The Texas A&M University System Headquarters
301 Tarrow St.
College Station, TX 77840-7896

THE TEXAS A&M UNIVERSITY SYSTEM was officially established in 1948 and has evolved into one of the largest systems of higher education in the nation, with a statewide network of 11 universities, including our flagship, Texas A&M University, and ten regional universities across the state. Additionally, the A&M System provides service and education to the people of Texas and beyond through seven state agencies and a System administration office.

Each of the A&M System members has its own unique mission, history and goals. Together, they provide research, educational programs and community enhancement services that improve the lives of people in Texas and around the world.

A&M System members educate over 153,000 students and make more than 22 million additional educational contacts through service and outreach programs each year.

With more than 26,000 faculty and staff positions, the A&M System has a physical presence in 250 of the state's 254 counties and a programmatic presence in every county. The A&M System has real property holdings totaling more than 64,000 surface acres and 62,000 mineral acres.

System-wide, externally funded research expenditures exceed \$996 million to help drive the state's economy.

The A&M System, with a total operating budget of \$4.7 billion, is governed by a nine-member Board of Regents. A nonvoting student member was added in 2006. The regents appoint the chancellor, the chief executive officer who oversees the direction and operation of the System. The System's role is governed by the state's education code, Title 3, chiefly Ch. 51, Sec. 51.353 and Ch. 85, Sec. 85.17.

Board of Regents

Charles W. Schwartz was appointed to the Board of Regents by Governor Rick Perry in 2013. He was elected to serve a two-year term as Chairman of the Board on May 8, 2017. Mr. Schwartz served two terms as Chair of the Committee on Finance and was a member of the Committee on Buildings and Physical Plant. He also served on the Policy Review Committee and the Committee on Academic and Student Affairs. Mr. Schwartz serves as Vice Chairman of the Board for Lease of University Lands. His term expires February 1, 2019.

Elaine Mendoza was appointed to the Board of Regents by Governor Perry in 2011 and reappointed by Governor Greg Abbott in 2017. She is serving her second term as Vice Chairman of the Board having been reelected on May 8, 2017. Ms. Mendoza is serving a fourth term as Chair of the Committee on Academic and Student Affairs. She is a member of the Committee on Audit and also serves as a liaison to the Texas Higher Education Coordinating Board. Ms. Mendoza also serves on the University Lands Advisory Board. Her term expires February 1, 2023.

Phil Adams was first appointed by Governor Rick Perry in 2001, again in 2009 and was reappointed in 2015 by Governor Greg Abbott. Mr. Adams served a two-year term as Vice Chairman of the Board from 2011 to 2013 and served as Chairman of the Board from 2013 to 2015. He serves as a member of the Committee on Buildings and Physical Plant and the Committee on Finance and has served as Chairman of the Committee on Audit, the Committee on Finance and the Committee on Buildings and Physical Plant. His term expires February 1, 2021.

Robert L. Albritton was appointed to the Board of Regents by Governor Greg Abbott in 2015. He currently serves as a member of the Committee on Audit and the Committee on Academic and Student Affairs. Mr. Albritton served on the Committee on Finance and the Committee on Buildings and Physical Plant. He also served as a liaison to the Development Foundations of A&M System Members and the Texas A&M University Corps of Cadets and System Military Training Programs. His term expires February 1, 2021.

Anthony G. Buzbee was appointed to the Board of Regents by Governor Rick Perry in 2013. He serves as a member of the Committee on Audit and the Committee on Buildings and Physical Plant. He has served as Chair of the Committee on Audit, as a member of the Committee on Finance and the Committee on Academic and Student Affairs. He also served as a liaison to The Association of Former Students and the Texas A&M Corps of Cadets and A&M System Military Training Programs. His term expires February 1, 2019.

Morris E. Foster was appointed to the Board of Regents by Governor Rick Perry in 2007 and reappointed in 2013. He served as Chairman of the Board from 2009 to 2011. He currently serves as a member on the Committee on Academic and Student Affairs and the Committee on Finance. He served as a member of the Committee on Buildings and Physical Plant and the Committee on Audit. He served as a liaison to the Development Foundations of A&M System Members. His term expires February 1, 2019.

Tim Leach was appointed as a member of the Board of Regents by Governor Greg Abbott in 2017. He serves as Chair of the Committee on Buildings and Physical Plant and as a member of the Committee on Finance. Mr. Leach is also a liaison to the Development Foundations of A&M System Members, the Panhandle Plains Museum and the Texas A&M University Corps of Cadets and System Military Training Programs. His term expires February 1, 2023.

William "Bill" Mahomes was appointed to the Board of Regents by Governor Greg Abbott in 2015. He currently serves as the Chair of the Committee on Finance and as a member of the Committee on Academic and Student Affairs. He also serves as a liaison to the Development Foundations of A&M System Members, the Texas A&M University Corps of Cadets and System Military Training Programs and the Texas Higher Education Coordinating Board. He has served as a member of the Committee on Audit. His term will expire February 1, 2021.

Cliff Thomas was appointed to the Board of Regents by Governor Rick Perry in 2011 and reappointed by Governor Greg Abbott in 2017. He served a two-year term as Vice Chairman of the Board from 2013-2015 and a two-year term as Chairman of the Board from 2015-2017. Mr. Thomas serves as liaison to the 12th Man Foundation. He is the Chair of the Committee on Audit and a member of the Committee on Buildings and Physical Plant. He has served as Chair of the Policy Review Committee and as a member of the Committee on Finance. His term expires February 1, 2023.

Ervin Bryant of Spring, Texas, is a senior History major and Political Science minor at Prairie View A&M University. As President of the Prairie View A&M Debate Team, he has represented Prairie View A&M at conferences, tournaments and community events using rhetoric to challenge, engage and educate. Through his dedication to scholarship, community service and building a diverse network, Mr. Bryant works to develop and exercise a diverse set of intellectual and pragmatic tools to improve the quality of life and prepare for the future. He is serving a one-year term expiring on May 31, 2019.

Chancellor

John Sharp was appointed Chancellor of The Texas A&M University System by the Board of Regents on September 6, 2011. As Chancellor of the A&M System, he leads one of the nation's largest university systems, including 11 universities and seven state agencies, which has an annual budget of \$4.7 billion. Enrollment at the A&M System's 11 universities has grown to more than 153,000 and externally funded research expenditures are in excess of \$996 million. Chancellor Sharp brings with him more than three decades of public service and a passion to make the A&M System the best system of higher education in the country.

Frequently Asked Questions

What is The Texas A&M University System?

The A&M System is one of the largest systems of higher education in the nation, with a statewide network of 11 universities and seven state agencies. A&M System members educate more than 153,000 students and reach another 22 million people through service each year. With more than 26,000 faculty and staff, the A&M System has a physical presence in 250 of the state's 254 counties and a programmatic presence in every one. System-wide, externally funded research expenditures exceed \$996 million to help drive the state's economy.

When was the A&M System established?

The A&M System was officially established in 1948. The original members were Texas A&M University, Prairie View A&M University, Tarleton State University, Texas A&M Forest Service, Texas A&M Engineering Experiment Station, Texas A&M Engineering Extension Service, Texas A&M AgriLife Extension Service (formerly Texas Cooperative Extension) and Texas A&M AgriLife Research (formerly Texas Agricultural Experiment Station).

Today, the A&M System provides oversight and leadership for 11 universities and seven state agencies. Its role is governed by the state's education code (Title 3, chiefly Ch. 51, Sec. 51.353 and Ch. 85, Sec. 85.17). Responsibilities include system-wide planning, coordination and execution of the policies of The Texas A&M University System Board of Regents.

What does “A” and “M” stand for?

Texas A&M University, the state's first public institution of higher education, was opened on Oct. 4, 1876 as the Agricultural and Mechanical College of Texas. Both Texas A&M and Prairie View A&M owe their origin to the Morrill Acts of 1862 and 1890, which established the nation's land-grant college system. When Texas A&M gained university status in 1963, the “A&M” was incorporated into the official name in deference to the institution's history and traditions, but the individual letters no longer explicitly stand for anything.

The A&M System is the state's land-grant system. What does that mean?

A land-grant college or university is an institution that has been designated by its state legislature or Congress to receive the benefits of the Morrill Acts of 1862 and 1890. The original mission of these institutions, as set forth in the first Morrill Act, was to teach agriculture, military tactics and the mechanical arts, as well as classical studies so that members of the working classes could obtain a practical education.

The A&M System's agencies, which conduct research and bring practical applications of research findings to the people of Texas, also came out of the land-grant system. There is now at least one land-grant institution in every state and territory of the United States, as well as in the District of Columbia.

How is the A&M System governed?

The A&M System is governed by a nine-member Board of Regents, appointed by the governor and confirmed by the Texas Senate for six-year terms. A nonvoting student member was added in 2006. The A&M System chancellor oversees the day-to-day administration, and each of the A&M System's members has a president, CEO or director.

What is the mission of the A&M System?

The mission of the A&M System is to provide education, conduct research, commercialize technology, offer training and deliver services for the people of Texas and beyond through its universities and state agencies.

Does the A&M System have a central admissions office?

No. Students must contact directly the preferred A&M System institution's admission office. Information about these institutions can be found on the system's website, tamus.edu.

ATHLETIC AFFILIATION Southeastern Conference (SEC)

The flagship university of The Texas A&M University System, **TEXAS A&M UNIVERSITY** is known around the world as a tier one research institution and is a member of the Association of American Universities.

Committed to the values of its land-grant heritage, Texas A&M ensures accessible education for the people of Texas and beyond through effective resource management, maintaining low costs for high-value curricular and co-curricular excellence and graduating students with less debt. World-class faculty members engage our teaching and research, which inform innovation for society's challenges, yielding over \$905.4 million in annual expenditures. Knowledge extends to communities beyond the classroom by engaged scholarship, outreach and partnership with System state agencies for extension. These efforts have also earned Texas A&M designations as a sea-grant and space-grant institution.

Texas' first public institution of higher learning has strategically grown into one of the nation's most comprehensive universities, offering over 370 bachelor's, master's, doctoral and professional degree programs through 16 colleges and schools, including the School of Law in Ft. Worth, and the health-related programs of the Health Science Center. Together with special-purpose branch campuses in McAllen, Galveston and Qatar, today's Texas A&M is developing educated leaders of character committed to learning for a lifetime and dedicated to serving the greater good.

TEXAS A&M UNIVERSITY AT GALVESTON is the ocean campus of Texas A&M University. The students come from all over the world, with many different backgrounds, cultures and interests, but they all share the same dream: to work, study, learn, research and serve in the marine and maritime environments. The institution serves as regional leader for ocean and coastal studies research offering ocean-oriented undergraduate, masters and doctoral degrees covering the disciplines of science, engineering, business, transportation and general studies. The university is also home to the Texas A&M Maritime Academy, one of only six maritime academies in the nation. Academy graduates receive their Third Mate license as a ship's officer while earning a bachelor's degree. The academy also commissions students to serve as officers in the U.S. Merchant Marine, Navy and Coast Guard.

PRAIRIE VIEW A&M UNIVERSITY is the second oldest public institution of higher education in the state of Texas. It is a historically black college/university that, since its inception in 1876, has opened its doors to any and every person – inside and outside of Texas – seeking a first-class, four-year university experience.

The university is situated in a rural part of Texas on one of the most beautiful campuses in the country. Mentioned in the Texas State Constitution as an “institution of the first class,” PVAMU began as an industrial school for African Americans but has evolved to meet changing societal demands. Through its seven colleges and the school of Architecture, PVAMU boasts more than 50 degree programs, including engineering, natural sciences, business, nursing and criminal and juvenile justice.

PVAMU prepares students not only to lead in their communities, but also to succeed in a global marketplace. The expansion of foreign language offerings, such as Arabic and Mandarin Chinese, support the university's goal of building the next generation of global leaders through classroom instruction, study abroad opportunities, cultural training, exposure to the arts and service-learning projects.

PRAIRIE VIEW A&M UNIVERSITY

FM 1098 Road and University Drive, Prairie View, TX 77446 | 936-261-3311

Providing an innovative and transformative educational experience, **TARLETON STATE UNIVERSITY** offers over 300 undergraduate and graduate degree options. Students can choose to study in one of seven colleges—agricultural and environmental sciences, business administration, education, graduate studies, health sciences and human services, liberal and fine arts, and science and technology.

The primary campus is located in Stephenville, just southwest of Fort Worth, and includes centers in Fort Worth, Waco, Midlothian and an online Global Campus. Tarleton boasts three schools—the School of Nursing, the School of Engineering and the School of Criminology, Criminal Justice and Strategic Studies.

A new 98,000-square-foot engineering building is testament of Tarleton's commitment to the future. The \$54 million addition puts Tarleton's engineering, engineering technology and computer science programs at the forefront of educational delivery for these disciplines. Additionally, the first building at Tarleton's new 80-acre location along the Chisholm Trail Parkway in Fort Worth is set to open in summer 2019.

TEXAS A&M UNIVERSITY-CORPUS CHRISTI, established in 1947, has more than 50,000 graduates including dedicated nurses, educators, researchers, artists, scientists and innovators who have a passion to be leaders in their professions. With an unparalleled commitment to every student's success, the Island University supports more than 40 scientific research centers and labs.

The Lone Star Center of Excellence and Innovation is one of only seven unmanned aircraft system test sites in the U.S. and is working with NASA researchers to advance the field. The Conrad Blucher Institute for Surveying and Science, known for developing innovative geospatial science research, is nationally recognized as a leading program

advancing its field with real-world impact for evolving land and water development and changes. The Harte Research Institute for Gulf of Mexico Studies leads international research efforts to support and advance the long-term sustainable use and conservation of the Gulf of Mexico.

We are proud of our status as a tier two (R2) research institution that reflects our high level of research activity and our heritage as a Hispanic-Serving Institution with over 47 percent of students reflecting our ever-diversifying family.

A true college experience. A vibrant and growing campus that meets the living and learning needs of its students. A wide variety of undergraduate and graduate programs. Nationally-recognized research centers. A comprehensive athletics program. A sense of community that extends beyond the campus grounds. This is **TEXAS A&M UNIVERSITY-KINGSVILLE**, the center of Javelina Nation.

The university offers an all-inclusive environment with a variety of living options and food and recreational activities within walking distance of the classroom. The expanding campus features a dining hall, student recreation center and suite-style residence halls, all recently completed, with a new, state-of-the-art music education building set to open in late fall 2019.

Superior faculty and challenging courses provide students with an education that will help them get where they want to go. Degrees include well-known programs in environmental engineering, animal and wildlife sciences, music and natural gas engineering, along with new or growing programs in veterinary technology, kinesiology and social work.

TEXAS A&M UNIVERSITY-KINGSVILLE

For more than 100 years, **WEST TEXAS A&M UNIVERSITY** has attracted bright minds from near and far with superior academics, renowned faculty and affordable tuition. WTAMU is a four-year public university that serves a diverse student population of more than 10,000 students, offering 58 undergraduate programs, 38 graduate programs and two doctoral degree programs.

WTAMU is able to offer students a large variety of courses in high demand fields, ranging from business, education, nursing and much more. With unique offerings in music business emphasis and communication disorders, WTAMU students are guaranteed an exceptional educational experience.

Students learn from top faculty in smart classrooms at both our Canyon campus and the WTAMU Amarillo Center. University initiatives facilitate research opportunities, internships, leadership development programs and network-building interactions between students and professionals in their fields of study.

With its award-winning academic programs, conference and national championships and state-of-the-art facilities, WTAMU is a growing, vibrant university that is well prepared to meet the educational needs of a growing student population for years to come.

Since 1889, TEXAS A&M UNIVERSITY-COMMERCE has served rural and metropolitan North Texas with distinction, consistently delivering on a promise that our founder, Professor William Leonidas Mayo, made more than a century ago: "No industrious, ambitious youth shall be denied an education if I can prevent it." Since our university's humble beginnings, the mission to provide a high-quality, personal, accessible and affordable educational experience for a diverse community of learners has remained unchanged.

We offer on-site classes at the Commerce campus, as well as Corsicana, Dallas, McKinney, Frisco and Mesquite. Many classes are also available online. Students may choose from more than 135 degree programs

at the bachelor's, master's and doctoral levels. A vibrant student life experience includes 14 NCAA Division II athletic teams, a thriving Greek system and more than 120 student organizations.

We are champions of the determined and a beacon for those who seek a more fulfilling life. Here, grit is turned into greatness, determination into deeds – for ourselves, for each other, for our communities and for the world. We are Commerce. We are Lions.

TEXAS A&M UNIVERSITY-TEXARKANA is uniquely positioned to serve a four-state area, contributing to the region's dynamic and diverse culture and resources. Set in the beautiful forest and lake-filled corner of northeast Texas, A&M-Texarkana is a university where you can get a world-class education in a nurturing, student-oriented environment. The university offers a wide array of degree programs, small classes and an outstanding faculty and staff who take great pride in the university's close-knit academic community and seeing students succeed.

With a breathtaking 375-acre campus featuring a brand new state-of-the-art student center and the new Building for Academic and Student Services opening in early 2019, students at TAMUT have all they need to live, learn and experience the very best of college life. With more than 40 student groups (including Greek life), 6 intercollegiate sports, social activities and intramurals, students can explore A&M-Texarkana outside the classroom and make connections that last a lifetime.

TEXAS A&M UNIVERSITY-CENTRAL TEXAS is the 10th out of eleven regional universities affiliated with The Texas A&M University System. Its unique mission as an "upper-level" or "transfer" institution offers opportunity of undergraduate degree completion as well as graduate programs to the population within the Central Texas region. With 25 undergraduate degrees and 17 graduate degrees, A&M-Central Texas programs are offered via three colleges: The College of Arts and Sciences, The College of Business Administration and The College of Education. Among the most affordable universities in the Texas, A&M-Central Texas also offers its students the opportunity to "lock in" their tuition until graduation, making the cost of earning a

degree even more budget-friendly.

A&M-Central Texas is recognized for a personalized educational experience through options with face-to-face and online courses, as well as hybrid programs blending both delivery methods. The campus welcomes students with a supportive and encouraging faculty and many vibrant student life programs. With more than 5,000 alumni, A&M-Central Texas is committed to serving the students and families of the military population serving our nation at Ft. Hood and partners with regional community colleges via the Warrior Corps Transfer program, ensuring a seamless transfer experience for our students.

TEXAS A&M UNIVERSITY-SAN ANTONIO is a comprehensive four-year university offering more than 40 undergraduate and graduate programs. A&M-San Antonio welcomed its third class of first-year students in fall 2018, and today more than 6,616 students are enrolled at the university.

To keep pace with the growth of student enrollment, A&M-San Antonio is expanding facilities on its 700-acre campus in south San Antonio. In 2017, the university opened its first residence hall, Esperanza Hall. In fall 2018, A&M-San Antonio opened a new 140,000-square-foot Science and Technology Building, which houses the Mays Center for Experiential Learning and Community Engagement. It also became the ninth

university in the country, and the first in Texas, to join the Facebook Cyber Security University Program.

A&M-San Antonio offers the lowest undergraduate tuition of any four-year university in San Antonio. The university's core values provide a foundation for its world-class faculty to prepare graduates for rewarding careers, responsible global citizenship and lifelong learning. In 2019, A&M-San Antonio will celebrate its 10-year anniversary as a stand-alone university.

The **RELLIS CAMPUS** in Bryan is home to an academic alliance between several Texas A&M System regional universities and the Blinn College District.

Designed to provide a seamless educational experience in one unique location, students can begin their studies in the newly opened Blinn College District's Walter C. Schwartz Building. Students are then able to transfer to one of the A&M System regional universities onsite and create flexible courses of study in a variety of subjects.

The inaugural classes at RELLIS began in the fall of 2018 and an exciting student life has already emerged with the establishment of a

RELLIS Ambassador Program and a Student Advisory Council.

The first building in The Texas A&M University System's Academic Complex at RELLIS is expected to be completed June 2019 and will feature 10 classrooms, group learning and collaboration spaces, modern allied health teaching laboratories, upper division science laboratories and more than 40 faculty offices.

At the RELLIS Campus, students and instructors are working together to create a new model for the future of higher education.

Focusing on research, innovation and workforce development, the **CENTER FOR INFRASTRUCTURE RENEWAL (CIR)** is the national leader in the development of transformative infrastructure solutions. Its labs innovate new materials, technologies and processes to create solutions that last longer, have lower costs and can be built in less time.

In 2015, the Texas Legislature recognized the need for new solutions to repair today's aging infrastructure and appropriated funds to create the CIR as a joint center between the Texas A&M Engineering Experiment Station (TEES) and the Texas A&M Transportation Institute (TTI).

The CIR is located in an integrated research, innovation and education environment at the new RELLIS Campus, bringing knowledge from multiple TEES and TTI divisions and centers into the infrastructure domain to greatly accelerate deployment of new technologies and concepts. The CIR building was completed in April 2018.

CIR research focuses on critical infrastructure sectors including: chemical; communications; critical manufacturing; smart energy; information technology; nuclear reactors, materials and waste; transportation systems; and water and wastewater systems.

TEXAS A&M AGRILIFE RESEARCH is the state's leading public agency for research and development in agriculture, natural resources and the life sciences. With a statewide presence – from its headquarters in College Station, to other Texas A&M University System campuses and at 13 regional Research and Extension Centers – the agency provides innovative solutions to 21st-century challenges. Its goals are to enhance competition and prosperity in agriculture, sustain healthy ecosystems and conserve natural resources, improve public health and well-being, manage negative effects of global climate change and optimize plant and animal production and human health.

AgriLife Research conducts research in the Texas A&M Colleges of Agriculture and Life Sciences and Veterinary Medicine and Biomedical Sciences and collaborates with nine A&M System centers and institutes, as well as with state and federal agencies, private-sector corporations and international scientists.

The **TEXAS A&M AGRILIFE EXTENSION SERVICE** is a unique education agency that provides programs, tools and resources on a local and statewide level that teach people how to improve agriculture and food production, advance health practices, protect the environment, strengthen the economy and enrich youth.

Through a statewide network of professional educators, trained volunteers and county offices, AgriLife Extension addresses the diverse range of contemporary and emerging issues that affect local communities. With 250 county offices serving Texans in all 254 counties, County Extension Agents serve families, youth,

communities and businesses throughout the state.

Whether leading diabetes education programs, giving demonstrations on passenger safety, conducting agriculture field days, offering web-based classes for child care licensing or answering questions one-on-one about soil testing, AgriLife Extension provides relevant continuing education that encourages lasting and effective change.

In short, we help Texans better their lives.

Fulfilling the service component of a land-grant university system, **TEXAS A&M FOREST SERVICE** is a proud member of The Texas A&M University System. Created in 1915 by the 34th Texas Legislature, Texas A&M Forest Service conserves forests and natural resources and protects lives and property.

The state agency is driven by a call to serve, a duty to protect, the commitment to support and the power of partnership. Accordingly, the Texas A&M Forest Service provides technical assistance, program delivery and readily available, easily accessible, science-based information; provides protection against wildland fires and other all-

hazard emergencies; promotes statewide forestry-based economic development; builds the capacity of local responders and engages in cooperative working relationships.

Service knows no bounds as the agency continues more than 100 years of conserving, protecting and leading the state in the interest of the state's forests, trees and related natural resources for the benefit of all.

By testing hundreds of specimens from around the world every business day, the **TEXAS A&M VETERINARY MEDICAL DIAGNOSTIC LABORATORY** contributes significantly to protecting the health of livestock, poultry, companion animals, exotic animals, racing animals and wildlife. TVMDL offers more than 700 state-of-the-art diagnostic tests that deliver accurate results promptly and affordably. With four labs located in the state's leading livestock and poultry regions, TVMDL is uniquely situated to serve animal agriculture. As a Level I Laboratory in the National Animal Health Laboratory Network, TVMDL is among a group of state and regional labs designed

to provide a nationwide surge testing, response and recovery capacity. TVMDL also acts as the backbone for a disease surveillance system that protects animal and public health and the agriculture economy.

Animal owners, the agriculture industry and government agencies depend on TVMDL's globally recognized expertise to help preserve animal and public health. The agency has earned accreditation from the American Association of Veterinary Laboratory Diagnosticians, Racing Medication & Testing Consortium and holds ISO17025 Accreditation for Competition Animal Drug Testing.

TEXAS A&M ENGINEERING EXPERIMENT STATION has been performing quality engineering research and developing technology to address state and national problems for 100 years. TEES partners with industries, communities, government agencies, community colleges and universities – in and out of the Texas A&M System – to find solutions to improve quality of life, foster economic development and enhance education. The agency serves as a catalyst for collaborations that position Texas to be especially competitive for federal dollars and plays a major role in strengthening research leadership across the state. TEES also helps improve the state's workforce by engaging over 1,600 undergraduate and graduate students in research each year. Research activities focus on

relevant needs in areas including energy systems and services, safety and security, healthcare, materials and manufacturing, information systems and sensors, industry outreach and education and training. The agency serves Texas with headquarters in College Station and specialized research centers and partner institution offices throughout the state.

TEXAS A&M ENGINEERING EXTENSION SERVICE

helps communities and public and private entities worldwide by providing training and services needed to prepare for, respond to and recover from natural and man-made disasters. Programs include emergency services, infrastructure, safety, law enforcement, cybersecurity, economic development and workforce development, taught by instructors with real-world experience.

TEEX is a founding member of the National Domestic Preparedness Consortium and the National Cybersecurity Preparedness Consortium and offers training and services through its OSHA Training Institute Education Center and Texas Manufacturing Assistance Center, which serves the Gulf Coast. Through its National Emergency Response and Recovery Training Center, the agency has been a leader in homeland security training since 1998. TEEX also sponsors the state's elite search and rescue teams, Texas A&M Task Force 1 and Texas Task Force 2.

TEEX operates comprehensive training facilities for emergency preparedness and response, including Brayton Fire Training Field and Disaster City® in College Station. Facilities for public utilities, law enforcement and unexploded ordnance training are located at the RELLIS Campus in Bryan.

TEXAS A&M TRANSPORTATION INSTITUTE (TTI) develops solutions to the problems and challenges facing all modes of transportation. The Institute conducts over 700 research projects annually with more than 200 sponsors at all levels of government and the private sector. In the laboratory and the classroom, TTI researchers help prepare students for transportation careers.

Recognized as one of the premier higher education-affiliated transportation research agencies in the world, TTI's research and development program has made significant breakthroughs across all facets of the transportation system. TTI research is widely known as an excellent value with a proven impact of saving lives, time and resources.

TTI's headquarters will be moving to The Texas A&M University System's RELLIS Campus in 2019. The Institute maintains a full-service safety proving grounds facility; environmental and emissions facility; and sediment and erosion control laboratory on the RELLIS Campus, as well as other laboratories, including pavements, materials and structures labs in the Center for Infrastructure Renewal. TTI has eight urban offices in Texas—Arlington, Austin, Dallas, El Paso, Galveston, Houston, San Antonio and Waco—and offices in Washington, D.C., and Mexico City, Mexico.
