses the student receives 1 SCH for 3 contact hours and the faculty member or graduate teaching assistant receives 2 TLCs.

d. Faculty members supervising multiple laboratory sections taught by student assistants receive 1 TLC for each 4 contact hours of laboratory up to a maximum of 4 TLCs per semester.

e. For music method courses the student receives 1 semester credit hour for each 2 contact hours and the faculty member receives 1.5 TLCs. For private lessons TLCs are calculated as 5 TLCs for each 8 contact hours. Teaching credits for directing bands or ensembles are treated as special assignments at the discretion of the department chair.

f. Art studio TLCs are calculated as 4 TLCs for each 6 contact hours.

g. Drama laboratory counts as 2 TLCs for 3 contact hours.

1.3. Independent Study and Research. Independent study and research courses usually require the instructor to assign work or research to be done by individual students. The instructor must assess the student's progress towards satisfactory completion of the project at appropriate intervals and evaluate the work for grading purposes. TLCs are calculated the same as if the course were a lecture course, with the same minimum number of students enrolled in to justify TLCs. Theses and dissertation courses are of this nature.

1.4. Practicum, Internship and Student Teaching. The standard practicum or internship involves placement of a student in an on- or off-campus setting where supervision of the student's work is shared by a faculty member and the staff at the learning location. Such placements require the faculty member to account for a minimum commitment of time. Such placements include but are not limited to student teaching practicums and internships. Instructors of record of student teaching courses, practicums, and internships receive 3 TLCs for each class with three semester hour credit taught if that class makes with at least the minimum required enrollment.

1.5. Each 1101 and 1102 freshman seminar course will provide 2 contact hours per week but will award 1 SCH to the student. The faculty member teaching these courses will be awarded 2 TLCs per course.

The TLCs awarded per contact hour are outlined in Table 1.

Table 1. Teaching Load Credits (TLCs) awarded per contact hour for various types of courses.

| **Type of Course** | **TLCs per Contact Hour** |
|---|---|
| Undergrad lecture | 1 |
| Master's lecture | 1 |
| Doctoral lecture | 1.5 |
| Laboratory or recitation taught by faculty member | 0.67 (2 per 3) |
| Laboratory taught by graduate student | 0.5 (1 per 2) |
| Health/Kinesiology activity course taught by faculty member or graduate student | 0.67 (2 per 3) |
| Art or drama studio course taught by faculty member | 0.67 (2 per 3) |
| Music methods course taught by faculty member | 0.75 (1.5 per 2) |
| Music private lessons taught by faculty member | 0.67 (2 per 3) |
| Independent study, thesis, research, practicum, internship, student teaching | As with lecture, TLCs awarded based on course SCH, and only if course enrollment meets minimum requirement |
| Freshman seminar | 1 |

2. Release time TLCs may be awarded according to the following guidelines.

2.1. Teaching Non-compensated Overloads. Although overloads are generally discouraged, situations arise in which faculty members agree or volunteer for programmatic reasons to teach more than the standard full load for their appointment. When this situation occurs efforts will be made to grant release time in a subsequent semester consistent with teaching requirements of the department. These overload hours, commonly referred to as "banked hours," cannot be redeemed later than three long semesters following the semester in which the overload occurred.

2.2. Opportunities present themselves to faculty and staff to utilize their expertise in situations outside their job. Faculty members receiving release time for programmatic reasons will not be considered for overload, off-campus teaching assignments. Employees generally can accept extra paying responsibilities if they are temporary, unrelated to their normal duties, and outside their regular work hours. Permission to perform outside employment can be obtained only through submission of the Faculty Outside Employment and Consulting Application and Approval Form.

2.3. Teaching Program Development. Involvement in development of the teaching program by preparation of new course material, new teaching methods, and classroom or laboratory material or major curriculum development may be considered for release time as determined by the chair, academic dean and Provost and Vice President for Academic Affairs, but will not exceed 3 TLCs.

2.4. Supervision of Graduate Students. For supervising to completion five theses or five dissertations, and serving as chair of those masters thesis or doctoral dissertation committees, 3 TLCs of release time can be awarded at a time deemed feasible by the department chair.

2.5. Administrative and Other Professional Assignments

a. Department chairs receive 6 TLCs of release time each long semester.

b. Associate or Assistant deans receive 9 TLCs of release time each long semester.

2.6. Research. The University's practice of awarding release time for research will help a faculty member start and continue ongoing research activity. The end result of the release time must be a proposal aimed at securing outside funding or the completion of a scholarly work which is in progress. Faculty members are granted release time for research under three circumstances.

a. The faculty member obtains a research contract or grant which provides for replacement salary proportional to the time the faculty member is released. In the case of grant or contract monies from outside of the university, a research proposal must be approved through appropriate university channels. The faculty member should see that a Form 500 or EPA is submitted by his/her department in time for the paycheck to be drawn from the research account. The release time should be reported each semester on the Load Reduction Approval Request Form and submitted with the department's teacher load reports.

b. The faculty member submits a proposal to an outside funding source listing research release time as matching funding for the grant. The proposal must be approved through appropriate university channels including the Institutional Contribution/Cost Sharing Statement Form signed by the department chair and dean. Also, the Load Reduction Approval Request Form must be submitted each semester along with teacher load reports.

c. In a limited number of circumstances, the faculty member may be granted release time from teaching by the University for specific research-related duties. This requires that the Load Reduction Approval Request Form be prepared detailing the duties to be performed and results to be attained. This form must be approved by the department chair, dean, and Provost. The form is submitted with teacher load reports.

2.7. Special Assignments.

a. President, Faculty Senate. The President of the Faculty Senate will receive a 3 TLCs teaching load reduction each long semester.

b. Chair, major university or college committee. If the nature of the assignment is such that the demands on the time of the chair will be excessive, a 3 TLC teaching load reduction may be granted during a long semester as determined by the appropriate academic dean and the Provost and Vice President for Academic Affairs.

c. Release time may be awarded for other assignments as approved by the appropriate academic dean and the Provost and Vice President for Academic Affairs. The extent of such teaching load reductions will be determined by the nature of the assignment.

**12.03.99.O1.01 Faculty Workload**
Approved: May, 2012
Reviewed: June, 2014
Next Scheduled Review: June, 2019

## Procedure Statement

This Procedure is established to provide guidelines regarding the workload for faculty. The assignments will be implemented only as institutional resources are available, with teaching loads having the first priority.

## Reason for Procedure

This Procedure documents the regulations and standards for the interpretation of institutional workload requirements, and for the range of acceptable assignments within its definitions of faculty workload. This Procedure is required by System Policy 12.03 *Faculty Workload and Reporting Requirements*.

## Process

1. GENERAL

   Assignments of non-instructional workload credit are made by the division head of each School in consultation with the departmental faculty. Non-instructional workload assignments greater than 6 workload credits require the approval of the Provost and Vice President for Academic Affairs.

   Direct teaching activities include but are not limited to the following:
   1.1 instruction of lecture and seminar courses,
   1.2 laboratory and clinical instruction, music ensemble, and studio art,
   1.3 supervision of student teachers,
   1.4 private music lessons,
   1.5 chairing master's thesis committees,
   1.6 chairing doctoral dissertation committees,
   1.7 teaching a practicum as a group course, and
   1.8 team teaching.

**Provided below are more specific guidelines for the assignment of workload credit for direct instruction, administrative assignments and non-administrative academic assignments:**

2. CREDIT-GENERATING DIRECT INSTRUCTION WORKLOAD CREDITS.

Generally, workload credits will be assigned to direct teaching activities as described below.

2.1 Undergraduate Courses: Academic workload credit is equal to the credit hour value of the course. (3-credit-hour course section = 3 workload credits.)

2.2 Graduate Courses: Academic workload credit is equal to the credit hour value of the course. Based on the enrollment of a graduate course, and upon approval by the School Head, full-time faculty may receive up to four (4) workload credits.

2.3 Lecture/lab Courses: Academic workload credit for the lecture portion of a lecture/lab course is equal to the contact hours assigned to the lecture portion of the course in the University Catalog. (The lecture portion of a 2:3-contact-hour lecture/lab course = 2 workload credits.)

2.4 Laboratory Instruction: Academic workload credit is equal to the instructional contact hours per week multiplied by .67. (3-contact-hour lab section = 2 workload credits; 6-contact-hour art studio = 4 workload credits.)

2.5 Student Teacher Supervision: Academic workload credit for supervising student teachers in a 6-credit-hour course is .5 workload credit per student enrolled. Academic workload credit for supervising student teachers in a 3- credit-hour course is .25 workload credit per student enrolled. (6 students enrolled in a 6- hour student teaching course = 3 academic workload credits.)

2.6 Master's Thesis Committee Chair: Some faculty members will serve on thesis committees and/or direct theses as a normal part of their contractual responsibilities.

2.7 Team Teaching: Instructors who team teach classes receive academic workload credit in proportion to their instructional responsibility for the course. (For example, two instructors each having 50% responsibility for teaching a 3- credit- hour lecture course would each receive 1.5 academic workload credits.)

2.8 Due to the differences in scope and responsibility of work assignments of full- time versus part-time faculty members (scholarship, service, and student advisement, etc.), part-time faculty members are assigned a 20% teaching load for each 3 semester credit hour course assigned. If they are assigned 6 semester credit hours of course instruction, they will be credited with 40% teaching load, and so on.

## 3. ADMINISTRATIVE ASSIGNMENTS

Faculty members assigned to administrative positions below the level of school head (for example, department chair, academic program coordinator, and coordinator or director of a center, a program or a clinic) may receive reassigned workload credits for performing those duties. The amount of workload credit assigned depends upon the complexity of the department or program, the assigned duties of the position, and the number of faculty members or students supervised.

## 4. NON-ADMINISTRATIVE ACADEMIC ASSIGNMENTS

4.1 Instructionally Related Workload Credits: Various activities directly related to instruction may receive academic workload credit. The following adjustments to faculty academic workload may be allowed, as further defined by school procedures.

4.2 Large Lecture Classes: Large lecture classes, especially those with writing assignments, essay tests, or similar complex tasks, or that involve supervision and coordination of teaching assistants, graders, or of multiple laboratories or discussion sections may receive up to 4 workload credits to compensate for the additional workload involved in teaching these courses. As an alternative, a graduate teaching assistant may be assigned to assist with grading and other class-related work.

4.3 Curriculum and Course Development: Faculty involved in developing new degree programs, conducting major curriculum revisions, developing online courses, or developing new courses may receive up to 3 workload credits depending on the complexity and amount of work involved.

4.4 Student Advising: Faculty members with major responsibilities for coordinating academic advising programs may receive up to 3 workload credits depending on the complexity and amount of work involved.

## 5. SCHOLARSHIP WORKLOAD CREDITS

5.1 Externally Funded Grants: A faculty member may receive up to 12 workload credits per term when funding is provided by external research grants or contracts.

5.2 New Faculty: Faculty new to Texas A&M University-San Antonio may receive up to 3 semester hours of workload credit during their first semester of employment for the purpose of establishing their research agendas and developing courses.

## 6. SERVICE WORKLOAD CREDITS

Professional Service Activities: The amount of workload credit granted by the school head

for service depends on the complexity and workload of the service activity. Faculty members may receive up to 6 academic workload credits for service activities such as: writing a major training or professional development grant, chairing a major university or school committee, chairing an accreditation self-study task force, editing a major academic journal, serving in a leadership role in a national or regional professional organization, or carrying an unusually heavy service assignment.

## 7. WORKLOAD CREDIT FOR SPECIAL CIRCUMSTANCES

7.1 The President may grant up to 12 academic workload credits per semester for special assignments.

7.2 With the consent of the Provost and Vice President for Academic Affairs, a school head may grant workload credit for reasons not described in the university's workload rule.

## 8. UNDERLOADS AND OVERLOADS

Because of fractional workload assignments that may not add exactly up to 12 workload credits per semester, workload credit totals between 11.00 and 13.00 are rounded to 12 and considered to be full-time. A faculty member is considered to be in an overload situation in a fall or spring semester when total academic workload credits is greater than 13. At the option of the faculty member at the time the overload assignment is agreed upon, monetary compensation at adjunct rates can either be provided during that semester, or compensating workload reduction can be agreed to in a subsequent term in the same fiscal year (September 1- August 31).

## 9. WORKLOAD ASSIGNMENT

9.1 Faculty workload will be assigned by the Department Chair with oversight by the School Head.

9.2 While maintaining school-level flexibility within University rules, the school procedures must include:

9.2.1 mechanisms for faculty within disciplinary areas along with the program coordinator and/or department chair to develop a plan for academic workload assignments for each faculty member in that discipline,

9.2.2 mechanisms for faculty to apply for non-instructional workload credit using the appropriate University forms,

9.2.3 mechanisms for documenting the results of the activities for which workload

credit was granted, and

9.2.4 mechanisms for department chairs and school heads to review and request adjustments to workload plans and assignments proposed by faculty in disciplinary areas.

9.3 Procedures for including requests for workload credit for activities other than direct instruction and consequent workload assignments and plans in faculty personnel files and for taking account of these matters in tenure, promotion, and other personnel decisions.

9.4 To help assess academic workload, each school must complete a Faculty Workload Report as prescribed by the Texas Higher Education Coordinating Board. Each semester the school head completes and returns the report to the Provost and Vice President for Academic Affairs. The report describes in specific terms the means by which each FTE faculty member meets the twelve academic credit workload.

10. REQUESTS FOR REVIEW OF ACADEMIC WORKLOAD ASSIGNMENTS

Any faculty member may request a review of his/her workload by the School Head and Provost.

# UR 12.03.99.H1 Faculty Academic Workload and Reporting Requirements

Approved: March 2001
Revised: January 2009
Revised: December 2010
Revised: August 2013
Revised: June 2016
Next Scheduled Review: June 2021

## Rule Statement

This rule establishes the faculty workload standards and procedures as well as the conditions under which the workload of faculty may be adjusted.

## Reason for Rule

The purpose of this rule is to provide details, including operational and reporting responsibilities, regarding the faculty workload expectations at Texas A&M University-Texarkana. This rule is developed in compliance with System Policy 12.03, *Faculty Academic Workload and Reporting Requirements*.

## Procedures and Responsibilities

### 1. MINIMUM TEACHING LOAD

1.1 A minimum teaching load for undergraduate courses shall be nine semester credit hours of normal classroom teaching; a minimum teaching load for graduate courses shall be six semester credit hours of normal classroom teaching as provided in System Policy 12.03, *Faculty Academic Workload and Reporting Requirements*.

### 2. EVALUATION OF TEACHING LOAD

2.1 The College Dean shall monitor and evaluate the workload of individual faculty members in his or her college to ensure compliance with this rule and approve and submit any teaching course load reduction requests to the Provost and Vice President for Academic Affairs (Provost/VPAA), designated by the President to authorize final approval. The President, Provost/VPAA, and College Dean shall ensure that academic and related duties are assigned equitably within the college.

2.2 The Department Chair shall monitor the workloads of faculty within his or her department or program to ensure compliance with the University's workload requirement and provides notice to the respective College Dean of all faculty members not in compliance with the University's workload requirement.

## 3. MAXIMUM TEACHING LOAD

3.1 The maximum full-time fall and spring semester teaching load for all university tenured or tenure track faculty teaching any combination of undergraduate and graduate courses is 12 semester credit hours (12 SCH) of organized classes for each semester. The exception to this maximum is the inclusion of no more than two 4 SCH mathematics course(s) in a faculty's semester load that would result in a 13 or 14 SCH load. The maximum full-time fall and spring semester teaching load for all university tenured or tenure track faculty teaching only doctoral courses is 9 SCH for each semester. Faculty teaching in a doctoral program may not elect to teach an overload during any semester with the exception of research supervision (dissertation committee work). The maximum full-time fall and spring semester teaching load for all full-time non-tenure-track faculty is 15 SCH of classroom teaching per semester. The load for combined summer terms for all full-time faculty is no more than 6 SCH. Section 5 of this rule describes the only exception to these maximum teaching loads.

## 4. TEACHING LOAD REDUCTIONS

4.1 The respective College Dean, with approval from the Provost/VPAA, may reduce a faculty member's teaching load by replacing one or more course assignments with any of the following:

4.1.1 *Newly Employed Tenure Track Faculty* - The College Dean may approve a course load reduction for a tenure track faculty member (with little or no prior full-time teaching experience) for up to two long semesters after employment.

4.1.1.1 A teaching course load reduction for newly employed tenure track faculty may be used to fall below the maximum teaching loads as described in this rule, but not below the minimum teaching load as described in System Policy 12.03, *Faculty Academic Workload and Reporting Requirements*.

4.1.2 *Administrative Assignments* - Administrative assignments that directly supplement the teaching function such as, but not limited to, heads of teaching departments and coordinators or directors of academic programs may be considered for course load reduction(s) or another type of compensation.

4.1.2.1 A teaching course load reduction for administrative assignments may be used to fall below the maximum teaching loads as described in this rule, but not below the minimum teaching load as described in System Policy 12.03, *Faculty Academic Workload and Reporting Requirements*, with the exception of a faculty member serving as departmental chair.

4.1.2.2 Faculty teaching load may be reduced below the minimum teaching load for a faculty member serving as departmental chair as outlined in

System Policy 12.03, *Faculty Academic Workload and Reporting Requirements*.

4.1.3 *Direct Instructional Activities* - Activities which include interaction with students related to instruction, preparation for such instruction or evaluation of student performance may count for part of a regular teaching load. These may include, but are not limited to, supervision or coordination of laboratories or lectures utilizing teaching assistants, practica, internships, clinical assignments, or alternative learning activities.

4.1.3.1 Faculty teaching load may be reduced below the minimum teaching load for a faculty member providing direct instructional activities as outlined in System Policy 12.03, *Faculty Academic Workload and Reporting Requirements*.

4.1.4 *Independent Study Courses* - Upon prior approval by the College Dean, independent study courses (identified as 489 and 589) may be translated into equivalent course semester credit hours (for the purpose of measuring teaching loads). The College Dean shall collect and maintain all data necessary to document such credit.

4.1.4.1 For 30 SCH of graduate credit accumulated by a faculty member in independent study courses, a credit of 3 SCH of course load reduction may be awarded.

4.1.4.2 For 45 SCH of undergraduate credit accumulated by a faculty member in independent study courses, a credit of 3 SCH of course load reduction may be awarded.

4.1.4.3 When combining undergraduate and graduate courses to equal a course reduction, graduate SCH may be converted to undergraduate SCH by using a multiplier of 1.5.

4.1.4.4 All contact hour equivalent credit accrued via independent study courses may be applied during the semester in which the total credit for independent study reaches the minimum amounts indicated in 4.1.4.1 and 4.1.4.2 above, or within the next two academic years.

4.1.4.5 With approval from the College Dean, a faculty member may choose to convert accrued independent study SCH into financial compensation at the rate of $500 per graduate independent study course and $333 per undergraduate independent study course.

4.1.4.6 Faculty teaching load may be reduced below the minimum teaching load for independent study courses as outlined in System Policy 12.03, *Faculty Academic Workload and Reporting Requirements*.

4.1.5 *Research and Creative Activities* - Faculty teaching and load credit may be granted for major scholarship activities, including conducting research that leads to publication and the development of creative works.

4.1.5.1 Faculty teaching in a doctoral program are expected to develop and maintain a rigorous research agenda approved by the College Dean.

4.1.5.2 A teaching course load reduction for research and creative activities may be used to fall below the maximum teaching loads as described in this rule, but not below the minimum teaching load as described in System Policy 12.03, *Faculty Academic Workload and Reporting Requirements.*

4.1.6 *Graduate Research Supervision* - The following table shall be used to assign teaching load credit to tenured/tenure track faculty providing graduate research supervision:

**Semester Credit Hour Equivalency for Graduate Research Supervision**

| Assignment | Number of Students Supervised | | | | | |
|---|---|---|---|---|---|---|
| | 1 | 2 | 3 | 4 | 5 | 6 |
| Member, Master's Thesis Committee | .25 | .5 | .75 | 1 | 1 | 1 |
| Chair, Master's Thesis Committee | .75 | 1.5 | 2.25 | 3 | 3.75 | 4.5 |
| Member, Doctoral Dissertation Committee | .75 | 1.5 | 2.25 | 3 | 3.75 | 4.5 |
| Chair, Doctoral Dissertation Committee | 1.5 | 3 | 4.5 | 6 | 7.5 | 9 |

Teaching credit accrued via this process may be applied during the semester in which sufficient credit is earned to substitute for one or more courses or in the immediate next long (spring or fall) semester, as approved by the College Dean.

4.1.6.1 Faculty teaching load may be reduced below the minimum teaching load for graduate research supervision as outlined in System Policy 12.03, *Faculty Academic Workload and Reporting Requirements*.

4.1.7 *Other Projects* - Other projects that occur during an academic year may be considered as part of the faculty workload as requested by the College Dean and approved by the Provost/VPAA. These include, but are not limited to, major academic advisory activities, preparation of major documents (e.g., program and/or research grant proposals) in the fulfillment of programmatic needs or accreditation requirements, and for performance of duties in the best interest of the institution's instructional program.

4.1.7.1 A teaching course load reduction for other projects may be used to fall below the maximum teaching loads as described in this rule, but not fall below the minimum teaching load as described in System Policy 12.03, *Faculty Academic Workload and Reporting Requirements.*

4.1.8 All requests for teaching workload reductions shall be initiated by the faculty on form "Faculty Teaching Workload Reassigned Time Request Form" and submitted to the respective College Dean on a timeline that allows the completed request (with College Dean approval) to be submitted to the Provost/VPAA for

final approval no later than the published deadline for each semester. All requests, including those related to the cancellation of classes during the spring or fall terms, submitted after these deadlines will be considered on an individual basis via discussion between the College Dean and Provost/VPAA. Teaching course load reductions related to the cancellation of summer classes will not be considered.

## 5. TEACHING ASSIGNMENT OVERLOADS

5.1 Teaching overloads are discouraged and should be approved only in emergency situations and with written approval by the Provost. Tenure-track faculty who are assigned by the College Dean to teach more than the maximum load during any semester may do so as an overload and will be provided additional compensation in the amount of $1,666 for each SCH or $5,000 for a 3 SCH course. Non-tenure track faculty shall be paid the amount for which they are paid for a summer course, as noted in their annual reappointment letter. With approval of the College Dean, overloads taught during a mini-term (May or January) may be "banked" and credited toward a faculty's teaching assignment during the immediate next long (spring or fall) semester.

5.2 Faculty members receiving a course load reduction for any reason (e.g., administrative duties, research) will not be considered for overload assignments.

## 6. FACULTY OFFICE HOURS

6.1 Faculty members shall maintain a minimum of four hours of office time per week to confer with and counsel students. Office hours shall be chosen for convenience of students and must be posted. Faculty are expected to be available for student conferences at other times by appointment.

## 7. INSTITUTIONAL WORKLOAD RULE DEVELOPMENT AND REVISION

7.1 The President delegates the responsibility of recommending revisions to this rule to the Provost/VPAA who may assign to or seek the assistance of additional personnel (including faculty) and advisory bodies, as well as advice from legal counsel, as needed. Any revisions of University Rule 12.03.99.H1, *Faculty Academic Workload and Reporting Requirements* shall be approved by the President prior to submission to the System office for final approval by the Chancellor and Board of Regents.

## 8. REPORTS REQUIRED

8.1 The Registrar shall collect, analyze, compile, and consolidate data necessary to generate the Faculty Report (CBM-008) required by the Texas Higher Education Coordinating Board (THECB) and the Faculty Workload Report as referenced in System Policy 12.03, *Faculty Academic Workload and Reporting Requirements*. The Registrar shall submit all related reports to the Provost/VPAA for review prior to submission to the President for approval and then to the Chancellor and THECB. The standard reporting format and deadlines as provided by the THECB will be followed.

8.2 (See System Policy 12.03, *Faculty Academic Workload and Reporting Requirements*).

## *B. Teaching*

## 1. Teaching Assignments

### a. Small Classes

The Texas Higher Education Coordinating Board defines small classes as organized undergraduate classes having fewer than 10 regularly enrolled students and organized graduate classes having fewer than 5 regularly enrolled students. Small classes are subject to cancellation, which may necessitate a reassignment for faculty members involved.

## 2. Teaching Loads

Faculty members are assigned teaching loads by their respective direct supervisors. A full-time teaching load is 9, 12, or 15 hours depending on the faculty assignment, college, and department. In addition to teaching, scholarly activity/creative work, and professional service (where appropriate), other duties considered as faculty assignments include, but are not limited to, student advisement and various committee assignments. The purpose of this section is to provide guidelines for the assignment of workload for full-time non-tenure track, tenure-track, and tenured faculty.

I. The faculty and administration of West Texas A&M University adhere to the following guidelines to ensure the delivery of the highest quality instructional program possible to students and to promote scholarship and professional service.

II. The deans of the colleges/schools, in collaboration with departmental direct supervisors, are responsible for implementing procedures to ensure adherence to the University workload policy for faculty members. The deans are responsible to the provost, who has overall responsibility for WTAMU's workload policy including academic assignments. Within their areas of responsibility, the deans certify that faculty have been assigned professional duties appropriate to the individual faculty member and which ensure effective management of the academic component.

III. Faculty Teaching Load

All departments should plan to offer classes as large as is suitable for the content area and mode of instruction. Direct supervisors have the responsibility to section courses-including online courses-to ensure manageable class size and to maintain quality instruction.

A. Tenured and Tenure-Track Faculty

The normal teaching load for a full-time tenure-track faculty member is nine (9) or twelve (12) semester credit hours per long semester depending on the department and college. In addition to the normal teaching load, faculty members are responsible for student advising and mentoring; department, college/school, and university curriculum development; and maintaining active involvement in research, scholarly, or creative activity. Faculty members are also responsible for service activities, such as academic program reviews; accreditation studies; shared governance; and faculty service to their profession and to the local community.

B. Non-Tenure Track Faculty

The normal teaching load for a full-time, non-tenure track faculty member (fixed term or temporary full time) is fifteen (15) semester credit hours per long semester, but direct supervisors and deans may make exceptions for good and sufficient reasons. Visiting faculty members should have the same classroom teaching load as tenured and tenure track faculty. Other responsibilities for non-tenure track faculty will be assigned by the dean and direct supervisor as appropriate.

IV. Special Circumstances

A. To facilitate unique instructional experiences that utilize multiple faculty members, departments may, while avoiding additional expense to the University, approve team teaching or shared instruction assignments. For team teaching, full load credit may be given to each of the instructors in those cases where all instructors are present during all class periods/online modules and are actively participating in instruction, In those cases where responsibility for instruction is divided among a number of faculty

members (shared instruction), each instructor shall receive credit for that portion of the load for which the faculty member is responsible.

B. Special requests beyond those outlined may be recommended by the appropriate dean and must be approved by the provost/vice president for academic affairs before being granted (e.g., serving as direct supervisor, coordination of programs, etc.).
C. Faculty members may be credited only for laboratory, practice, or studio sections they personally teach.
D. A faculty member may teach only one specially scheduled course at one time during a semester or term. (Specially scheduled classes are organized classes that have a specific schedule different in at least one respect from regularly scheduled classes.) During any semester or term a faculty member may teach up to an effective teaching load of 24 ACH for as long as three weeks, so long as during the rest of the semester or term the faculty member does not teach an overload. Exceptions must be administratively approved.
E. To facilitate unique instructional experiences that utilize multiple faculty members, departments may, while avoiding additional expense to the University, approve team teaching or shared instruction assignments. For team teaching, full-load credit may be given each of the instructors in those cases where all instructors are present during all class periods and are actively participating in instruction. In those cases where responsibility for instruction is divided among a number of faculty members (shared instruction), each instructor shall receive credit for that portion of the load for which the faculty member is responsible.
F. Opportunities for summer teaching may exist at the discretion of the direct supervisor.
G. Special requests beyond those outlined may be recommended by the appropriate dean and must be approved by the provost/vice president for academic affairs before being granted (e.g., serving as direct supervisor, coordinating multi-section lecture courses, coordination of programs, supervision and training of teaching assistants, etc.).

## 3. Classroom Conduct

### Admission to Class

Students may attend only the classes and sections for which they are enrolled. Prior to the beginning of classes, class rosters for each course are uploaded to WTClass. Each faculty member has the responsibility to examine each set of class rolls carefully and immediately report any errors to the registrar. Failure to do so may result in a student not receiving credit for a particular course. All changes in student schedules must be made through the Office of the Registrar.

At the close of the registration period, the roster in WTClass will indicate the final enrollment in the course. Only students listed on these rolls are officially members of the class. Students not listed on these rolls or not officially auditing the class are not permitted to remain in the class. A student who drops a class or withdraws from school before the twelfth class day of a long semester or the fourth class day of a summer term is removed from final class rolls. When the registration period is over, no student can be added to any class. After the twelfth class day, a student may drop a class or withdraw from school but will remain on the class roll.

### Course Syllabi

State law requires that all faculty must post online a syllabus for each of their courses. At WTAMU, the syllabus is posted in WTClass.

Faculty members are responsible for explaining clearly the requirements, regulations and goals of their courses to each class, including discussion of the course syllabus. A course syllabus that clearly specifies the goals and requirements of each course, student learning objectives, the nature of the course content and the methods of evaluation to be employed must be posted to WTClass regardless of delivery mode and be made available to students. The template for WTClass includes scholastic dishonesty statement, evacuation statement, and chemical and equipment safety statement. The syllabus for general education (core curriculum) courses must clearly identify the exemplary educational objectives for the component area. A course syllabus may include a course description, goals, texts and reading list,

# UNIVERSITY RULE

## 12.03.99.M1 Faculty Teaching Workload Reporting

Approved July 31, 2006
Supplements System Policy 12.03

### 1. GENERAL

Faculty workload reporting is required for any individual assigned to teach a course for resident credit, or any individual whose salary is paid in full or part from Faculty Salaries.

### 2. DEFINITION OF TERMS

2.1 FACULTY SALARIES

Faculty Salaries are defined as salaries or wages of those engaged in the teaching function. Those paid from faculty salaries include heads of teaching departments and faculty.

2.2 WORKLOAD DEFINITION

Individuals paid from faculty salaries receive faculty workload credit from two areas: Classroom Teaching Credit and Equivalent Teaching Credits.

2.2.1 Classroom Teaching Credit: Classroom Teaching Credits are generally assigned to resident-credit courses. To ensure accuracy in workload reporting, each course should be assigned to the person primarily responsible for course instruction. For team taught courses, the teaching credit may be proportioned to the faculty members teaching the course.

2.2.2 Equivalent Teaching Credits: Certain non-classroom academic duties performed by faculty that enhance the teaching/learning process may be funded from Faculty Salaries. Equivalent teaching credits may be assigned for these duties. Once the faculty member is in compliance, no further assignment or equivalent credits is required. The listing of allowable equivalent teaching credits for direct instructional or administrative activities is included in the "Faculty Workload Policy Statement – Texas A&M University" which is available at:
http://www.tamu.edu/opir/workload_policy.pdf.

## 3. MINIMUM WORKLOAD REQUIREMENT

3.1 The minimum workload requirement for faculty members paid 100% from Faculty Salaries is nine (9) teaching credits, counting classroom and equivalent teaching credits.

3.2 For Graduate Assistant appointments that are reported in the faculty workload report the minimum workload standard is set by the academic unit reporting the workload.

3.3 For faculty members with less than full-time appointments, the minimum workload standard is proportionately less.

## 4. REPORTING

Every semester each academic department must prepare a Faculty Workload Compliance Report. The report must include each individual who:

4.1 is primarily responsible for course instruction for resident credit; or

4.2 is paid any part of his or her salary from FACULTY SALARIES (see definition above).

## 5. SPECIAL CONDITIONS REGARDING COMPLIANCE

5.1 **Payment of FACULTY SALARIES to exhaust accumulated leave time:** Faculty members fall into this category if they terminate employment, become ill, or die during any part of the year and the payment of salary to exhaust accumulated leave carries them into a fall or spring semester. These faculty members cannot be assigned teaching responsibilities and therefore cannot be in compliance with the minimum workload requirement. The department head must provide a written explanation to the dean of the college for each faculty member not in compliance.

5.2 **Faculty who are unable to complete teaching assignment during a long semester:** Faculty members fall into this category if they terminate employment, become ill, or die during a long semester and their courses are reassigned to other faculty members in the department. The compliance status of the faculty member will be the same as their compliance status before the disabling condition or termination took place.

5.3 **Other reason for non-compliance:** Occasionally faculty members may be non-compliant for reasons not covered in 5.1 or 5.2 above. For example, a faculty member may have been placed on administrative leave

or there may have been another circumstance that prevents a faculty member from teaching courses in a given semester.

5.4 **Faculty members not in compliance:** The reason for any faculty member not being in compliance with the minimum teaching requirement must be explained. For regular faculty (those not covered by 5.1 or 5.2 above) who are not in compliance, the department head must initiate an appropriate Employee Payroll Action Form to adjust the individual's teaching salary percentage.

## 6. RESPONSIBILITY FOR MONITORING WORKLOAD

6.1 Department Head

6.1.1 Assigns and monitors the workloads of individuals within his or her department to ensure compliance with the workload requirement

6.1.2 Approves equivalent teaching credits based on direct instruction or administrative activities as listed in the "Faculty Workload Policy Statement – Texas A&M University" (http://www.tamu.edu/opir/workload_policy.pdf.)

6.1.3 Ensures that other academic duties are assigned equitably within the department.

6.1.4 Provides notice to the college dean of all faculty members not in compliance.

6.2 College Dean

The college dean is responsible for monitoring the workload of individual faculty in his or her college as reported by the department head.

6.3 University Administration

The Office of Institutional Studies and Planning (OISP) will consolidate the reports from the colleges to generate the final Faculty Workload Compliance Report and shall prepare a list of faculty not in compliance with the minimum workload requirement. This report shall be sent to the Executive Vice President and Provost for review and approval prior to submission to the President.

The President is responsible for verifying institutional compliance with the minimum workload requirement and for reporting this information through the Chancellor, to the Board of Regents.

## 7. INSTRUCTIONS FOR COMPLETING FACULTY WORKLOAD COMPLIANCE REPORT

Each department head and dean will be notified by the OISP when the Faculty Workload Report has been placed on the web for updating and correcting.

**OFFICE OF RESPONSIBILITY:** Dean of Faculties
