

**The Texas A&M University System
Long-form Schools/Agencies (Greater than \$10 million in Federal Grants)
& Short-form Schools
Facilities and Administrative (F&A) Cost Rates
As of September 2025**

Each member of the Texas A&M University System will prepare or help prepare Facilities & Administration (F&A) proposals and the System Office submits these proposals to our cognizant agency Department of Health and Human Services (DHHS) periodically. Below are the rates that have been approved by DHHS to be utilized on sponsored agreements with federal, state, local and private sponsors.

College Station based institutions and agencies submit one long-form proposal since there is a considerable amount of shared space (buildings/laboratories/rooms). Prairie View and Corpus Christi each submit a stand-alone long-form proposal. All other TAMUS members currently submit short-form proposals which are less complex than the long-form proposal. All schools use the Modified Total Direct Cost (MTDC) base.
