## 12.03.99.M1 Faculty Teaching Workload Reporting

Approved July 31, 2006

Supplements [System Policy 12.03](#)

### 1. GENERAL

Faculty workload reporting is required for any individual assigned to teach a course for resident credit, or any individual whose salary is paid in full or part from Faculty Salaries.

### 2. DEFINITION OF TERMS

#### 2.1 FACULTY SALARIES

Faculty Salaries are defined as salaries or wages of those engaged in the teaching function. Those paid from faculty salaries include heads of teaching departments and faculty.

#### 2.2 WORKLOAD DEFINITION

Individuals paid from faculty salaries receive faculty workload credit from two areas: Classroom Teaching Credit and Equivalent Teaching Credits.

2.2.1 Classroom Teaching Credit: Classroom Teaching Credits are generally assigned to resident-credit courses. To ensure accuracy in workload reporting, each course should be assigned to the person primarily responsible for course instruction. For team taught courses, the teaching credit may be proportioned to the faculty members teaching the course.

2.2.2 Equivalent Teaching Credits: Certain non-classroom academic duties performed by faculty that enhance the teaching/learning process may be funded from Faculty Salaries. Equivalent teaching credits may be assigned for these duties. Once the faculty member is in compliance, no further assignment or equivalent credits is required. The listing of allowable equivalent teaching credits for direct instructional or administrative activities is included in the "Faculty Workload Policy Statement – Texas A&M University" which is available at:

[http://www.tamu.edu/opir/workload\\_policy.pdf](http://www.tamu.edu/opir/workload_policy.pdf).

### 3. MINIMUM WORKLOAD REQUIREMENT

- 3.1 The minimum workload requirement for faculty members paid 100% from Faculty Salaries is nine (9) teaching credits, counting classroom and equivalent teaching credits.
- 3.2 For Graduate Assistant appointments that are reported in the faculty workload report the minimum workload standard is set by the academic unit reporting the workload.
- 3.3 For faculty members with less than full-time appointments, the minimum workload standard is proportionately less.

### 4. REPORTING

Every semester each academic department must prepare a Faculty Workload Compliance Report. The report must include each individual who:

- 4.1 is primarily responsible for course instruction for resident credit; or
- 4.2 is paid any part of his or her salary from FACULTY SALARIES (see definition above).

### 5. SPECIAL CONDITIONS REGARDING COMPLIANCE

- 5.1 **Payment of FACULTY SALARIES to exhaust accumulated leave time:** Faculty members fall into this category if they terminate employment, become ill, or die during any part of the year and the payment of salary to exhaust accumulated leave carries them into a fall or spring semester. These faculty members cannot be assigned teaching responsibilities and therefore cannot be in compliance with the minimum workload requirement. The department head must provide a written explanation to the dean of the college for each faculty member not in compliance.
- 5.2 **Faculty who are unable to complete teaching assignment during a long semester:** Faculty members fall into this category if they terminate employment, become ill, or die during a long semester and their courses are reassigned to other faculty members in the department. The compliance status of the faculty member will be the same as their compliance status before the disabling condition or termination took place.
- 5.3 **Other reason for non-compliance:** Occasionally faculty members may be non-compliant for reasons not covered in 5.1 or 5.2 above. For example, a faculty member may have been placed on administrative leave

or there may have been another circumstance that prevents a faculty member from teaching courses in a given semester.

- 5.4 **Faculty members not in compliance:** The reason for any faculty member not being in compliance with the minimum teaching requirement must be explained. For regular faculty (those not covered by 5.1 or 5.2 above) who are not in compliance, the department head must initiate an appropriate Employee Payroll Action Form to adjust the individual's teaching salary percentage.

## 6. RESPONSIBILITY FOR MONITORING WORKLOAD

### 6.1 Department Head

- 6.1.1 Assigns and monitors the workloads of individuals within his or her department to ensure compliance with the workload requirement
- 6.1.2 Approves equivalent teaching credits based on direct instruction or administrative activities as listed in the “Faculty Workload Policy Statement – Texas A&M University”  
([http://www.tamu.edu/opir/workload\\_policy.pdf](http://www.tamu.edu/opir/workload_policy.pdf).)
- 6.1.3 Ensures that other academic duties are assigned equitably within the department.
- 6.1.4 Provides notice to the college dean of all faculty members not in compliance.

### 6.2 College Dean

The college dean is responsible for monitoring the workload of individual faculty in his or her college as reported by the department head.

### 6.3 University Administration

The Office of Institutional Studies and Planning (OISP) will consolidate the reports from the colleges to generate the final Faculty Workload Compliance Report and shall prepare a list of faculty not in compliance with the minimum workload requirement. This report shall be sent to the Executive Vice President and Provost for review and approval prior to submission to the President.

The President is responsible for verifying institutional compliance with the minimum workload requirement and for reporting this information through the Chancellor, to the Board of Regents.

## **7. INSTRUCTIONS FOR COMPLETING FACULTY WORKLOAD COMPLIANCE REPORT**

Each department head and dean will be notified by the OISP when the Faculty Workload Report has been placed on the web for updating and correcting.

**OFFICE OF RESPONSIBILITY:** [Dean of Faculties](#)

**TEXAS A&M**

## 12.03.99.M1 Faculty Teaching Workload Reporting

Approved July 31, 2006

Supplements [System Policy 12.03](#)

### 1. GENERAL

Faculty workload reporting is required for any individual assigned to teach a course for resident credit, or any individual whose salary is paid in full or part from Faculty Salaries.

### 2. DEFINITION OF TERMS

#### 2.1 FACULTY SALARIES

Faculty Salaries are defined as salaries or wages of those engaged in the teaching function. Those paid from faculty salaries include heads of teaching departments and faculty.

#### 2.2 WORKLOAD DEFINITION

Individuals paid from faculty salaries receive faculty workload credit from two areas: Classroom Teaching Credit and Equivalent Teaching Credits.

2.2.1 Classroom Teaching Credit: Classroom Teaching Credits are generally assigned to resident-credit courses. To ensure accuracy in workload reporting, each course should be assigned to the person primarily responsible for course instruction. For team taught courses, the teaching credit may be proportioned to the faculty members teaching the course.

2.2.2 Equivalent Teaching Credits: Certain non-classroom academic duties performed by faculty that enhance the teaching/learning process may be funded from Faculty Salaries. Equivalent teaching credits may be assigned for these duties. Once the faculty member is in compliance, no further assignment or equivalent credits is required. The listing of allowable equivalent teaching credits for direct instructional or administrative activities is included in the "Faculty Workload Policy Statement – Texas A&M University" which is available at:

[http://www.tamu.edu/opir/workload\\_policy.pdf](http://www.tamu.edu/opir/workload_policy.pdf).

### 3. MINIMUM WORKLOAD REQUIREMENT

- 3.1 The minimum workload requirement for faculty members paid 100% from Faculty Salaries is nine (9) teaching credits, counting classroom and equivalent teaching credits.
- 3.2 For Graduate Assistant appointments that are reported in the faculty workload report the minimum workload standard is set by the academic unit reporting the workload.
- 3.3 For faculty members with less than full-time appointments, the minimum workload standard is proportionately less.

### 4. REPORTING

Every semester each academic department must prepare a Faculty Workload Compliance Report. The report must include each individual who:

- 4.1 is primarily responsible for course instruction for resident credit; or
- 4.2 is paid any part of his or her salary from FACULTY SALARIES (see definition above).

### 5. SPECIAL CONDITIONS REGARDING COMPLIANCE

- 5.1 **Payment of FACULTY SALARIES to exhaust accumulated leave time:** Faculty members fall into this category if they terminate employment, become ill, or die during any part of the year and the payment of salary to exhaust accumulated leave carries them into a fall or spring semester. These faculty members cannot be assigned teaching responsibilities and therefore cannot be in compliance with the minimum workload requirement. The department head must provide a written explanation to the dean of the college for each faculty member not in compliance.
- 5.2 **Faculty who are unable to complete teaching assignment during a long semester:** Faculty members fall into this category if they terminate employment, become ill, or die during a long semester and their courses are reassigned to other faculty members in the department. The compliance status of the faculty member will be the same as their compliance status before the disabling condition or termination took place.
- 5.3 **Other reason for non-compliance:** Occasionally faculty members may be non-compliant for reasons not covered in 5.1 or 5.2 above. For example, a faculty member may have been placed on administrative leave

or there may have been another circumstance that prevents a faculty member from teaching courses in a given semester.

- 5.4 **Faculty members not in compliance:** The reason for any faculty member not being in compliance with the minimum teaching requirement must be explained. For regular faculty (those not covered by 5.1 or 5.2 above) who are not in compliance, the department head must initiate an appropriate Employee Payroll Action Form to adjust the individual's teaching salary percentage.

## 6. RESPONSIBILITY FOR MONITORING WORKLOAD

### 6.1 Department Head

- 6.1.1 Assigns and monitors the workloads of individuals within his or her department to ensure compliance with the workload requirement
- 6.1.2 Approves equivalent teaching credits based on direct instruction or administrative activities as listed in the “Faculty Workload Policy Statement – Texas A&M University”  
([http://www.tamu.edu/opir/workload\\_policy.pdf](http://www.tamu.edu/opir/workload_policy.pdf).)
- 6.1.3 Ensures that other academic duties are assigned equitably within the department.
- 6.1.4 Provides notice to the college dean of all faculty members not in compliance.

### 6.2 College Dean

The college dean is responsible for monitoring the workload of individual faculty in his or her college as reported by the department head.

### 6.3 University Administration

The Office of Institutional Studies and Planning (OISP) will consolidate the reports from the colleges to generate the final Faculty Workload Compliance Report and shall prepare a list of faculty not in compliance with the minimum workload requirement. This report shall be sent to the Executive Vice President and Provost for review and approval prior to submission to the President.

The President is responsible for verifying institutional compliance with the minimum workload requirement and for reporting this information through the Chancellor, to the Board of Regents.

## **7. INSTRUCTIONS FOR COMPLETING FACULTY WORKLOAD COMPLIANCE REPORT**

Each department head and dean will be notified by the OISP when the Faculty Workload Report has been placed on the web for updating and correcting.

**OFFICE OF RESPONSIBILITY:** [Dean of Faculties](#)

---

## Rule Statement

---

This rule is established to provide specific guidelines regarding the minimum academic workload for faculty.

---

## Reason for Rule

---

This rule establishes standards for the interpretation of institutional workload requirements and outlines the range of acceptable assignments to ensure compliance with System Policy 12.03, *Faculty Academic Workload and Reporting Requirements*.

---

## Procedures and Responsibilities

---

### 1. GENERAL

- 1.1 To support the mission of Texas A&M University-Central Texas, members of the faculty perform their classroom duties and carry out a variety of essential functions. Examples of regular faculty responsibilities include the following functions: academic advising; supervision of undergraduate and graduate students; direction of individual studies, theses, and dissertations; leadership in curriculum development; participation in school and university governance; scholarship; and participation in professional activities, and special projects of the university.
- 1.2 Acknowledging the diverse responsibilities of its faculty, the university supports an equitable and reasonable workload assignment system. The university follows the university procedure 12.03.99.D1.01 *Faculty Workload* which specifies the amount of workload credit that may be granted for various faculty assignments. Tenured, tenure-track, and professional track faculty are treated the same with respect to the determination of faculty workload credit.
- 1.3 The academic workload standard for full-time tenured and tenure-track faculty members is 12 workload credits per semester. (Part-time faculty workload credits are proportional to the full-time equivalent appointment.) These workload credits are assigned for direct instruction and for a variety of instructionally-related, administrative, scholarly, and service activities. The instructional

component is consistent with System Policy 12.03 *Faculty Academic Workload and Reporting Requirements*.

- 1.4 Consistent with System Policy 12.07 *Fixed Term Academic Professional Track Faculty*, certain individuals whose excellence in teaching, research, or service make them beneficial members of the university may be hired as professional track faculty as a means of providing them with stable, long-term employment. The academic workload standard for professional track faculty is 12 workload credits per semester in addition to other duties as assigned equivalent to 3 workload credits per long semester. These additional duties may require the teaching of an additional course during a long semester, or the needs of a faculty member's department may determine that other non-instructional duties are required.
- 1.5 Examples of other non-instructional duties include: academic advising; participation in school and university governance; scholarship; participation in professional activities; and special projects of the university. If a professional track faculty member teaches five courses equivalent to three workload credits each in a long semester they may be released from all other administrative, scholarly, and service activities, and other duties as assigned.
- 1.6 Assignments of non-instructional workload credit are made by the Dean on the basis of recommendations made by the appropriate Department Chair in consultation with the departmental faculty. Non-instructional workload assignments greater than 6 workload credits require the approval of the Provost and Vice President for Academic and Student Affairs.

## 2. WORKLOAD CREDIT-GENERATING DIRECT INSTRUCTION

2.1 Direct teaching activities include but are not limited to the following:

- a) instruction of lecture and seminar courses, and independent studies,
- b) laboratory and clinical instruction, music ensemble, and studio art,
- c) supervision of student teachers, and interns,
- d) private music lessons,
- e) chairing master's thesis committees,
- f) chairing doctoral dissertation committees,
- g) teaching a practicum as a group course, and
- h) team teaching.

2.2 Guidelines for assigning workload credits for credit-generating activities are provided in university procedure 12.03.99.D1.01 *Faculty Workload*.

## 3. ADMINISTRATIVE ASSIGNMENTS

- 3.1 Faculty members may receive workload credits for administrative assignments. The amount of workload credit for administrative duties that a faculty member receives is dependent upon the complexity of the department or program, the assigned duties of the position, and the number of faculty members or students supervised. Positions in which a faculty member is given an administrative,

supervisory, or coordinative assignment directly related to the instructional programs and purposes of the university include: chair of a department and coordinator/director of a center, a program, or a clinic. Guidelines for assigning workload credits for administrative assignments are provided in university procedure 12.03.99.D1.01 *Faculty Workload*.

#### 4. NON-ADMINISTRATIVE ACADEMIC ASSIGNMENTS

- 4.1 Academic workload credit may occasionally be given for non-administrative academic assignments, including instructionally-related activities, scholarship, service, and other academically-related assignments. A faculty member may earn workload credits to be used the current semester or "banked" for subsequent semesters within the fiscal year (September 1 -August 31), except for research grant-related workload banking that may be used within two fiscal years.
- 4.2 During the academic year, a faculty member, with the approval of the Department Chair and Dean, may request possible academic workload credits for non-administrative reasons including: (1) instructionally-related activities, (2) scholarship, (3) service, and (4) special circumstances. Guidelines for assigning workload credits for non-administrative academic assignments are provided in university procedure 12.03.99.D1.01 *Faculty Workload*.

#### 5. SCHOLARSHIP

- 5.1 While research, scholarship and/or creative activity is required for all faculty in tenure or tenure-track positions, a limited number of academic workload credits may be assigned for exceptional research, scholarship, or creative activities. Academic workload credit for scholarly and creative activities is recommended through a proposal submission process involving peer-review. Faculty granted academic workload credit for these activities must demonstrate progress in their efforts at the end of each semester of the workload credit. Peer review is necessary for any work to be deemed as scholarship for purposes of academic workload credit.
- 5.2 Academic workload credit may be provided for certain activities related to scholarship, such as preparation of a major research grant or contract proposal. Also, a faculty member may receive academic workload credits when external grants fund his or her salary. Finally, a new faculty member may receive academic workload credit to establish a research agenda and develop courses. Guidelines for assigning workload credits for scholarship are provided in university procedure 12.03.99.D1.01 *Faculty Workload*.

#### 6. SERVICE

- 6.1 A faculty member may receive academic workload credit for extraordinary service at the university, in the academic discipline, and/or to the public. Guidelines for assigning workload credits for service are provided in university procedure 12.03.99.D1.01 *Faculty Workload*.

## 7. SPECIAL CIRCUMSTANCES

- 7.1 The President may grant academic workload credit for special presidential assignments. With the consent of the Provost and Vice President for Academic Affairs, a Dean may grant academic workload credit for reasons not described in this rule.

## 8. MONITORING WORKLOAD

- 8.1 Within the framework of university workload rules, each school, with formal advice from and by majority vote of the faculty, will develop procedures for assigning academic workload credit. The ultimate responsibility for ensuring compliance with workload rules and equity across the school lies with the Dean.
- 8.2 The Provost and Vice President for Academic and Student Affairs has final responsibility for the approval of academic workloads in conformity with university rules and procedures and The Texas A&M University System policies. The ultimate responsibility for ensuring workload equity across the university lies with the Provost.

## 9. REQUESTS FOR REVIEW OF ACADEMIC WORKLOAD ASSIGNMENTS

- 9.1 Texas A&M University-Central Texas recognizes the right of faculty members to request a review of workload assignments before a panel of peers. The Complaint and Appeal Procedures for Faculty Members in University SAP 32.01.01.D0.01 will be used for review of academic workload assignments.

## 10. REQUIRED REPORTS

- 10.1 The Director of Institutional Research and Assessment shall collect, analyze, compile and consolidate data necessary to generate the Faculty Report (CBM-008) required by the Texas Higher Education Coordinating Board (THECB) and the Faculty Workload Report as referenced in System Policy 12.03 *Faculty Academic Workload and Reporting Requirements*. The Director of Institutional Research and Effectiveness shall submit all related reports to the Provost/VPASA for review prior to submission to the President for approval and then to the Chancellor of The Texas A&M University System Board of Regents and THECB. The standard reporting format and deadlines as provided by THECB will be followed.

## 12.03.99.R1 Faculty Workload

Approved August 8, 2013  
Revised Mon DD, YYYY  
Next Scheduled Review: Mon DD, YYYY

---

### Rule Summary

---

This rule provides guidelines regarding the academic workload for faculty members. Assignments will be implemented only as institutional resources are available, with teaching loads receiving the first priority.

This rule establishes standards for full-time faculty academic workload requirements, in accordance with System Policy 12.03, *Faculty Academic Workload and Reporting Requirements*.

---

### Procedures and Responsibilities

---

- 1 Academic workload for all faculty members at Texas A&M University–Commerce is defined as a combination of teaching, the performance of research and engagement with professional development activities and service opportunities.
  - 1.1 All elements of teaching, research and service in combination constitute a faculty member's full-time academic workload.
  - 1.2 Normal expected teaching load for tenured/tenure-track faculty member is four courses per semester.
  - 1.3 For purposes of calculating teaching load, one traditional 3 credit-hour lecture course equals 20% (0.20 FTE) of overall workload.
  - 1.4 If there are no research or service expectations, a full workload is defined as 100% teaching or 5 courses taught per semester.
  - 1.5 Some disciplines do not use traditional lecture course modes. For such instances, the department will develop precise metrics for determining appropriate teaching loads based upon contact-hour instruction.
  - 1.6 A faculty member may receive workload credit for designated administrative assignments. Amount of credit will depend upon the complexity of the assignment.

- 2 Workload assignments are primarily the responsibility of an academic unit and its department or college head.
  - 2.1 Workload assignments must ensure that all necessary classes are covered by appropriately-qualified faculty members; adjustments to individual faculty workloads can occur only after this threshold criteria is met.
  - 2.2 Department course rotations will be used to help ensure coverage of classes, with faculty members expected to assist with the development of department course rotations.
- 3 Faculty members within their programs will develop their own workload plan that establishes program priorities. A department whose members elect not to develop its own plan will adhere to teaching load expectations as denoted by Section 1.
  - 3.1 Department plans will define minimum expectations for teaching, research and service.
  - 3.2 Department plans will establish parameters for adjustments to teaching loads, research productivity and service assignments.
    - 3.2.1 Once the above standards are set, department plans will establish overload criteria by which a faculty member can receive appropriate compensation for overload teaching or service.
- 4 Annual faculty evaluations will be used by departments and colleges as formal accounting for workload assignments.
  - 4.1 An individual faculty member's workload assignment that incorporates teaching, research and service is determined and documented in consultation with his/her Department Head each year, per processes established by University Procedure 12.99.99.R0.13, *Annual Evaluation of Faculty*.
- 5 Department Heads and Academic Deans are accountable for compliance with institutional procedures (THECB Faculty Workload Policy Guidelines, 1999).
  - 5.1 Academic Deans will be responsible for approving department workload policies and will oversee academic workload assignments.
  - 5.2 The Provost and Vice President for Academic Affairs is ultimately responsible for academic workload.
  - 5.3 All faculty workload reports will be submitted to the Provost and Vice President for Academic Affairs, who then submits the reports through administrative channels for approval and comment as appropriate prior to submission of the reports to the Chancellor and the Texas Higher Education Coordinating Board.

- 6 Faculty members possess the right to appeal workload assignments.
- 6.1 A faculty member should first discuss workload assignments with the Department Head.
- 6.2 The faculty member may appeal an unresolved workload issue to a Panel of Peers.
- 6.2.1 The Panel of Peers exists on an ad hoc basis.
- 6.2.2 The Panel of Peers consists of between three and five tenured faculty members from the faculty member's college, preferably from outside the faculty member's department.
- 6.2.3 The Panel of Peers will investigate the faculty member's complaint in a timely manner.
- 6.2.4 The Panel of Peers will make a recommendation to the dean of the faculty member's academic college.
- 6.2.5 The dean of the academic college will render a decision regarding the complaint and this decision will be communicated to the faculty member and department head.
- 6.3 The faculty member may pursue a final appeal with the Provost, in which case all materials collected by the Panel of Peers and by the Academic Dean will be forwarded for review and final dispensation.
-

## 12.03.99.C1 Faculty Workload

Revised: January 10, 2019

Next Scheduled Review: January 10, 2024

[Revision History](#)

---

### Rule Summary

---

Faculty are expected to satisfactorily perform commonly accepted duties which will advance and enhance the teaching/learning process, the quality of academic programs, the impact of academic and professional service, and each member's respective academic discipline.

Acknowledging the diverse responsibilities of its faculty, the university supports an equitable and reasonable workload assignment system. The university follows the guidelines described below and in university procedure *12.03.99.C1.01, Assignment of Faculty Workload Credit*, which specifies the amount of workload credit that may be granted for various faculty assignments.

---

### Rule

---

#### 1. GENERAL

- 1.1. Recognized duties include, but are not limited to, classroom teaching, scholarly study, basic and applied research, creative activities, professional development, student advising/mentoring and counseling, course and curriculum development, continuing education, public service, assistance in the administration of the academic program, participation in college and university governance, special projects of the university, and similar academic activities. These duties are inherent in the life and work of a faculty member.
- 1.2. Full-time tenured/tenure-track faculty are expected to accrue 24 workload credits (usually 12 credits each long term) over the academic year. Full-time non-tenure track faculty are expected to accrue 30 workload credits (usually 15 credits each long term) over the academic year. These workload credits are assigned for instruction and for a variety of instructionally-related, administrative, scholarly, and service activities.

- 1.3. Faculty may be assigned non-instructional workload credit by the dean of each college in consultation with the appropriate department chair.

## 2. CREDIT-GENERATING INSTRUCTION

- 2.1. Teaching activities include but are not limited to the following:

- (a) lecture courses and seminar courses,
- (b) laboratory and clinical instruction,
- (c) music ensemble, private music lessons, and studio art,
- (d) practicum and internships as group courses, team teaching, and student teacher supervision, and
- (e) master's thesis and doctoral dissertation.

- 2.2. Guidelines for assigning workload credits for these activities are provided in university procedure *12.03.99.C1.01, Assignment of Faculty Workload Credit*.

## 3. ADMINISTRATIVE ASSIGNMENTS

Faculty members may receive academic workload credit for administrative assignments. The amount of workload credit for administrative duties that a faculty member receives is dependent upon the complexity of the department or program, the assigned duties of the position, and the number of faculty members or students supervised. Positions in which a faculty member is given an administrative, supervisory, or coordinative assignment directly related to the instructional programs and purposes of the university include but are not limited to: assistant/associate dean, chairperson of a department or director of a school, coordinator of a disciplinary area, graduate program coordinator, and coordinator or director of a center, program, or clinic. For additional information, see university procedure *12.03.99.C1.01, Assignment of Faculty Workload Credit*.

## 4. NON-ADMINISTRATIVE ACADEMIC ASSIGNMENTS

- 4.1. Academic workload credit may also be given for non-administrative academic assignments, including instructionally-related activities, scholarship, service, and other academically-related assignments. A faculty member may earn workload credits to be used the current semester or "banked" for subsequent semesters within the academic year (September 1 - May 31). See the information on overloads in university procedure *12.03.99.C1.01, Assignment of Faculty Workload Credit*.
- 4.2. During the academic year, a faculty member, with the approval of the department chair and college dean, may request possible academic workload credits for non-administrative reasons including: (1) instruction-related activities, (2) scholarship, (3) service, and (4) special circumstances. Below is an explanation of the types of activities included in each of these categories. Specific guidelines on the amount of workload credit allowed for the various activities is provided in university procedure *12.03.99.C1.01, Assignment of Faculty Workload Credit*.

#### 4.2.1. Instruction-related Assignments

Adjustments to workload credits may be allowed for various instructional-related assignments, including teaching assignments that include additional responsibilities. This category includes, but is not restricted to:

- (a) teaching large classes, especially those that involve supervision and coordination of teaching assistants, graders, or of multiple laboratory or discussion sections. This will be further defined at the college level.
- (b) developing new degree programs or conducting major curriculum revisions, and
- (c) teaching field-based courses.

#### 4.2.2. Scholarship

- 4.2.2.1. Academic workload credit may be assigned for research/intellectual contributions/creative activity. Faculty granted academic workload credit for these activities must demonstrate satisfactory progress in their efforts during their annual evaluations by chairs, directors, and/or deans. When appropriate (at the discretion of the college dean), this designation may be considered to incorporate workload credit for service on, or chairing of, individual graduate committees.
- 4.2.2.2. Academic workload credit may be provided for certain activities related to scholarship. Also, a faculty member may receive academic workload credits when external grants fund his or her salary.

#### 4.2.3. Service

A faculty member may receive academic workload credit for extraordinary service at the university, in the academic discipline, and/or to the public. (See Sections 3.3 of university procedure *12.03.99.C1.01, Assignment of Faculty Workload Credit* for more information.)

#### 4.2.4. Special Circumstances

4.2.4.1. The President may grant academic workload credit for special presidential assignments.

4.2.4.2. The Provost may grant academic workload credit for reasons not described in this rule.

4.2.4.3. A college dean may grant academic workload credit for reasons not described in this rule.

### 5. WORKLOAD RESPONSIBILITIES AND PROCEDURES

- 5.1. The responsibility for ensuring compliance with workload rules and equity within the college lies with the college dean. See university procedure *12.03.99.C1.01, Assignment of Faculty Workload Credit* for information on the Faculty Workload Report process.
- 5.2. Within the framework of university workload rules, in consultation with and by majority vote of the college faculty, each college will develop procedures for assigning academic workload credit. See university procedure *12.03.99.C1.01, Assignment of Faculty Workload Credit* for additional information.
- 5.3. College-level procedures relating to assigning academic workload credit will be reviewed and revised by each college within six (6) months (excluding summers) of published updates to this rule and/or the associated procedure: *12.03.99.C1.01, Assignment of Faculty Workload Credit*. The typical review cycle is every five years, but updates to related system policies or regulations and/or other circumstances may result in more frequent reviews.
- 5.4. The Provost has final responsibility for the approval of academic workload in conformity with university rules and procedures and Texas A&M University System policies and regulations. The ultimate responsibility for ensuring workload equity across the university lies with the Provost. Each semester the university submits a report to The Texas A&M University System and the Texas Higher Education Coordinating Board regarding workload compliance.

## 6. REQUESTS FOR REVIEW OF ACADEMIC WORKLOAD ASSIGNMENTS

Texas A&M University-Corpus Christi recognizes the right of faculty members to request a review of workload assignments before a panel of peers. For details about the review process, see university procedure *12.03.99.C1.01, Assignment of Faculty Workload Credit*.

Approved November 6, 2014

Next Scheduled Review: November 6, 2016

---

**Rule Statement**

---

To facilitate fair and equitable faculty workloads, Texas A&M University-Kingsville awards faculty members Teaching Load Credits (TLCs) for teaching and other functions.

---

**Reason for Rule**

---

This rule is required by System Policy *12.03, Faculty Academic Workload and Reporting Requirements*.

---

**Procedures and Responsibilities**

---

The type of instruction determines how each course is calculated as a part of a faculty member's classroom teaching credits during the long semesters of the regular academic year. The various types of instruction include: Classroom lecture and seminar, laboratory, studio, practicum, student teaching, internships, independent study, special problems, and research. Release time from teaching can be awarded for various activities. The concept of teaching load credits applies only to long semesters. Summer Sessions or shortened terms invoke separate procedures.

1. Teaching Load Credits (TLCs) will be assigned according to the following guidelines.

1.1 Lecture and Seminar

a. Credit hours are normally equal to contact hours for lecture and seminar courses, i.e., 1 credit hour equals 1 contact hour. A contact hour is defined as 50 minutes. Therefore a 3-credit-hour class meets for 150 minutes per week.

b. Undergraduate Courses. TLCs correspond directly to the contact hours of the course. A course listed as 3 hours lecture and 0 hours laboratory yields 3 TLCs. If the course is cross-listed, or meets with another section, it is counted only once in determining the teaching credit received by the faculty member.

- c. Graduate Courses. TLCs for master's level courses are assigned as for undergraduate courses. TLCs for doctoral level courses may be assigned as credit hour values multiplied by 1.5.
  - d. Stacked 4000/5000 courses count as a single course.
- 1.2. Laboratory Instruction. This section applies to standard laboratory instruction in the sciences and engineering, activity courses in Health and Kinesiology and similar courses in other fields of study. For these courses, semester credit hours (SCHs) are not the same as contact hours. As with lecture classes, a laboratory contact hour equals 50 minutes.
- a. To earn TLCs for direct laboratory instruction the faculty member must personally teach the sections involved. Faculty members receive 2 TLCs for each 3 contact hours.
  - b. Graduate assistants receive 1 TLC for each 2 contact hours except for activity courses in the Department of Health and Kinesiology.
  - c. For Health and Kinesiology activity courses the student receives 1 SCH for 3 contact hours and the faculty member or graduate teaching assistant receives 2 TLCs.
  - d. Faculty members supervising multiple laboratory sections taught by student assistants receive 1 TLC for each 4 contact hours of laboratory up to a maximum of 4 TLCs per semester.
  - e. For music method courses the student receives 1 semester credit hour for each 2 contact hours and the faculty member receives 1.5 TLCs. For private lessons TLCs are calculated as 5 TLCs for each 8 contact hours. Teaching credits for directing bands or ensembles are treated as special assignments at the discretion of the department chair.
  - f. Art studio TLCs are calculated as 4 TLCs for each 6 contact hours.
  - g. Drama laboratory counts as 2 TLCs for 3 contact hours.
- 1.3. Independent Study and Research. Independent study and research courses usually require the instructor to assign work or research to be done by individual students. The instructor must assess the student's progress towards satisfactory completion of the project at appropriate intervals and evaluate the work for grading purposes. TLCs are calculated the same as if the course were a lecture course, with the same minimum number of students enrolled in to justify TLCs. Theses and dissertation courses are of this nature.

- 1.4. Practicum, Internship and Student Teaching. The standard practicum or internship involves placement of a student in an on- or off-campus setting where supervision of the student's work is shared by a faculty member and the staff at the learning location. Such placements require the faculty member to account for a minimum commitment of time. Such placements include but are not limited to student teaching practicums and internships. Instructors of record of student teaching courses, practicums, and internships receive 3 TLCs for each class with three semester hour credit taught if that class makes with at least the minimum required enrollment.
- 1.5. Each 1101 and 1102 freshman seminar course will provide 2 contact hours per week but will award 1 SCH to the student. The faculty member teaching these courses will be awarded 2 TLCs per course.

The TLCs awarded per contact hour are outlined in Table 1.

Table 1. Teaching Load Credits (TLCs) awarded per contact hour for various types of courses.

<b>Type of Course</b>	<b>TLCs per Contact Hour</b>
Undergrad lecture	1
Master's lecture	1
Doctoral lecture	1.5
Laboratory or recitation taught by faculty member	0.67 (2 per 3)
Laboratory taught by graduate student	0.5 (1 per 2)
Health/Kinesiology activity course taught by faculty member or graduate student	0.67 (2 per 3)
Art or drama studio course taught by faculty member	0.67 (2 per 3)
Music methods course taught by faculty member	0.75 (1.5 per 2)
Music private lessons taught by faculty member	0.67 (2 per 3)
Independent study, thesis, research, practicum, internship, student teaching	As with lecture, TLCs awarded based on course SCH, and only if course enrollment meets minimum requirement
Freshman seminar	1

2. Release time TLCs may be awarded according to the following guidelines.

- 2.1. Teaching Non-compensated Overloads. Although overloads are generally discouraged, situations arise in which faculty members agree or volunteer for programmatic reasons to teach more than the standard full load for their appointment. When this situation occurs efforts will be made to grant release time in a subsequent semester consistent with teaching requirements of the department. These overload hours, commonly referred to as “banked hours,” cannot be redeemed later than three long semesters following the semester in which the overload occurred.
- 2.2. Opportunities present themselves to faculty and staff to utilize their expertise in situations outside their job. Faculty members receiving release time for programmatic reasons will not be considered for overload, off-campus teaching assignments. Employees generally can accept extra paying responsibilities if they are temporary, unrelated to their normal duties, and outside their regular work hours. Permission to perform outside employment can be obtained only through submission of the Faculty Outside Employment and Consulting Application and Approval Form.
- 2.3. Teaching Program Development. Involvement in development of the teaching program by preparation of new course material, new teaching methods, and classroom or laboratory material or major curriculum development may be considered for release time as determined by the chair, academic dean and Provost and Vice President for Academic Affairs, but will not exceed 3 TLCs.
- 2.4. Supervision of Graduate Students. For supervising to completion five theses or five dissertations, and serving as chair of those masters thesis or doctoral dissertation committees, 3 TLCs of release time can be awarded at a time deemed feasible by the department chair.
- 2.5. Administrative and Other Professional Assignments
  - a. Department chairs receive 6 TLCs of release time each long semester.
  - b. Associate or Assistant deans receive 9 TLCs of release time each long semester.
- 2.6. Research. The University's practice of awarding release time for research will help a faculty member start and continue ongoing research activity. The end result of the release time must be a proposal aimed at securing outside funding or the completion of a scholarly work which is in progress. Faculty members are granted release time for research under three circumstances.

a. The faculty member obtains a research contract or grant which provides for replacement salary proportional to the time the faculty member is released. In the case of grant or contract monies from outside of the university, a research proposal must be approved through appropriate university channels. The faculty member should see that a Form 500 or EPA is submitted by his/her department in time for the paycheck to be drawn from the research account. The release time should be reported each semester on the Load Reduction Approval Request Form and submitted with the department's teacher load reports.

b. The faculty member submits a proposal to an outside funding source listing research release time as matching funding for the grant. The proposal must be approved through appropriate university channels including the Institutional Contribution/Cost Sharing Statement Form signed by the department chair and dean. Also, the Load Reduction Approval Request Form must be submitted each semester along with teacher load reports.

c. In a limited number of circumstances, the faculty member may be granted release time from teaching by the University for specific research-related duties. This requires that the Load Reduction Approval Request Form be prepared detailing the duties to be performed and results to be attained. This form must be approved by the department chair, dean, and Provost. The form is submitted with teacher load reports.

## 2.7. Special Assignments.

a. President, Faculty Senate. The President of the Faculty Senate will receive a 3 TLCs teaching load reduction each long semester.

b. Chair, major university or college committee. If the nature of the assignment is such that the demands on the time of the chair will be excessive, a 3 TLC teaching load reduction may be granted during a long semester as determined by the appropriate academic dean and the Provost and Vice President for Academic Affairs.

c. Release time may be awarded for other assignments as approved by the appropriate academic dean and the Provost and Vice President for Academic Affairs. The extent of such teaching load reductions will be determined by the nature of the assignment.
