THE TEXAS A&M UNIVERSITY SYSTEM

tamus.edu | 979-458-6000 The Texas A&M University System Headquarters 301 Tarrow St. College Station, TX 77840-7896

THE TEXAS A&M UNIVERSITY SYSTEM was officially established in 1948 and has evolved into one of the largest systems of higher education in the nation, with a statewide network of 11 universities, including our flagship, Texas A&M University, and ten regional universities across the state. Additionally, the A&M System provides service and education to the people of Texas and beyond through eight state agencies and a System administration office.

Each of the A&M System members has its own unique mission, history and goals. Together, they provide research, educational programs and community enhancement services that improve the lives of people in Texas and around the world.

A&M System members educate over 151,000 students and make more than 23 million additional educational contacts through service and outreach programs each year.

With more than 25,000 faculty and staff positions, the A&M System has a physical presence in 250 of the state's 254 counties and a programmatic presence in every county. The A&M System has real property holdings totaling more than 64,000 surface acres and 62,000 mineral acres.

System-wide, externally funded research expenditures exceed \$1 billion to help drive the state's economy.

The A&M System, with a total operating budget of \$6.3 billion, is governed by a nine-member Board of Regents. A nonvoting student member was added in 2006. The regents appoint the chancellor, the chief executive officer who oversees the direction and operation of the System. The System's role is governed by the state's education code, Title 3, chiefly Ch. 51, Sec. 51.353 and Ch. 85, Sec. 85.17.

Board of Regents

Elaine Mendoza was appointed to the Board of Regents by Governor Perry in 2011 and reappointed by Governor Abbott in 2017. She served two terms as Vice Chairman from 2015 to 2019 and was elected Chairman on May 17, 2019. Ms. Mendoza served four terms as Chairman of the Committee on Academic and Student Affairs. She also served as a member of the Committee on Audit, the Committee on Finance and as a liaison to the Texas Higher Education Coordinating Board. Her term expires February 1, 2023.

Tim Leach was appointed to the Board of Regents by Governor Abbott in 2017. He was elected Vice Chairman on May 17, 2019. He served as Chairman of the Committee on Buildings and Physical Plant and currently serves as a member of that committee. Mr. Leach is serving his second term as a member of the Committee on Finance. He is also a liaison to the Development Foundations of A&M System Members and the Panhandle Plains Museum. His term expires February 1, 2023.

Phil Adams was first appointed by Governor Perry in 2001, again in 2009 and was reappointed in 2015 by Governor Abbott. Mr. Adams served as Vice Chairman from 2011 to 2013 and served as Chairman from 2013 to 2015. He is the Chairman of the Committee on Audit and serves as a member of the Committee on Buildings and Physical Plant. He has served as Chairman of the Committee on Finance, and the Committee on Buildings and Physical Plant. His term expires February 1, 2021.

Robert L. Albritton was appointed to the Board of Regents by Governor Abbott in 2015. He currently serves as Chairman of the Committee on Finance, as a member of the Committee on Academic and Student Affairs, and as a liaison to the Development Foundations of A&M System Members. He has served as a member of the Committee on Audit, the Committee on Buildings and Physical Plant, and as a liaison to the Texas A&M University Corps of Cadets and System Military Training Programs. His term expires February 1, 2021.

Jay C. Graham was appointed as a member of the Board of Regents by Governor Abbott in 2019. He serves as a member of the Committee on Finance and the Committee on Academic and Student Affairs. Mr. Graham also serves on the University Lands Advisory Board, and as a liaison to the 12th Man Foundation. His term expires February 1, 2025.

Michael A. "Mike" Hernandez III was appointed as a member of the Board of Regents by Governor Abbott in 2019. He serves as a member of the Committee on Audit and the Committee on Academic and Student Affairs. He also serves on the Board for Lease of University Lands. His term expires February 1, 2025.

William "Bill" Mahomes was appointed to the Board of Regents by Governor Abbott in 2015. He currently serves as the Chairman of the Committee on Buildings and Physical Plant and as a member of the Committee on Audit. He has served as Chairman of the Committee on Finance and as a member of the Committee on Academic and Student Affairs. He also serves as a liaison to the Texas A&M University Corps of Cadets and System Military Training Programs. He has served as a liaison to the Development Foundations of A&M System Members. His term will expire February 1, 2021.

Michael J. Plank was appointed as a member of the Board of Regents by Governor Abbott in 2019. He serves as a member of the Committee on Audit and the Committee on Buildings and Physical Plant. He also serves as a liaison to the Texas A&M University Corps of Cadets and System Military Training Programs. His term expires February 1, 2025.

Cliff Thomas was appointed to the Board of Regents by Governor Perry in 2011 and reappointed in 2017 by Governor Abbott. He served as Vice Chairman from 2013-2015 and as Chairman from 2015-2017. Mr. Thomas is the Chairman of the Committee on Academic and Student Affairs and a member of the Committee on Finance. He has served as Chairman of the Committee on Audit and the Policy Review Committee, and as a member of the Committee on Buildings and Physical Plant. Mr. Thomas chaired the search committee in 2014-2015 for the new President of Texas A&M University. His term expires February 1, 2023.

Levi McClenny is a 3rd-year Ph.D. candidate in the Department of Electrical and Computer Engineering at Texas A&M University. Additionally, he is a member of the United States Army Reserves, serving in an Aviation Battalion as a Platoon Leader and Blackhawk pilot. He is a Research Assistant in the Department of Electrical Engineering at Texas A&M and is collaborating with the Army Research Lab on research areas of interest to the Department of Defense. During his undergraduate years, he was a member of the Aggie Band and in the Corps of Cadets. His term expires on May 31, 2020.

Chancellor

John Sharp was appointed Chancellor of The Texas A&M University System by the Board of Regents on September 6, 2011. As Chancellor of the A&M System, he leads one of the nation's largest university systems, including 11 universities and eight state agencies, which has an annual budget of \$6.3 billion. Enrollment at the A&M System's 11 universities has grown to more than 151,000 and externally funded research expenditures are in excess of \$1 billion. Chancellor Sharp brings with him more than three decades of public service and a passion to

make the A&M System the best system of higher education in the country.

Frequently Asked Questions

What is The Texas A&M University System?

The A&M System is one of the largest systems of higher education in the nation, with a statewide network of 11 universities and eight state agencies. A&M System members educate more than 151,000 students and reach another 23 million people through service each year. With more than 25,000 faculty and staff, the A&M System has a physical presence in 250 of the state's 254 counties and a programmatic presence in every one. System-wide, externally funded research expenditures exceed \$1 billion to help drive the state's economy.

When was the A&M System established?

The A&M System was officially established in 1948. The original members were Texas A&M University, Prairie View A&M University, Tarleton State University, Texas A&M Forest Service, Texas A&M Engineering Experiment Station, Texas A&M Engineering Extension Service, Texas A&M AgriLife Extension Service (formerly Texas Cooperative Extension) and Texas A&M AgriLife Research (formerly Texas Agricultural Experiment Station).

Today, the A&M System provides oversight and leadership for 11 universities and eight state agencies. Its role is governed by the state's education code (Title 3, chiefly Ch. 51, Sec. 51.353 and Ch. 85, Sec. 85.17). Responsibilities include system-wide planning, coordination and execution of the policies of The Texas A&M University System Board of Regents.

What does "A" and "M" stand for?

Texas A&M University, the state's first public institution of higher education, was opened on Oct. 4, 1876 as the Agricultural and Mechanical College of Texas. Both Texas A&M and Prairie View A&M owe their origin to the Morrill Acts of 1862 and 1890, which established the nation's land-grant college system. When Texas A&M gained university status in 1963, the "A&M" was incorporated into the official name in deference to the institution's history and traditions, but the individual letters no longer explicitly stand for anything.

The A&M System is the state's land-grant system. What does that mean?

A land-grant college or university is an institution that has been designated by its state legislature or Congress to receive the benefits of the Morrill Acts of 1862 and 1890. The original mission of these institutions, as set forth in the first Morrill Act, was to teach agriculture, military tactics and the mechanical arts, as well as classical studies so that members of the working classes could obtain a practical education.

The A&M System's agencies, which conduct research and bring practical applications of research findings to the people of Texas, also came out of the land-grant system. There is now at least one land-grant institution in every state and territory of the United States, as well as in the District of Columbia.

How is the A&M System governed?

The A&M System is governed by a nine-member Board of Regents, appointed by the governor and confirmed by the Texas Senate for six-year terms. A nonvoting student member was added in 2006. The A&M System chancellor oversees the day-to-day administration, and each of the A&M System's members has a president, CEO or director.

What is the mission of the A&M System?

The mission of the A&M System is to provide education, conduct research, commercialize technology, offer training and deliver services for the people of Texas and beyond through its universities and state agencies.

Does the A&M System have a central admissions office?

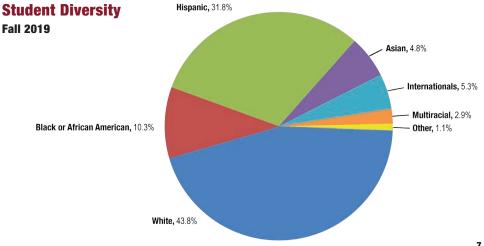

No. Students must contact directly the preferred A&M System institution's admission office. Information about these institutions can be found on the system's website, **tamus.edu**.

The flagship university of The Texas A&M University System, TEXAS A&M UNIVERSITY is known around the world as a tier one research institution and is a member of the Association of American Universities.

Committed to the values of its land-grant heritage, Texas A&M ensures accessible education for the people of Texas and beyond through effective resource management, maintaining low costs for high-value curricular and co-curricular excellence and graduating students with less debt. World-class faculty members engage our teaching and research, which inform innovation for society's challenges, yielding over \$952 million in annual expenditures. Knowledge extends to communities beyond the classroom by engaged scholarship, outreach and partnership with System state agencies for extension. These efforts have also earned Texas A&M designations as a sea-grant and space-grant institution.

Texas' first public institution of higher learning has strategically grown into one of the nation's most comprehensive universities, offering over 400 bachelor's, master's, doctoral and professional degree programs through 16 colleges and schools, including the School of Law in Ft. Worth, and the health-related programs of the Health Science Center. Together with special-purpose branch campuses in Galveston and Qatar, along with an educational site in McAllen, today's Texas A&M is developing educated leaders of character committed to learning for a lifetime and dedicated to serving the greater good.

TEXAS A&M UNIVERSITY AT

GALVESTON is an ocean-oriented branch campus of Texas A&M University which educates nearly 2,300 undergraduate and graduate students in a unique blend of marine and maritime programs, including majors in science, business, engineering, liberal arts, and transportation. It serves a critical role in fulfilling the sea-grant portion of Texas A&M's land-, sea-, spacegrant mission and has nearly \$10 million annually in research expenditures. Texas A&M-Galveston is also home to the Texas A&M Maritime Academy, one of seven in the U.S. and the only academy integrated into a Tier 1 academic institution, which trains over 300 cadets annually for maritime service and employment around the world. Texas A&M-Galveston is located on the Gulf Coast, where is it surrounded by the industry, environment and programs essential to fulfilling its special-purpose mission.

IM HEALTH

TEXAS A&M UNIVERSITY HEALTH SCIENCE CENTER (Texas A&M Health) comprises five colleges (dentistry, medicine, nursing, pharmacy and public health) and numerous centers and institutes with a shared mission of advancing health care for all. We serve the state and beyond with campuses and locations in Bryan-College Station, Dallas, Temple, Houston, Round Rock, Kingsville, Corpus Christi and McAllen. Drawing from our vast network of scientists. educators and clinical partners, Texas A&M Health provides real-world solutions through evidence-based discoveries and highly qualified graduates who are equipped to address the health needs of an everchanging population.

TEXAS A&M UNIVERSITY AT OATAR

has offered undergraduate degrees in chemical engineering, electrical and computer engineering, mechanical engineering and petroleum engineering at Qatar Foundation's Education City campus since 2003, and graduate degrees in chemical engineering since fall 2011. More than 1,050 degrees have been awarded since 2007. All four of the undergraduate engineering programs offered at Texas A&M at Qatar are accredited by the Engineering Accreditation Commission of ABET. Faculty members from around the world are attracted to Texas A&M at Qatar to provide this educational experience and to participate in research activities now valued at more than \$256 million. Texas A&M at Qatar is wholly funded by the Qatar Foundation for Education, Science and Community Development.

In one the nation's most unique community partnerships, Texas A&M University, the City of McAllen and Hidalgo County have combined resources to extend existing degree programs in fields of high demand to the Rio Grande Valley. The TEXAS A&M UNIVERSITY HIGHER EDUCATION CENTER AT MCALLEN, currently offers four distinct bachelor degrees in fields identified by local industry leaders: biomedical science, interdisciplinary engineering, multidisciplinary engineering technology and public health. With courses taught by accredited Texas A&M University faculty, students are eligible to earn the Aggie Ring and diploma from one of the world's leading universities while also benefitting from the financial advantages of living close to home and maintaining access to unique career opportunities in the Rio Grande Valley.

PRAIRIE VIEW A&M UNIVERSITY is the second oldest public institution of higher education in the state of Texas. It is a historically black college/university that, since its inception in 1876, has opened its doors to any and every person – inside and outside of Texas – seeking a first-class, four-year university experience.

The university is situated in a rural part of Texas on one of the most beautiful campuses in the country. Mentioned in the Texas State Constitution as an "institution of the first class," PVAMU began as an industrial school for African Americans but has evolved to meet changing societal demands. Through its seven colleges and the school of Architecture, PVAMU boasts more than 50 degree programs, including

engineering, natural sciences, business, nursing and criminal and juvenile justice.

PVAMU prepares students not only to lead in their communities, but also to succeed in a global marketplace. The expansion of foreign language offerings, such as Arabic and Mandarin Chinese, support the university's goal of building the next generation of global leaders through classroom instruction, study abroad opportunities, cultural training, exposure to the arts and service-learning projects.

Providing an innovative and transformative educational experience, TARLETON STATE UNIVERSITY offers some 300 undergraduate and graduate degree options. Students can choose to study in one of seven colleges — agricultural and environmental sciences, business administration, education, graduate studies, health sciences and human services, liberal and fine arts, and science and technology.

The primary campus is located in Stephenville, just southwest of Fort Worth, while other centers are located in Fort Worth, Waco, Midlothian, Bryan and an online Global Campus. Tarleton boasts four schools — the School of Nursing, the School of Engineering, the School of Kinesiology

and the School of Criminology, Criminal Justice and Strategic Studies — and multiple research institutes.

A new 98,000-square-foot engineering building is a testament of Tarleton's commitment to the future, and a new state-of-art Animal and Plant Sciences Center puts Tarleton at the forefront of educational delivery for these disciplines. Additionally, the first building of Tarleton's new 80-acre campus along the Chisholm Trail Parkway in Fort Worth is open, with plans under way for a second facility.

TEXAS A&M INTERNATIONAL UNIVERSITY is a

vibrant international university located at the dynamic multicultural and multilingual crossroads that is Laredo.

It provides over 8,300 students with a transformative learning environment anchored by the highest quality programs delivered by a global faculty. A solid academic foundation in the arts and sciences, business, education and nursing embraces broad research opportunities. The 300-acre campus is home to a diverse student body with 122 student clubs and organizations driving an energetic campus life. Service-learning fuels dynamic community involvement and study abroad programs travel to 50-plus countries.

TAMIU is celebrating its 50th Anniversary of founding and its 25th Anniversary at its north Laredo campus. Like its enrollment, its growth continues with the addition of its largest classroom building, the Academic Innovation Center, home to engineering and science programs.

TAMIU's programs are infused with an international focus and a progressive agenda for global study, leadership and understanding across all disciplines.

TEXAS A&M UNIVERSITY-CORPUS CHRISTI.

established in 1947, has more than 50,000 graduates including nurses, educators, researchers, artists, scientists and innovators who are passionate about leading in their professions.

Our status as a tier two (R2) research institution reflects our ability to serve as an ecosystem for innovation and intellectual hub for the Texas Coastal Bend and beyond. With an unparalleled commitment to every student's success, the Island University supports more than 40 scientific research centers and labs. Lone Star Center of Excellence and Innovation is one of only seven unmanned aircraft system test sites in the U.S. and works with NASA to advance the field. The Harte Research

Institute for Gulf of Mexico Studies leads international research efforts for the long-term sustainable use and conservation of the Gulf of Mexico. The Conrad Blucher Institute for Surveying and Science is nationallyrecognized for developing innovative geospatial science research with real-world impact. Texas A&M-Corpus Christi is the only university in the nation located on its own island and is a learning destination like no other. We're proud of our heritage as a Hispanic-Serving Institution and offer myriad opportunities for students to make an impact in the community.

For more than 90 years, TEXAS A&M UNIVERSITY-KINGSVILLE has represented excellence and innovation, while preparing students to become the leaders of tomorrow.

The university offers a traditional college experience on a beautiful and vibrant campus. It offers a variety of undergraduate and graduate programs developed to meet the growing economic needs of Texas and beyond. Degrees include well-known programs in environmental engineering, animal and wildlife sciences, music and natural gas engineering, along with new or growing programs in veterinary technology, kinesiology and social work. A Carnegie-

recognized Doctoral University with High Research Activity, Texas A&M-Kingsville features nationally- and internationally-recognized research centers, including the National Natural Toxins Research Center, the Caesar Kleberg Wildlife Research Institute and the King Ranch Institute for Ranch Management. Helpful staff and faculty committed to students' success create a sense of community that extends beyond the campus. The university offers an all-inclusive environment with a variety of living and dining options and recreational activities within walking distance of the classroom. The campus features a dining hall, student recreation center and suite-style residence halls with a new, state-of the-art music building that just opened its doors in spring 2020.

TEXAS A&M UNIVERSITY-TEXARKANA is uniquely positioned to serve a four-state area, contributing to the region's dynamic and diverse culture and resources. Set in the beautiful forest and lake-filled corner of northeast Texas, A&M-Texarkana is a university where you can get a world-class education in a nurturing, student-oriented environment. The university offers a wide array of degree programs, small classes and an outstanding faculty and staff who take great pride in the university's close-knit academic community.

With a breathtaking 375-acre campus featuring a state-of-the-art student center and the newly constructed Building for Academic and Student Services, students at TAMUT have all they need to live, learn

and experience the very best of college life. With more than 40 student groups (including Greek life), eight intercollegiate sports, social activities and intramurals, students can explore TAMUT outside the classroom and make connections that last a lifetime.

TEXAS A&M UNIVERSITY-CENTRAL TEXAS is the

only public "upper-level" or "transfer" university in Texas. A&M-Central Texas students transfer in previously earned college or university credits and select one of our 28 undergraduate degree programs, several of which have been highly ranked by U.S. News & World Report, The Best Schools, College Factual, and Best Colleges. A&M-Central Texas also offers 18 graduate degrees through the A&M-Central Texas Graduate School.

Among the most affordable public universities in Texas, A&M-Central Texas offers students the opportunity to "lock in" their tuition until graduation, making the cost of earning a degree budget-friendly. The

degree programs offered by A&M-Central Texas are offered through the College of Arts and Sciences, the College of Business Administration and the College of Education and are designed to provide a personalized learning experience that includes ideal student-to-teacher ratios, opportunities for community service and career advancement, traditional on-campus courses, online degree options and hybrid programs. As of 2019, more than 7,000 former students have become A&M-Central Texas alumni serving the Central Texas region, the State of Texas, and the United States as teachers and counselors, businessmen and women, technology professionals, pilots and aviation leaders, historians, social workers, and biologists.

TEXAS A&M UNIVERSITY-SAN ANTONIO is a

comprehensive four-year university offering more than 40 undergraduate and graduate programs. A&M-San Antonio welcomed its fourth class of first-year students in fall 2019, and today more than 6,700 students are enrolled at the university.

To keep pace with the growth of student enrollment, A&M-San Antonio is expanding facilities on its 700-acre campus in south San Antonio. In 2017, the university opened its first residence hall, Esperanza Hall. In fall 2018, A&M-San Antonio opened a new 140,000-square-foot Science and Technology Building, which houses the Mays Center for Experiential Learning and Community Engagement. It also became the ninth

university in the country, and the first in Texas, to join the Facebook Cyber Security University Program. A&M-San Antonio offers the lowest undergraduate tuition of any four-year university in San Antonio. The university's core values provide a foundation for its world-class faculty to prepare graduates for rewarding careers, responsible global citizenship and lifelong learning. In 2019, Texas A&M University-San Antonio celebrated the Groundbreaking of The New Academic Building & 10-Year Birthday Celebration.

The RELLIS CAMPUS in Bryan is home to the only academic alliance in the nation that combines a major university system and a community college in one location. Designed to provide a seamless educational experience, students can take freshman- and sophomorelevel courses with the Blinn College District before transferring to a Texas A&M System regional university to earn a bachelor's degree.

The state-of-the-art campus features the 83,000 square-foot Blinn College Walter C. Schwartz building and the Texas A&M System Academic Complex. Opened in August 2019, the Academic Complex is home to A&M System regional university degree offerings and accommodates approximately 2,500 students. The 67,000 square-

foot-building includes faculty offices, 10 classrooms, group learning and collaborative spaces, modern allied health teaching laboratories and upper-division science laboratories.

Opening in November 2020, the second building in the RELLIS Academic Complex will include classrooms and laboratories incorporating innovative teaching and technology, as well as faculty offices and spaces for student collaboration. Most notably, the building will provide the needed space for engineering labs and classrooms to facilitate upcoming academic engineering program offerings.

The TEXAS DIVISION OF EMERGENCY MANAGEMENT

(TDEM) manages the state's emergency management program. Texas receives more federal disaster declarations than any other state in the nation, an average of one every 8 months. TDEM supports local jurisdictions by partnering with state and federal agencies to ensure Texas prepares for, responds to, recovers from, mitigates against and becomes more resilient for future disasters.

TDEM manages a full spectrum of emergency management programs including preparedness, response, recovery and mitigation. Preparedness programs provide support for planning, training and exercises while field staff supports local jurisdictions across the state. Recovery and Mitigation

manage billions of dollars in FEMA grant funds as they assist local jurisdictions in recovering from disasters.

As a result of Hurricane Harvey and the Commission to Rebuild Texas, many improvements to the way Texas prepares for, responds to, recovers from, and mitigates against major disasters have been set in motion, including the merger between Texas emergency management and institutions of higher education. With this merger, the state will capitalize on synergies between the capabilities of higher education and research and the actions of emergency management, thus improving life safety, the protection of property and leading to quicker recovery from disasters. $\ _{\rm TEXAS\ DIVISION\ OF\ EMERGENCY\ MANAGEMENT}$

TEXAS A&M AGRILIFE RESEARCH is the state and nation's premier research and development agency for agriculture, natural resources and the life sciences. With a statewide presence from our headquarters in College Station, to other Texas A&M University System campuses and 13 regional Research and Extension Centers – we provide innovative solutions to 21st-century challenges.

Our research helps enhance competition and prosperity in agriculture, sustain healthy ecosystems and conserve natural resources, improve public health and create resilient communities, and optimize plant and animal production. In fact, we are ranked first nationally for agricultural research expenditures by the National Science Foundation.

AgriLife Research conducts research in the Texas A&M Colleges of Agriculture and Life Sciences and Veterinary Medicine and Biomedical Sciences and collaborates with nine other A&M System centers and institutes, as well as with state and federal agencies, private-sector corporations and international scientists.

The TEXAS A&M AGRILIFE EXTENSION SERVICE

is a unique education agency that provides programs, tools and resources on a local and statewide level that teach people how to improve agriculture and food production, advance health practices, protect the environment, strengthen the economy and enrich youth.

Through a statewide network of professional educators, trained volunteers and county offices, AgriLife Extension addresses the diverse range of contemporary and emerging issues that affect local communities. With 250 county offices serving Texans in all 254 counties, County Extension Agents serve families, youth,

communities and businesses throughout the state. The agency also provides natural disaster assistance.

Whether leading diabetes education programs, giving demonstrations on passenger safety, conducting agriculture field days, offering web-based classes for child care licensing or answering questions one-onone about soil testing, AgriLife Extension provides relevant continuing education that encourages lasting and effective change.

We improve lives, the environment and the Texas economy through extension education and service.

Created in 1915 by the 34th Texas Legislature, TEXAS A&M FOREST SERVICE conserves forests and natural resources and protects lives and property.

The state agency is driven by a call to serve, a duty to protect, the commitment to support and the power of partnership. Accordingly, the Texas A&M Forest Service provides technical assistance, program delivery and readily available, easily accessible, science-based information; provides protection against wildland fires and other all-hazard emergencies; promotes statewide forestry-based economic development; builds the capacity of local responders and engages in

cooperative working relationships.

Service knows no bounds as the agency continues more than 100 years of conserving, protecting and leading the state in the interest of the state's forests, trees and related natural resources for the benefit of all.

By testing hundreds of specimens from around the world every day, the TEXAS A&M VETERINARY MEDICAL DIAGNOSTIC LABORATORY contributes significantly to protecting the health of livestock, poultry, companion animals, exotic animals, racing animals and wildlife. TVMDL offers more than 700 state-of-the-art diagnostic tests that deliver accurate results promptly and affordably. With four labs located in the state's leading livestock and poultry regions, TVMDL is uniquely situated to serve animal agriculture.

As a Level I Laboratory in the National Animal Health Laboratory Network, TVMDL is among a group of state and regional labs designed

to provide a nationwide surge testing, response and recovery capacity. TVMDL also acts as the backbone for a disease surveillance system that protects animal and public health and the agriculture economy.

Animal owners, the agriculture industry and government agencies depend on TVMDL's globally recognized expertise to help preserve animal and public health. The agency has earned accreditation from the American Association of Veterinary Laboratory Diagnosticians, Racing Medication & Testing Consortium and holds ISO17025 Accreditation for Competition Animal Drug Testing.

TEXAS A&M ENGINEERING EXPERIMENT

STATION has been performing quality engineering research and developing technology to address state and national problems for more than 100 years. TEES partners with industries, communities, government agencies, community colleges and universities – in and out of the Texas A&M System – to find solutions to improve quality of life, foster economic development and enhance education. The agency serves as a catalyst for collaborations that position Texas to be especially competitive for federal dollars and plays a major role in strengthening research leadership across the state. TEES also helps improve the state's workforce by engaging over 1,700 undergraduate and graduate students in research each year. Research activities

focus on relevant needs in areas including energy systems and services, safety and security, health care, materials and manufacturing, information systems and sensors, industry outreach, and education and training. The agency serves Texas with headquarters in College Station and specialized research centers and partner institution offices throughout the state.

TEXAS A&M ENGINEERING EXTENSION SERVICE

helps public and private organizations and communities prepare for, respond to and recover from disasters. Focused on high-quality training and excellent customer service, the agency's programs include fire services, emergency response and recovery, infrastructure, safety, law enforcement, cybersecurity, economic development, and workforce development, led by top-notch instructors with real-world experience. TEEX also sponsors the state's elite urban search and rescue teams, Texas A&M Task Force 1 and Texas Task Force 2.

TEEX offers unparalleled experiential training at world-class facilities across Texas, including Brayton Fire Training Field and Disaster City® in College

Station. At the RELLIS Campus in Bryan, TEEX operates outdoor training grounds and classrooms for infrastructure, law enforcement and explosives courses.

The agency's programs impact a wide and diverse audience through collaborations with other members of The Texas A&M University System, state and federal agencies, the military, private-sector corporations, and the international emergency response community.

TEXAS A&M TRANSPORTATION INSTITUTE (TTI)

develops solutions to the problems and challenges facing all modes of transportation. TTI conducts over 700 research projects annually with more than 200 sponsors at all levels of government and the private sector. In the laboratory and the classroom, TTI researchers help prepare students for transportation careers.

Recognized as one of the premier higher education-affiliated transportation research agencies in the world, TTI's research and development program has made significant breakthroughs across all facets of the transportation system. TTI research is widely known as an excellent value with a proven impact of saving lives, time and resources.

TTI maintains a full-service safety proving grounds facility; environmental and emissions facility; sediment and erosion control laboratory; visibility research laboratory; and driving simulation laboratory, as well as other laboratories, including pavements, materials and structures labs in the Center for Infrastructure Renewal. TTI has seven urban offices in Texas—Arlington, Austin, Dallas, El Paso, Houston, San Antonio and Waco—and offices in Washington, D.C., and Mexico City, Mexico.
