Proposals shall be in accordance with the terms, conditions, and requirements set forth in this Request for Proposal (RFP).

1.2 Background

The Texas A&M University System is one of the largest systems of higher education in the nation, with a budget of \$6.3 billion. Through a statewide network of 11 universities, a comprehensive health science center, eight state agencies, and the RELLIS Campus, the Texas A&M System educates more than 153,000 students and makes more than 22 million additional educational contacts through service and outreach programs each year. System-wide, research and development expenditures exceeded \$996 million in FY 2017 and helped drive the state’s economy. More information about the Texas A&M University System and all of its members can be found at <http://www.tamus.edu/about/>.

To this end, each Respondent shall furnish, as a part of the proposal, a complete general description of experience in their respective fields.

By submitting responses, each Respondent certifies that it understands this RFP and has full knowledge of the scope and nature of the opportunity described herein. Each Respondent also certifies that it understands that all costs relating to preparing and responding to this RFP will be the sole responsibility of the Respondent.

Respondent is to independently investigate and verify, at its own discretion, all information acquired from the A&M System or from any other source which is relied on by Respondent in the preparation of its proposal.

Proposals are to be in accordance with the outline and specifications contained herein, are to remain in effect a minimum of 120 days from the date of submission, and may be subject to further extensions as negotiated. A statement to this effect should be contained in the Respondent's cover letter.

This RFP contains specific requests for information. Respondents are encouraged to examine all sections of this RFP carefully, in that the degree of interrelationship between sections is critical. In responding to this RFP, Respondents are encouraged to provide any additional information they believe relevant.

Clause headings appearing in this RFP have been inserted for convenience and ready reference. They do not purport to define, limit or extend the scope or intent of the respective clauses. Whenever the terms "must", "shall", "will", "is required", or "are required" are used in the RFP, the subject being referred to is to be a required feature of this RFP and critical to the resulting submittal.

In those cases where mandatory requirements are stated, material failure to meet those requirements could result in disqualification of the Respondent's response. Any deviation or exception from RFP specifications must be clearly identified by the Respondent in its submittal.

Expenses for developing and presenting proposals shall be the entire responsibility of the Respondent and shall not be chargeable to the A&M System. All supporting documentation submitted with this submittal will become the property of the A&M System unless otherwise requested by the Respondent, in writing, at the time of submission, and agreed to, in writing, by the A&M System.

2.2 Examination of the Request for Proposal

Before submitting, each Respondent will be held to have examined the A&M System requirements outlined in this RFP, and satisfied itself as to the existing conditions under which it will be obligated to perform in accordance with specifications of this RFP.

No claim for additional compensation will be allowed due to unfamiliarity with the specifications and/or existing conditions. It shall be understood that the Respondent has full knowledge of all the existing and/or revised conditions and accepts them "as is."

2.5 **Inquiries and Interpretations**

All questions concerning this RFP are to be directed, in writing, to Jeff Zimmermann at soprocurement@tamus.edu. Respondent may not contact other individuals at the A&M System to discuss any aspect of this RFP, unless expressly authorized by the A&M System Procurement & HUB Program office to do so. Questions regarding the RFP, including questions for more data or information beyond that included in this RFP, should be presented in writing as stated above. The A&M System will publish all questions and answers in the form of an addendum at least two (2) days prior to the Deadline for Receiving Proposals as stated in the schedule in Section 1.4.

Responses to inquiries which directly affect an interpretation or change to this RFP will be issued in writing by addendum/amendment and posted to the Electronic State Business Daily (ESBD).

<http://www.txsmartbuy.com/sp> (Input Agency Number "710" and select "Posted" for the Status)

All such addenda/amendments issued by the A&M System prior to the time that proposals are received shall be considered part of the RFP, and the Respondent shall consider and acknowledge receipt of such in their proposal. Only those A&M System replied to inquiries which are made by formal written addenda shall be binding. Oral and other interpretations or clarification will be without legal effect.

2.6 Selection Process

The evaluation of the proposals shall be based on the proposal that the A&M System deems to represent the **best value** to the A&M System. The RFP provides the information necessary to prepare and submit proposals for consideration by the A&M System. All properly submitted proposals will be reviewed, evaluated, and ranked by the A&M System. The A&M System will rank the Respondents in the order that they provide the overall “best value” to the A&M System based on an evaluation of the responses to the RFP. The A&M System may interview one or more of the top ranked Respondents as part of the evaluation process.

After proposal tabulation and such investigation of Respondents as the A&M System deems appropriate, an award may be made to one or more Respondents whose proposal it judges to represent the best value to the A&M System. The A&M System reserves the right to reject any or all proposals.

By submitting its proposal in response to this RFP, Respondent accepts the evaluation process and acknowledges and accepts that determination of the “best value” firm will require subjective judgments by the A&M System.

The selection of the successful proposal may be made by the A&M System on the basis of the proposals initially submitted, without discussion, clarification, or modification. In the alternative, selection of the successful proposal may be made by the A&M System on the basis of negotiation with any of the Respondents. The A&M System shall not disclose any information derived from the proposals submitted by competing Respondents in conducting such discussions.

All proposals must be complete and convey all of the information requested to be considered responsive. If a proposal fails to conform to the essential requirements of the RFP, the A&M System alone will determine whether the variance is significant enough to consider the proposal susceptible to being made acceptable, and therefore a candidate for further consideration, or not susceptible and therefore not considered for award.

The A&M System may perform reference checks and seek further information, as needed from any and all Respondents whose proposals the System, at its discretion, considers viable, based on the initial evaluation and scoring. The Proposer’s response to this requirement officially authorizes the A&M System to contact these organizations to discuss the services and other considerations which the Proposer has provided to such organizations and authorizes the organizations to provide such information to the A&M System and Proposer shall and hereby does release and hold harmless the A&M System, the state of Texas, and the organization of any and all liability whatsoever, in connection with providing and receiving all such information. Any negative responses received from reference checks may be grounds for disqualification of the proposal.

The A&M System reserves the right to reject any or all proposals and re-solicit for new proposals, or to reject any or all proposals and temporarily or permanently abandon the project. The A&M System makes no representations, written or oral, that it will enter into any form of agreement with any respondent to this RFP for any project and no such representation is intended or should be construed by the issuance of this RFP.

Rate Sheet: Provide information addressing how maintenance and repairs are charged for the various services needed. Include a rate sheet applicable to the scope of this RFP with any applicable labor rates as well as other fees/charges that may be billed.

3.5 **HUB Subcontracting Plan**

It is the policy of the state of Texas and the A&M System to encourage the use of Historically Underutilized Businesses (HUBs) in our prime contracts, subcontractors, and purchasing transactions. The goal of the HUB program is to promote equal access and equal opportunity in A&M System contracting and purchasing.

Based on the scope of this RFP, Respondents must determine if they can perform the entire scope with their own resources or if it will be necessary to subcontract any portion of the scope. Subcontracting opportunities are defined as those opportunities contracted with a vendor to provide services, supply commodities, or contribute toward completing work for a governmental entity.

Subcontracting opportunities are possible for this RFP and therefore a HUB Subcontracting Plan (HSP) is **required**. Failure to submit a comprehensive, acceptable HSP will be considered a material failure to comply with the requirements of the RFP and will result in rejection of the submittal. The HUB Subcontracting Plan shall be submitted **with** the RFP response by the date and time specified. The applicable **HUB goal** to utilize for this RFP is **10%** for “all other services”.

Respondents shall complete the HSP form attached or as found on the following site; <https://www.tamus.edu/business/hub-procurement/hub-programs-3/system-offices-hub-program/> and submit it with the RFP response. If there are pre-existing agreements in place with companies who will be hired as subcontractors, the Respondent will show those vendors as subcontractors on the HSP and provide an explanation as to why solicitations were not done, e.g. contractual requirements. If no pre-existing agreements with companies who will be hired as subcontractors exist, then the Respondent will be expected to make a good faith effort according to the HSP instructions. Don't forget to include any backup documentation and sign the HSP form.

If the Respondent is completing as **self-performing** a statement which attests that the respondent shall perform the subcontracting opportunities identified by the agency, with its own employees and resources is required. The sections in the HSP form to be completed for self-performing are Section 1, 2a (check No), 3 with your statement included in the open text field, and 4.

For information regarding the HUB Subcontracting Plan requirements, please contact Keith Williams from the A&M System’s HUB Program at (979) 458-6410 or soprocurement@tamus.edu for assistance in determining available HUB subcontractors and proper completion of the HSP. Respondents have the opportunity to submit a draft of the HSP prior to submittal of their response to the RFP for review by Mr. Williams.
