FACULTY WORKLOAD

University Rule 12.03.99.C1 - Approved July 31, 2000
Supplements System Policy 12.03

1. GENERAL

1.1 To support the mission of Texas A&M University-Corpus Christi, members of the faculty perform their classroom duties and carry out a variety of essential functions. As part of their regular faculty responsibilities, faculty members are expected to satisfactorily perform the following functions: academic advising; supervision of undergraduate and graduate students; direction of individual studies, theses, and dissertations; leadership in curriculum development; participation in college and university governance; scholarship; and participation in professional activities, community activities, and special projects of the university. (See University Statement 12.01.99.C1.03, Responsibilities of Full-Time Faculty Members.)

1.2 Acknowledging the diverse responsibilities of its faculty, the university supports an equitable and reasonable workload assignment system. The university follows the guidelines described below and in University Statement 12.03.99.C1.01, which specifies the amount of workload credit that may be granted for various faculty assignments.

1.3 The academic workload standard for full-time faculty members is 12 workload credits per semester. (Part-time faculty workload credits are proportional to the full-time equivalent appointment.) These workload credits are assigned for direct instruction and for a variety of instructionally-related, administrative, scholarly, and service activities. The instructional component will be consistent with System Policy 12.03.

1.4 Assignments of non-instructional workload credit are made by the dean of each college on the basis of recommendations made by the appropriate department chair in consultation with the departmental faculty. Non-instructional workload assignments greater than 6 workload credits require the approval of the Provost and Vice President for Academic Affairs.

2. CREDIT-GENERATING DIRECT INSTRUCTION

2.1 Direct teaching activities include but are not limited to the following:

(1) instruction of lecture and seminar courses,

(2) laboratory and clinical instruction, music ensemble, and studio art,

(3) supervision of student teachers,

(4) private music lessons,

(5) chairing master=s thesis committees,

(6) chairing doctoral dissertation committees,

(7) teaching a practicum as a group course, and

(8) team teaching.

2.2 Guidelines for assigning workload credits for these activities are provided in University Statement 12.03.99.C1.01.

3. ADMINISTRATIVE ASSIGNMENTS

Faculty members may receive academic workload credit for administrative assignments. The amount of workload credit for administrative duties that a faculty member receives is dependent upon the complexity of the department or program, the assigned duties of the position, and the number of faculty members or students supervised. Positions in which a faculty member is given an administrative, supervisory, or coordinative assignment directly related to the instructional programs and purposes of the university include: assistant dean, chairperson of a department or director of a school, coordinator of a disciplinary area, and coordinator or director of a center, a program, or a clinic. For additional information, see University Statement 12.03.99.C1.01.

4. NON-ADMINISTRATIVE ACADEMIC ASSIGNMENTS

4.1 Academic workload credit may also be given for non-administrative academic assignments, including instructionally-related activities, scholarship, service, and other academically-related assignments. A faculty member may earn workload credits to be used the current semester or "banked" for subsequent semesters within the fiscal year (September 1 - August 31). See the information on overloads in University Statement 12.03.99.C1.01.

4.2 During the academic year, a faculty member, with the approval of the department chair and college dean, may request possible academic workload credits for non-administrative reasons including: (1) instructionally-related activities, (2) scholarship, (3) service, and (4) special circumstances. Below is an explanation of the types of activities included in each of these categories. Specific guidelines on the amount of workload credit allowed for the various activities is provided in University Statement 12.03.99.C1.01.

4.3 Instructionally-related Assignments

Adjustments to workload credits may be allowed for various instructionally-related assignments, including teaching assignments that include additional responsibilities. This category includes but is not restricted to:

(1) teaching large classes, especially those with writing assignments, essay tests, or similar complex tasks, or that involve supervision and coordination of teaching assistants, graders, or of multiple laboratory or discussion sections.

(2) developing new degree programs, conducting major curriculum revisions, or developing new courses,

(3) teaching distance learning courses, as discussed in 12.03.99.C1.01,

(4) teaching field-based courses in Education, and

(5) coordinating student advising.

4.4 Scholarship

4.4.1 Academic workload credit may be assigned for research/intellectual contributions/creative activity. Faculty granted academic workload credit for these activities must demonstrate progress in their efforts at the end of each semester of the workload credit. Peer review is necessary for any work to be deemed as scholarship for purposes of academic workload credit.

4.4.2 Academic workload credit may be provided for certain activities related to scholarship, such as preparation of a major research grant or contract proposal. Also, a faculty member may receive academic workload credits when external grants fund his or her salary. Finally, a new faculty member may receive academic workload credit to establish a research agenda and develop courses.

4.5 Service

A faculty member may receive academic workload credit for extraordinary service at the university, in the academic discipline, and/or to the public. (See Section 4.3 of University Statement 12.03.99.C1.01 for examples.)

4.6 Special Circumstances

4.6.1 The President may grant academic workload credit for special presidential assignments.

4.6.2 With the consent of the Provost and Vice President for Academic Affairs, a college dean may grant academic workload credit for reasons not described in this rule.

5. MONITORING WORKLOAD

5.1 College Responsibilities and Procedures

5.1.1 Within the framework of university workload rules, each college, with formal advice from and by majority vote of the faculty, will develop procedures for assigning academic workload credit. Please see University Statement 12.03.99.C1.01 for additional information.

5.1.2 The ultimate responsibility for ensuring compliance with workload rules and equity across the college lies with the college dean. See University Statement 12.03.99.C1.01 for information on the Faculty Workload Report process.

5.2 University Responsibilities

The Provost and Vice President for Academic Affairs has final responsibility for the approval of academic workloads in conformity with university rules and procedures and Texas A&M University System policies. The ultimate responsibility for ensuring workload equity across the university lies with the Provost. Each semester the university submits a report to The Texas A&M University System and the Texas Higher Education Coordinating Board regarding workload compliance.

6. REQUESTS FOR REVIEW OF ACADEMIC WORKLOAD ASSIGNMENTS

6.1 Texas A&M University-Corpus Christi recognizes the right of faculty members to request a review of workload assignments before a panel of peers. For details about the review process, see University Statement 12.03.99.C1.01.

Teaching Load Credits
Effective Fall 2013

The type of instruction determines how each course is calculated as a part of a faculty member's classroom teaching credits during the long semesters of the regular academic year. The various types of instruction include: Classroom lecture and seminar, laboratory, studio, practicum, student teaching, internships, independent study, special problems, and research. Release time from teaching can be awarded for various activities. The concept of teaching load credits applies only to long semesters. Summer sessions or shortened terms invoke separate rules.

A. Teaching Load Credits (TLCs) will be assigned according to the following guidelines.

1. Lecture and Seminar

    a. Credit hours are normally equal to contact hours for lecture and seminar courses, i.e., 1 credit hour equals 1 contact hour. A contact hour is defined as 50 minutes. Therefore a 3-credit-hour class meets for 150 minutes per week.

    b. Undergraduate Courses. TLCs correspond directly to the contact hours of the course. A course listed as 3 hours lecture and 0 hours laboratory yields 3 TLCs. If the course is cross-listed, or meets with another section, it is counted only once in determining the teaching credit received by the faculty member.

    c. Graduate Courses. TLCs for master's level courses are assigned as for undergraduate courses.

        TLCs for doctoral level courses may be assigned as credit hour values multiplied by 1.5.

    d. Stacked 4000/5000 courses count as a single course.

2. Laboratory Instruction. This section applies to standard laboratory instruction in the sciences and engineering, activity courses in Health and Kinesiology and similar courses in other fields of study. For these courses, semester credit hours are not the same as contact hours. As with lecture classes, a laboratory contact hour equals 50 minutes.

    a. To earn TLCs for direct laboratory instruction the faculty member must personally teach the sections involved. Faculty members receive 2 TLCs for each 3 contact hours.

    b. Graduate assistants receive 1 TLC for each 2 contact hours except for activity courses in the Department of Health and Kinesiology.

c. For Health and Kinesiology activity courses the student receives 1 semester credit hours for 3 contact hours and the faculty member or graduate teaching assistant receives 2 TLCs.

d. Faculty members supervising multiple laboratory sections taught by student assistants receive 1 TLC for each 4 contact hours of laboratory up to a maximum of 4 TLCs per semester.

e. For music method courses the student receives 1 semester credit hour for each 2 contact hours and the faculty member receives 1.5 TLCs. For private lessons TLCs are calculated as 5 TLCs for each 8 contact hours. Teaching credits for directing bands or ensembles are treated as special assignments at the discretion of the department chair.

f. Art studio TLCs are calculated as 4 TLCs for each 6 contact hours.

g. Drama laboratory counts as 2 TLCs for 3 contact hours.

3. Independent Study and Research. Independent study and research courses usually require the instructor to assign work or research to be done by individual students. The instructor must assess the student's progress towards satisfactory completion of the project at appropriate intervals and evaluate the work for grading purposes. TLCs are calculated the same as if the course were a lecture course, with the same minimum number of students enrolled in to justify TLCs. Theses and dissertation courses are of this nature.

4. Practicum, Internship and Student Teaching. The standard practicum or internship involves placement of a student in an on- or off-campus setting where supervision of the student's work is shared by a faculty member and the staff at the learning location. Such placements require the faculty member to account for a minimum commitment of time. Such placements include but are not limited to student teaching practicums and internships. Instructors of record of student teaching courses, practicums, and internships receive 3 TLCs for each class with three semester hour credit taught if that class makes with at least the minimum required enrollment.

5. Each 1101 and 1102 freshman seminar course will provide 2 contact hours per week but will award 1 SCH to the student. The faculty member teaching these courses will be awarded 2 TLCs per course.

The teaching load credits awarded per contact hour are outlined in Table 1.

Table 1. Teaching load credits awarded for various types of courses.

Type of Course	**Teaching load credit per contact hour**
Undergrad lecture	1
Master's lecture	1
Doctoral lecture	1.5
Laboratory or recitation taught by faculty member	0.67
Laboratory taught by graduate student	0.5 (1 per 2)
Health/Kinesiology activity course taught by faculty member or graduate student	0.67 (2 per 3)
Art or drama studio course taught by faculty member	0.67 (2 per 3)
Music methods course taught by faculty member	0.75 (1.5 per 2)
Music private lessons taught by faculty member	0.625 (5 per 8)
Independent study, thesis, research, practicum, internship, student teaching	As with lecture, TLCs awarded based on course SCH, and only if course enrollment meets minimum requirement
Freshman seminar	1

B. Release time TLCs may be awarded according to the following guidelines.

1. Teaching Non-compensated Overloads. Although overloads are generally discouraged, situations arise in which faculty members agree or volunteer for programmatic reasons to teach more than the standard full load for their appointment. When this situation occurs efforts will be made to grant release time in a subsequent semester consistent with teaching requirements of the department. These overload hours, commonly referred to as "banked hours," cannot be redeemed later than three long semesters following the semester in which the overload occurred.

2. Opportunities present themselves to faculty and staff to utilize their expertise in situations outside their job. Faculty members receiving release time for programmatic reasons will not be considered for overload, off-campus teaching assignments. Employees generally can accept extra paying responsibilities if they are temporary, unrelated to their normal duties, and outside their regular work hours. Permission to perform outside employment can be obtained only through submission of the Faculty Outside Employment and Consulting Application and Approval Form.

3. Teaching Program Development. Involvement in development of the teaching program by preparation of new course material, new teaching methods, and classroom or laboratory material or major curriculum development may be considered for release time as determined by the chair, academic dean and Provost and Vice President for Academic Affairs, but will not exceed 3 TLCs.

4. Supervision of Graduate Students. For supervising to completion five theses or five dissertations, and serving as chair of those master's thesis or doctoral dissertation committees, 3 TLCs of release time can be awarded at a time deemed feasible by the department chair.

5. Administrative and Other Professional Assignments

    a. Department chairs receive 6 TLCs of release time each long semester.

    b. Associate or Assistant deans receive 9 TLCs of release time each long semester.

6. Research. The University's practice of awarding release time for research will help a faculty member start and continue ongoing research activity. The end result of the release time must be a proposal aimed at securing outside funding or the completion of a scholarly work which is in progress. Faculty members are granted release time for research under three circumstances.

    a. The faculty member obtains a research contract or grant which provides for replacement salary proportional to the time the faculty member is released. In the case of grant or contract monies from outside of the university, a research proposal must be approved through appropriate university channels. The faculty member should see that a Form 500 or EPA is submitted by his/her department in time for the paycheck to be drawn from the research account. The release time should be reported each semester on the Load Reduction Approval Request Form and submitted with the department's teacher load reports.

    b. The faculty member submits a proposal to an outside funding source listing research release time as matching funding for the grant. The proposal must be approved through appropriate university channels including the Institutional Contribution/Cost Sharing Statement Form signed by the department chair and dean. Also, the Load Reduction Approval Request Form must be submitted each semester along with teacher load reports.

    c. In a limited number of circumstances, the faculty member may be granted release time from teaching by the University for specific research-related duties. This requires that the Load Reduction Approval Request Form be prepared detailing the duties to be performed and results to be attained. This form must be approved by the department chair, dean, and Provost. The form is submitted with teacher load reports.

7. Special Assignments.

   a. President, Faculty Senate. The President of the Faculty Senate will receive a 3 TLCs teaching load reduction each long semester.

   b. Chair, major university or college committee. If the nature of the assignment is such that the demands on the time of the chair will be excessive, a 3 TLC teaching load reduction may be granted during a long semester as determined by the appropriate academic dean and the Provost and Vice President for Academic Affairs.

   c. Release time may be awarded for other assignments as approved by the appropriate academic dean and the Provost and Vice President for Academic Affairs. The extent of such teaching load reductions will be determined by the nature of the assignment.

12.03.99.O1.01 Faculty Workload
Approved: May, 2012
Next Scheduled Review: May, 2013

Procedure Statement

This Procedure is established to provide guidelines regarding the workload for faculty. The assignments will be implemented only as institutional resources are available, with teaching loads having the first priority.

Reason for Procedure

This Procedure documents the regulations and standards for the interpretation of institutional workload requirements, and for the range of acceptable assignments within its definitions of faculty workload. This Procedure is required by System Policy **12.03** ***Faculty Workload and Reporting Requirements***.

Process

---

1. GENERAL

Assignments of non-instructional workload credit are made by the division head of each School in consultation with the departmental faculty. Non-instructional workload assignments greater than 6 workload credits require the approval of the Provost and Vice President for Academic Affairs.
Direct teaching activities include but are not limited to the following:

(1) Instruction of lecture and seminar courses,
(2) Laboratory and clinical instruction, music ensemble, and studio art,
(3) Supervision of student teachers,
(4) Private music lessons,
(5) Chairing master's thesis committees,
(6) Chairing doctoral dissertation committees,
(7) Teaching a practicum as a group course, and
(8) Team teaching.

Provided below are more specific guidelines for the assignment of workload credit for direct instruction, administrative assignments and non-administrative academic assignments:

2. CREDIT-GENERATING DIRECT INSTRUCTION WORKLOAD CREDITS.

Generally, workload credits will be assigned to direct teaching activities as described below.

a) Undergraduate Courses: Academic workload credit is equal to the credit hour value of the course. (3-credit-hour course section = 3 workload credits.)

b) Graduate Courses: Academic workload credit is equal to the credit hour value of the course. Based on the enrollment of a graduate course, and upon approval by the School Head, full-time faculty may receive up to four (4) workload credits.

c) Lecture/lab Courses: Academic workload credit for the lecture portion of a lecture/lab course is equal to the contact hours assigned to the lecture portion of the course in the University Catalog. (The lecture portion of a 2:3-contact-hour lecture/lab course = 2 workload credits.)

d) Laboratory Instruction: Academic workload credit is equal to the instructional contact hours per week multiplied by .67. (3-contact-hour lab section = 2 workload credits; 6-contact-hour art studio = 4 workload credits.)

e) Student Teacher Supervision: Academic workload credit for supervising student teachers in a 6-credit-hour course is .5 workload credits per student enrolled. Academic workload credit for supervising student teachers in a 3-credit-hour course is .25 workload credits per student enrolled. (6 students enrolled in a 6-hour student teaching course = 3 academic workload credits.)

f) Master's Thesis Committee Chair: Some faculty members will serve on thesis committees and/or direct theses as a normal part of their contractual responsibilities.

g) Team Teaching: Instructors who team teach classes receive academic workload credit in proportion to their instructional responsibility for the course. (For example, two instructors each having 50% responsibility for teaching a 3-credit-hour lecture course would each receive 1.5 academic workload credits.)

h) Due to the differences in scope and responsibility of work assignments of full-time versus part-time faculty members (scholarship, service, and student advisement, etc.), part-time faculty members are assigned a 20% teaching load for each 3 semester credit hour course assigned. If they are assigned 6 semester credit hours of course instruction, they will be credited with 40% teaching load, and so on.

3. ADMINISTRATIVE ASSIGNMENTS

Faculty members assigned to administrative positions below the level of School Head (for example, department chair, academic program coordinator, and coordinator or director of a center, a program or a clinic) may receive reassigned workload credits for performing those duties. The amount of workload credit assigned depends upon the complexity of the department or program, the assigned duties of the position, and the number of faculty members or students supervised.

4. NON-ADMINISTRATIVE ACADEMIC ASSIGNMENTS

a) Instructionally Related Workload Credits: Various activities directly related to instruction may receive academic workload credit. The following adjustments to faculty academic workload may be allowed, as further defined by school procedures.

b) Large Lecture Classes: Large lecture classes, especially those with writing assignments, essay tests, or similar complex tasks, or that involve supervision and coordination of teaching assistants, graders, or of multiple laboratories or discussion sections may receive up to 4 workload credits to compensate for the additional workload involved in teaching these courses. As an alternative, a graduate teaching assistant may be assigned to assist with grading and other class-related work.

c) Curriculum and Course Development: Faculty involved in developing new degree programs, conducting major curriculum revisions, developing online courses, or developing new courses may receive up to 3 workload credits depending on the complexity and amount of work involved.

d) Student Advising: Faculty members with major responsibilities for coordinating academic advising programs may receive up to 3 workload credits depending on the complexity and amount of work involved.

5. SCHOLARSHIP WORKLOAD CREDITS

a) Externally Funded Grants: A faculty member may receive up to 12 workload credits per term when funding is provided by external research grants or contracts.

b) New Faculty: Faculty new to Texas A&M University-San Antonio may receive up to 3 semester hours of workload credit during their first semester of employment for the purpose of establishing their research agendas and developing courses.

6. SERVICE WORKLOAD CREDITS

Professional Service Activities: The amount of workload credit granted by the School Head for service depends on the complexity and workload of the service activity. Faculty members may receive up to 6 academic workload credits for service activities such as: writing a major training or professional development grant, chairing a major university or school committee, chairing an accreditation self-study task force, editing a major academic journal, serving in a leadership role in a national or regional professional organization, or carrying an unusually heavy service assignment.

7. WORKLOAD CREDIT FOR SPECIAL CIRCUMSTANCES

a) The President may grant up to 12 academic workload credits per semester for special assignments.

b) With the consent of the Provost and Vice President for Academic Affairs, a School Head may grant workload credit for reasons not described in the University's workload rule.

8. UNDERLOADS AND OVERLOADS

Because of fractional workload assignments that may not add exactly up to 12 workload credits per semester, workload credit totals between 11.00 and 13.00 are rounded to 12 and considered to be full-time. A faculty member is considered to be in an overload situation in a fall or spring semester when total academic workload credits is greater than 13. At the option of the faculty member at the time the overload assignment is agreed upon, monetary compensation at adjunct rates can either be provided during that semester, or compensating workload reduction can be agreed to in a subsequent term in the same fiscal year (September 1- August 31).

9. WORKLOAD ASSIGNMENT

a) Faculty workload will be assigned by the Department Chair with oversight by the School Head.

b) While maintaining school-level flexibility within University rules, the school procedures must include:

i. Mechanisms for faculty within disciplinary areas along with the program coordinator and/or department chair to develop a plan for academic workload assignments for each faculty member in that discipline,

ii. Mechanisms for faculty to apply for non-instructional workload credit using the appropriate University forms,

iii. Mechanisms for documenting the results of the activities for which workload credit was granted, and

iv. Mechanisms for department chairs and school heads to review and request adjustments to workload plans and assignments proposed by faculty in disciplinary areas.

c) Procedures for including requests for workload credit for activities other than direct instruction and consequent workload assignments and plans in faculty personnel files and for taking account of these matters in tenure, promotion, and other personnel decisions.

d) To help assess academic workload, each school must complete a Faculty Workload Report as prescribed by the Texas Higher Education Coordinating Board. Each semester the School Head completes and returns the report to the Provost and Vice President for Academic Affairs. The report describes in specific terms the means by which each FTE faculty member meets the twelve academic credit workload.

10. REQUESTS FOR REVIEW OF ACADEMIC WORKLOAD ASSIGNMENTS

Any faculty member may request a review of his/her workload by the School Head and Provost.

UR 12.03.99.H1 Faculty Academic Workload and Reporting Requirements

Approved: March 23, 2001
Revised: January 1, 2009
Revised: March 25, 2011
Next Scheduled Review: March 25, 2013

Rule Statement

This rule establishes the faculty workload standards and procedures as well as the conditions under which the workload of faculty may be adjusted.

Reason for Rule

The purpose of this rule is to provide details, including operational and reporting responsibilities, regarding the faculty workload expectations at Texas A&M University-Texarkana.

Procedures and Responsibilities

1. TEACHING LOAD – (See System Policy 12.03 *Faculty Academic Workload and Reporting Requirements*)
2. EVALUATION OF TEACHING LOAD

    2.1. The College Dean shall monitor and evaluate the workload of individual faculty members in his or her college to ensure compliance with this rule and approve and submit any teaching course load reduction requests to the Provost and Vice President for Academic Affairs (Provost/VPAA), designated by the President to authorize final approval. The President, Provost/VPAA, and College Dean shall ensure that academic and related duties are assigned equitably within the college.

    2.2. The Academic Program Coordinator shall monitor the workloads of faculty within his or her department or program to ensure compliance with the University's workload requirement and provides notice to the respective College Dean of all faculty members not in compliance with the University's workload requirement.

3. MINIMUM TEACHING LOAD STANDARD

3.1. The minimum full-time fall and spring semester teaching load for all university tenured or tenure track faculty teaching any combination of undergraduate and graduate courses is 12 semester credit hours (12 SCH) for each semester. The minimum full-time fall and spring semester teaching load for all university tenured or tenure track faculty teaching only doctoral courses is 9 semester credit hours (9SCH) for each semester. Faculty teaching in a doctoral program may not elect to teach an overload during any semester. The minimum full-time fall and spring semester teaching load for all clinical faculty is 15 semester credit hours (15 SCH) of classroom teaching per semester. The load for combined summer terms for all full-time faculty is no more than six semester credit hours (6 SCH).

3.2. The respective College Dean, with approval from the Provost/VPAA, may reduce a faculty member's teaching load by replacing one or more course assignments with any of the following:

3.2.1. *Administrative Assignments*—Administrative assignments that directly supplement the teaching function such as, but not limited to, heads of teaching departments and coordinators or directors of academic programs may be counted for part of a regular teaching load.

3.2.2. *Direct Instructional Activities*—Activities which include interaction with students related to instruction, preparation for such instruction or evaluation of student performance may count for part of a regular teaching load. These may include, but are not limited to, supervision or coordination of laboratories or lectures utilizing teaching assistants, practica, internships, clinical assignments, or alternative learning activities.

3.2.3. *Independent Study Courses*—Upon prior approval by the Dean, independent study courses (identified as 489 and 589) may be translated into equivalent course semester credit hours (for the purpose of measuring teaching loads). Deans shall collect and maintain all data necessary to document such credit.

3.2.3.1. For 30 semester credit hours of graduate credit accumulated by a faculty member in independent study courses, a credit of three (3) semester credit hours may be awarded.

3.2.3.2. For 45 semester credit hours of undergraduate credit accumulated by a faculty member in independent study courses, a credit of three (3) contact hour equivalents may be awarded.

3.2.3.3. When combining undergraduate and graduate courses to equal a course reduction, graduate semester credit hours may be converted to undergraduate semester credit hours by using a multiplier of 1.5.

3.2.3.4. All contact hour equivalent credit accrued via independent study courses may be applied during the semester in which the total credit for independent study reaches the minimum amounts indicated in 3.2.3.1 and 3.2.3.2 above, but no later than the next long (spring or fall) semester.

3.2.4. *Research and Creative Activities*—Although scholarship is expected of all tenured/tenure track faculty in addition to carrying a minimum teaching load as defined in 3.1 of this rule, limited faculty teaching and load credit may be granted for major scholarship activities, including conducting research that leads to publication and the development of creative works. Faculty teaching in a doctoral program are expected to achieve a minimum of one annual publication or an average of three (3) publications in the last three (3) years in a peer-reviewed journal to be eligible for merit. Additional activities may be required by the Dean based on the doctoral program discipline. The faculty annual performance evaluation will document the attainment of this expectation.

3.2.5. *Graduate Research Supervision*—The following table shall be used to assign teaching load credit to tenured/tenure track faculty providing graduate research supervision:

Semester Credit Hour Equivalency for Graduate Research Supervision

Assignment	Number of Students Supervised					
	1	**2**	**3**	**4**	**5**	**6**
Member, Masters Thesis Committee	.25	.5	.75	1	1	1
Chair, Masters Thesis Committee	.75	1.5	2.25	3	3.75	4.5
Member, Doctoral Dissertation Committee	.75	1.5	2.25	3	3.75	4.5
Chair, Doctoral Dissertation Committee	1	2	3	4	5	6

Teaching credit accrued via this process may be applied during the semester in which sufficient credit is earned to substitute for one or more courses or in the immediate next long (spring or fall) semester, as approved by the Dean.

3.2.6. *Other Projects*—Other projects that occur during an academic year may be considered as part of faculty workload as requested by the Dean and

approved by the Provost/VPAA. These include, but are not limited to, major academic advisory activities, preparation of major documents (e.g., program and/or research grant proposals) in the fulfillment of programmatic needs or accreditation requirements, and for performance of duties in the best interest of the institution's instructional program.

3.2.7. The Faculty who are assigned by the Dean to teach more than the minimum load during any semester may do so as an overload and will be provided additional compensation commensurate to the adjunct salary rate. Overloads, including courses taught during a mini-term (May or January) may be "banked" and credited toward a faculty's teaching assignment during the immediate next long (spring or fall) semester.

3.3. (See System Policy 12.03 *Faculty Academic Workload and Reporting Requirements*)

3.4. All requests for teaching workload reductions shall be initiated by the faculty on form "Faculty Teaching Workload Reassigned Time Request Form" and submitted to the respective College Dean on a timeline that allows the completed request (with Dean approval) to be submitted to the Provost/VPAA for final approval no later than the published deadline for each semester. All requests, including those related to the cancellation of classes during the spring or fall terms, submitted after these deadlines will be considered on an individual basis via discussion between the Dean and Provost/VPAA. Teaching course load reductions related to the cancellation of summer classes will not be considered.

3.5. A report of activities and a copy of any deliverables (e.g., professional article) for the reduced teaching load in a given semester will be due to the respective Dean no later than 15 days after the last class day of the semester.

4. INSTITUTIONAL WORKLOAD RULE DEVELOPMENT AND REVISION

The President delegates the responsibility of recommending revisions to this rule to the Provost/VPAA who may assign to or seek the assistance of additional personnel (including faculty) and advisory bodies, as well as advice from legal counsel, as needed. Any revisions of 12.03.99.H1 will be reviewed by the Administrative Council and approved by the President prior to submission to the System office for final approval by the Chancellor and Board of Regents.

5. REPORTS REQUIRED

5.1. The Registrar shall collect, analyze, compile, and consolidate data necessary to generate the Faculty Report (CBM-008) required by the Coordinating Board and the Faculty Workload Report as referenced in sections 5.1 and 5.2 of System Policy 12.03. The Registrar shall submit all related reports to the Provost/VPAA for review prior to submission to the President for approval and then to the

Chancellor and Coordinating Board. The standard reporting format and deadlines as provided by the THECB will be followed.

5.2. (See System Policy 12.03 *Faculty Academic Workload and Reporting Requirements*)

B. Teaching

1. Teaching Assignments

a. Small Classes

The Texas Higher Education Coordinating Board defines small classes as organized undergraduate classes having fewer than 10 regularly enrolled students and organized graduate classes having fewer than 5 regularly enrolled students. Small classes are subject to cancellation, which may necessitate a reassignment for faculty members involved.

2. Teaching Loads

Faculty members are assigned teaching loads by their respective department heads. A full-time teaching load is normally 12 adjusted contact hours and may be as much as 15 if not combined with other duties. In addition to teaching, scholarly activity/creative work and professional service where appropriate, other duties considered as faculty assignments include, but are not limited to, student advisement and various committee assignments.

I. Faculty Teaching Load
   A. All departments should plan to offer classes as large as is suitable for the content area and the mode of instruction. Department heads have the responsibility to section courses—including online courses—to ensure manageable class size and to maintain quality instruction. University core courses and individual college requirements may most easily lend themselves to large enrollments.
   B. More than one section of advanced courses should not normally be offered unless enrollment totals and scheduling needs warrant the offerings. Graduate sections should be as large as suitable for the particular instruction involved.
   C. As a general rule, off-campus classes should be planned for enrollments that will generate revenue that equals all costs associated with teaching the course. For undergraduate and graduate courses, a minimum of 20 and 10 students, respectively, should be the goals.
   D. Minimum class size as required by statute is ten undergraduate students and five graduate students. Approval must be granted for any exceptions to this requirement.
   E. In departments that offer classes that are relatively "small" but above the minimum class size, some faculty may need to teach above-normal loads and/or larger classes to generate the necessary student semester hours for funding purposes.

II. Calculations in Support of Faculty Teaching Loads
   A. A teaching load of 12 adjusted contact hours is expected of full-time tenured/tenure track faculty and non-tenure track/temporary faculty who have elected to conduct research/scholarship/creative activity; a teaching load of 15 adjusted contact hours is expected of non-tenure track/temporary faculty without research activity.
   B. Credit for organized courses (lecture, lab or seminar).

Type of Course, Organized	Adjusted Contact Hour (ACH)	
1 lecture contact hour		
•Undergraduate, under 75 students	1.00	
•Undergraduate, 75-89 students	1.33	
•Undergraduate, 90-114	1.67	
•Undergraduate, greater than 114	2.00	
1 WTClass undergraduate credit hour,	1.17	(first time taught)
1 WTClass graduate credit hour,	1.25	(first time taught)

1 laboratory contact hour	0.50	
1 clinical contact hour (organized)	0.67	
1 studio contact hour (art or dance)	0.67	
1 lecture contact hour	1.17	(5000 or 6000 level)
1 lecture contact hour	1.25	(7000 or 8000 level)

NOTE: Department heads may request reassigned time, sectioning or some other means to assist faculty in large WTClass courses.

C. Credit for music performance organizations (ACH = Contact Hours).

Type of Course	Total ACH	
Primary performance	5.0	(marching band, symphonic band, chorale, orchestra)
Secondary performance	3.0	(collegiate choir, concert band)
Summer performance organizations	2.0	

D. Credit for non-organized courses (practicum, independent instruction, thesis/dissertation, readings, applied music, etc.)

Type of Course, Non Organized	Adjusted Contact Hour Weight (Per Student, Per Credit Hour*)
Readings/Problems	
•Undergraduate (and Honors Thesis)	0.10
•Masters	0.20
•Doctoral	0.25
Practicum	0.17
Student Teaching	0.50 per student**
Applied Music	0.667
	Applied Music per contact hour 1 SCH = 0.5 CH x weight 2 & 3 SCH = 1 CH x weight
Master's Thesis	0.25
Doctoral Dissertation	0.33

*Weight x Credit Hour(s) x Number of Students = ACH

**Weight x Number of Students = ACH

Note: In any given semester, a faculty member may accumulate no more than 3.00 adjusted contact hours (ACH) in combination of practicum, readings, problems, theses/dissertations, and independent studies. This limit of 3.00 ACH does not apply to MUAP enrollments for music faculty. A student's honors thesis may only count toward a faculty member's load for one semester, a master's thesis for two semesters and a doctoral dissertation for four semesters. Exception to this limitation must be approved by the department head and academic dean.

E. Faculty members may accumulate excess teaching load during long semesters. The accumulated excess load is not limited by academic or fiscal year, but no more than 3 ACH of accumulated load may be used to apply for reassigned time in any given semester. When a faculty member's load reaches an excess of 3 ACH and resources permit, consideration by the department head for reassigned time may be given. The excess 3 ACH load must be used within 24 months of reaching 3 ACH or the total accumulated excess load will decrease by 3 ACH. Excess accumulated load continues to accrue but will be decreased by 3 ACH after the 24-month period, whether or not the 3 ACH excess load was used for reassigned time.

F. Faculty members may be credited only for laboratory, practice or studio sections they personally teach.

G. A faculty member may teach only one specially scheduled course at one time during a semester or term. (Specially scheduled classes are organized classes that have a specific schedule different in at least one respect from regularly scheduled classes.) During any semester or term a faculty member may teach up to an effective teaching load of 24 ACH for as long as three weeks, so long as during the rest of the semester or term the faculty member does not teach an overload. Exceptions must be administratively approved.

H. In order to facilitate unique instructional experiences that utilize multiple faculty members, departments may, while avoiding additional expense to the University, approve team teaching or shared instruction assignments. For team teaching, full load credit may be given each of the instructors in those cases where all instructors are present during all class periods and are actively participating in instruction. In those cases where responsibility for instruction is divided among a number of faculty members (shared instruction), each instructor shall receive credit for that portion of the load for which the faculty member is responsible.

I. A faculty member teaching correspondence courses may be responsible for no more than 14 correspondence students at any given time. Correspondence courses are not considered when calculating load.

J. Opportunities for summer teaching may exist at the discretion of the department head. The equivalent of a normal teaching load for full-time tenured, tenure-track and non-tenure track faculty who have elected to conduct research in a summer term is 6 ACH; non-tenure track/temporary faculty without the research component, 7.5 ACH. Faculty with less than twelve-month appointments may not accumulate load credits during the summer nor may they use accumulated load credit in the summer terms for reassigned time.

K. Normal teaching load for teaching assistants and for graduate assistants who teach is 6 ACH. Any deviation requires prior administrative approval. Teaching assistants and graduate assistants do not accrue teaching load credits.

L. For a part-time instructor, the load will be proportional to the fraction of a full-time appointment assigned to the individual (e.g., 0.20, one three-semester-hour class during a semester). Part-time faculty do not accrue teaching load credits nor may they receive or use reassigned time.

M. Special requests beyond those outlined above may be recommended by the appropriate dean and must be approved by the provost/vice president for academic affairs before being granted (e.g., serving as department head, coordinating multi-section lecture courses, coordination of programs, supervision and training of teaching assistants, etc.).

THE TEXAS A&M UNIVERSITY SYSTEM
HEALTH SCIENCE CENTER INTERNAL POLICIES

12.03.Z1.01 Faculty Academic Workload

Approved March 7, 2001

Supplements System Policy 12.03

1. TEACHING LOAD

1.1 Each full-time person employed from instructional funds by the Health Science Center (HSC) is expected to teach classes and to assume a reasonable workload of related activities that constitute a full-time load. Persons employed on a part-time basis from instructional funds are expected to assume a workload proportionate to the percentage of employment on these funds.

1.2 The nature of full-time teaching load will vary within components of the Health Science Center because of differences in component missions, the nature of the instructional programs, clinical service requirements, and research activities. In all components, faculty members are expected to engage in those commonly accepted duties that will enhance the teaching/learning process and the quality of the institution's programs. Recognized duties include classroom teaching, scholarly study, basic and applied research, clinical service, professional development, student advising and counseling, course and curriculum development, continuing education, public service, assistance in the administration of the academic program, and similar academic activities. These duties are inherent in the life and work of a faculty member and are taken into account in considerations for promotion, tenure, and salary.

2. EVALUATION OF TEACHING LOADS

It is the responsibility of the Dean/Director of each component to insure that administrative practices exist for making maximum use of the institution's resources in the conduct of instructional duties. The President, in conjunction with the Vice Presidents, Deans, and Department Chairs/Unit Heads of the components, will evaluate academic workloads to determine that each person employed for instructional purposes is carrying the minimum full-time equivalent load and that the academic duties within and among departments are assigned equitably.

3. MINIMUM TEACHING LOAD STANDARDS

Each HSC component will establish standards for teaching loads to meet the instructional obligations of the component and its students in order to operate efficiently within the range of resources available to the institution.

3.1 Adjustments to the amounts of normal classroom teaching may be made to account for large class sizes; duplicate sections taught; laboratory, seminar, lecture, clinical, distance education or field type courses; availability of support services; situations where both graduate and undergraduate work are involved; courses which involve individualized instruction; and overload from the previous semesters.

3.2 Faculty teaching load may be reduced for a faculty member serving as a departmental chair or other administrative position approved by the President.

OFFICE OF RESPONSIBILITY

Vice President for Academic Affairs

TEXAS A&M AGRILIFE RESEARCH

Board Approved Operating Budgets

Fiscal Year Ending August 31, 2013
