SECTION 1 - INTRODUCTION

1.1 Scope

The Texas A&M University System (TAMUS) is seeking proposals for an electronic board portal solution to share and manage board-related information securely for the Board of Regents. It is the intent of TAMUS to effectively establish an agreement with a qualified company for the requirements listed. Upon award, successful RESPONDENT shall provide all software, training, and documentation as specified and listed in this proposal.

By submitting responses, each RESPONDENT certifies that it understands this RFP and has full knowledge of the scope, nature, quality, and quantity of the work to be performed, the detailed requirements of the services to be provided, and the conditions under which the services are to be performed. Each RESPONDENT also certifies that it understands that all costs relating to preparing and responding to this RFP will be the sole responsibility of the RESPONDENT.

1.2 Background

The A&M System is one of the largest systems of higher education in the nation, with a statewide network of 11 universities, seven state agencies and a comprehensive health science center. A&M System members educate more than 120,000 students and reach another 22 million people through service each year. With more than 28,000 faculty and staff, the A&M System has a physical presence in 250 of the state's 254 counties and a programmatic presence in every one. In 2011, externally funded research expenditures exceeded \$780 million to help drive the state's economy.

Additional information about the history of The Texas A&M University System can be found at the following site; <http://www.tamus.edu/about/history/>.

1.3 Priorities/Expectations

RESPONDENTS should note the following priorities/expectations with regard to the possibility of TAMUS establishing a contractual relationship with any RESPONDENT:

- (a) *Ensuring a Quality Level of Service.* This priority encompasses the quality of the level of service that can be provided to all TAMUS customers in a timely, cost effective manner. TAMUS is seeking a RESPONDENT that will ensure the provision of such quality in its delivery of service through proven training techniques and established metrics.
- (b) *Level of Experience and Expertise.* RESPONDENT must demonstrate its capabilities in providing the utmost level of experience and expertise to ensure a successful solution as determined by TAMUS.
- (c) *Delivery Efficiency as it Relates to Total Costs.* RESPONDENT must demonstrate its ability to deliver the required system in a cost-effective and timely manner while not sacrificing the quality required by a Tier I research System.
- (d) *Financial Stability.* RESPONDENT must demonstrate its financial stability and capabilities in providing the required system. At a minimum, the RESPONDENT shall provide the two most current audited financial statements.

1.4 Performance Period

Should TAMUS, in its sole discretion, enter into an agreement with the successful RESPONDENT as a result of this RFP, the initial agreement shall be effective upon execution for a period of one (1) year. The agreement may be extended for four (4) additional one-year terms, providing all parties mutually agree on the extension for any services proposed that are necessary for the ongoing operation and maintenance of the system. Any extensions shall be at the same terms and conditions plus any approved changes to be determined by TAMUS and negotiated in writing with the successful RESPONDENT.

SECTION 2 – INSTRUCTIONS FOR RESPONDENTS

TAMUS is soliciting submittals from qualified firms, hereafter referred to as RESPONDENT(s) who can provide an electronic board portal system to TAMUS.

Proposals and any other information submitted by RESPONDENT in response to this Request for Proposal shall become the property of TAMUS.

This RFP outlines requirements as specified in the Sections 3 and 4. Submittals are to be in accordance with the outline and specifications contained herein, are to remain in effect a minimum of 120 days from the date of submission, and may be subject to further extensions as negotiated. A statement to this effect should be contained in the RESPONDENT's cover letter.

The RESPONDENT selected shall have an excellent track record for providing a system relative to the size and scope of TAMUS and shall agree to provide the services necessary for the successful implementation to TAMUS with a top priority commitment. This RFP contains specific requests for information. RESPONDENTS are encouraged to examine all sections of this RFP carefully, in that the degree of interrelationship between sections is critical. In responding to this RFP, RESPONDENTS are encouraged to provide any additional information they believe relevant.

Clause headings appearing in this RFP have been inserted for convenience and ready reference. They do not purport to define, limit or extend the scope of intent of the respective clauses. Whenever the terms “must”, “shall”, “will”, “is required”, or “are required” are used in the RFP, the subject being referred to is to be a required feature of this RFP and critical to the resulting submittal.

In those cases where mandatory requirements are stated, material failure to meet those requirements could result in disqualification of the RESPONDENT's response. Any deviation or exception from RFP specifications must be clearly identified by the RESPONDENT in its submittal.

Each proposal shall be prepared simply and economically, providing a straightforward and concise description of RESPONDENT's ability to meet the requirements of this RFP. Emphasis shall be on completeness, clarity of content and responsiveness to the offer requirements. Expenses for developing and presenting submittals shall be the entire responsibility of the RESPONDENT and shall not be chargeable to TAMUS. All supporting documentation and manuals submitted with this submittal will become the property of TAMUS unless otherwise requested by the RESPONDENT, in writing, at the time of submission, and agreed to, in writing, by TAMUS.

All technical questions concerning this RFP are to be directed to Jeff Zimmermann, Director, Procurement and Business Services, in writing, at jjzimmermann@tamus.edu. RESPONDENT may not contact other individuals at TAMUS to discuss any aspect of this RFP, unless expressly authorized by the Procurement Office to do so. Questions regarding the RFP, including questions for more data or information beyond that included in this RFP and attachment, should be presented in writing. **Deadline for submission of questions is by 5:00 P.M. April 9, 2015.** TAMUS will publish all questions with responses according to the schedule in Section 2.1.

2.4 Proposal Components

The following documents and all requirements from noted sections are to be returned as part of your proposal submittal. Failure to include these documents will be basis for response disqualification.

- ✓ Non-Collusion Affidavit (Appendix B)
- ✓ Electronic Board Portal - Section 3, all requested information and requirements
- ✓ Respondent Questionnaire – Section 4

RESPONDENT shall provide one (1) original copy, three (3) additional hard copies, and three (3) electronic copies of the complete RFP response as specified above. Note: The electronic copy shall be

combined in a single file.

All electronic copies must either be in Microsoft Office software or Adobe Portable Document Format (PDF). All image files must be in one of the following formats: .jpg, .gif, .bmp, or .tif and submitted on a CDROM or thumb drive. We prefer image files to already be inserted as part of a document such as a PDF. Individual image files on the electronic media must be clearly named and referenced in your proposal response.

NOTE: The original signature on the ONE (1) hard copy will serve as the official signature of record for all electronic copies. The proposal must be manually signed by a person with authority to bind the firm under a contract.

Submittal response package (envelope/box/carton) must indicate on the lower left-hand corner the respondent's company name and address, and the RFP number and opening date.

Submittals are to be submitted as a booklet or in notebook form with appropriate indices. Each submittal should be prepared simply and economically, providing a straightforward concise description of the RESPONDENT's service, approach and ability to meet TAMUS' needs as stated in this RFP. Schedules and Exhibits must be clearly identify and defined.

2.5 Inquiries and Interpretations

Responses to inquiries which directly affect an interpretation or change to this RFP will be issued in writing by addendum (amendment) and posted to the Electronic State Business Daily (ESBD). It is the responsibility of the RESPONDENT to check the ESBD for any and all addenda issued for this RFP. All such addenda issued by TAMUS prior to the time that proposals are received shall be considered part of the RFP, and the RESPONDENT shall consider and acknowledge receipt of such in their proposal.

Only those TAMUS replied to inquiries which are made by formal written addenda shall be binding. Oral and other interpretations or clarification will be without legal effect.

2.6 Selection Process

TAMUS will base its choice on demonstrated competence, knowledge, and qualifications and on the reasonableness of the proposed fee for the system and related services; and if other considerations are equal, give preference to a RESPONDENT whose principal place of business is in the state or who will manage the contract wholly from an office in the state.

The RESPONDENT selected will be the one who's experience and qualifications, as presented in response to this RFP, establish them, in the opinion of TAMUS, as well qualified and offering the greatest benefits, experience and value to TAMUS. TAMUS may cancel this RFP or reject proposals at any time prior to an award, and is not required to furnish a statement of the reasons why a particular proposal was not deemed to be the most advantageous. Should TAMUS determine in its sole discretion that only one RESPONDENT is fully qualified, or that one RESPONDENT is clearly more highly qualified than the others under consideration, a contract may be negotiated and executed with that RESPONDENT. The contract will be an agreement incorporating by reference all the requirements, terms and conditions of the solicitation and the RESPONDENT's proposal as negotiated.

Submission of proposals indicates RESPONDENT's acceptance of the evaluation techniques and the recognition that subjective judgments must be made by TAMUS during the evaluation process.

The selection of the successful proposal may be made by TAMUS on the basis of the proposals initially submitted, without discussion, clarification, or modification. In the alternative, selection of the successful proposal may be made by TAMUS on the basis of negotiation with any of the RESPONDENTS. TAMUS shall not disclose any information derived from the proposals submitted by competing RESPONDENTS in conducting such discussions.

All proposals must be complete and convey all of the information requested to be considered responsive. If a proposal fails to conform to the essential requirements of the RFP, TAMUS alone will determine whether the variance is significant enough to consider the proposal susceptible to being made acceptable, and therefore a candidate for further consideration, or not susceptible and therefore not considered for award.

TAMUS reserves the right to check references prior to award. Any negative responses received may be grounds for disqualification of the proposal.

TAMUS reserves the right to accept or reject any or all offers, to waive informalities and technicalities, to accept the offer considered most advantageous, and/or to make the award to the most responsive RESPONDENT.

TAMUS reserves the right to select the most qualified RESPONDENTS to present their qualifications during an interview. TAMUS will not provide compensation to RESPONDENTS for any expenses incurred by the RESPONDENT(S) for proposal preparation, evaluations or demonstrations that may be made.

2.7 The Texas A&M University System HUB Policy

It is the policy of TAMUS to encourage the use of Historically Underutilized Businesses (HUBs) in our prime contracts, subcontractors, and purchasing transactions. The goal of the HUB program is to promote equal access and equal opportunity in TAMUS contracting and purchasing. Please contact TAMUS's HUB Program Director, Jeff Zimmermann, at jzimmermann@tamus.edu or 979-458-6410 with any questions related to the HUB program.

SECTION 3 – ELECTRONIC BOARD PORTAL

3.1 Introduction

The Texas A&M University System is requesting proposals for a Web-based, online workspace devoted for its Board of Regents. This portal will offer Regent confidential access to Board materials, past and present, and provide tools that make it easier to prepare for Board meetings. The portal will include security controls that keep Board documents protected and, if legally permitted, confidential. It will also include tools that greatly reduce the time and cost of producing and managing Board materials and scheduling Board work. The portal shall be housed in a secured location and can be accessed by authorized users with proper credentials as defined by the A&M System. The A&M System Board of Regents staff shall have the ability to prepare materials which are then uploaded through the portal application. Those materials will be stored within the system and then converted to a format that can be accessed by the Board members or other authorized users using standard web browsers including Internet Explorer, Safari, Google Chrome, and Mozilla Firefox.

3.2 Specifications

The following features at a minimum shall be included within the system offered:

- Document access and management. Board members should have inbound access to confidential board materials. They should be able to sign into the system by clicking a single line on their computer desktop, whether it's a personal laptop, or a workplace computer. When traveling, Regents should be able to download materials before or during the trip, and review them in locations that don't have Internet access. Access to documents should be on supported web browsers, tablets, iPhones, Android phones, and other common mobile devices.
- Board books and document controls. The portal should include robust tools for creating a Board book and centrally managing documents. Portal administrators should be able to broadcast materials to all Board members, or to a specific committee or selected individuals. They should be able to reach a document even if stored with an off-line version of the software, and set rules for document retention and destruction.
- Reliable security. Board members should have user-level defined access to board and committee materials. They should be able to access the portal from any computer. The portal should use a variety of methods to maintain strong security, such as multiple passwords, scramble pad, or key fob. Committee staffers should have user-level access matched with their scope of work, keeping all other board materials confidential.
- Alerts. Board staffers should be able to easily send out alerts about new materials. It would be preferred if the portal would take Board members directly to the new materials as they log in.
- Calendar management and meeting scheduling. The portal should show the complete Board calendar, including all meetings and board events. There should be tools to link calendars to materials for each scheduled meeting.
- Analytical tools. The portal should include analytical tools for Board staff analysis of meeting materials and/or archived materials.
- Note-taking. Board members should be able to make online notes for the Board member's personal use and access only as they review the meeting packet and access their notes during meetings, just as they would when reviewing a paper document.
- Reliable support. The portal should be a hosted environment, and the vendor should provide software, servers, storage, and backup systems that ensure business continuity. Vendor should offer 24/7 support, along with a high level of expertise on specific board portal functions.
- Searchable archives. The portal should provide unlimited storage for key Board information. The archives should include the Board agenda book, bylaws, minutes, meeting materials, financial and quality reports,

dashboards, annual reports, and strategic plans. Materials should be searchable by keywords, by topic, by committee, and by date.
