Instructions and Access Type Descriptions

This form is for use by Texas A&M University System Members requesting privileged access to the Concur System.

All employees of Concur Participating agencies will automatically receive the following standard access:

- Request Approver
- Request User
- Cliqbook User
- Expense Approver
- Expense User
- Travel and Expense User
- Guest Booking

FAMIS Security Administrators, as a function of their security responsibilities, will be assigned the following privileged access by FAMIS Services Security Administrators:

- Employee Maintenance
- Expense Processor Audit
- Expense Proxy Logon
- Administer Approval Queue
- Permission Admin
- Report Admin
- Report User
- Role Maintenance

FAMIS Central Security Administrators (FAMIS Services Security Staff), as a function of their security responsibilities, will be given FAMIS Security Administrator privileges and other administrative privileged access including:

- Employee Admin

If additional privileges are needed, this form must be completed, signed, and submitted to your FAMIS Security Administrator.

**Please Note: This form replaces all previous Concur privileged access.
You must complete this form with all desired access.**

Actions:

- **Remove Privileged Access** – the employee is leaving your department or the A&M System and no longer requires any privileged access.
- **Change Privileged Access** – the employee's access requirements have changed.

Mentor Program: In order to gain administrative access to the update or entry functions, you must have a mentor who agrees and is able to act in an advisory capacity so that you can begin work prior to completion of all formal training. At no time should you share your password with your mentor or mentee and at no time should you or your mentor use each other's workstation or financial system accesses.

Important notes: You must send a completed, signed original of this form to your FAMIS Security Administrator. Individuals whose employment has not been fully processed or who are not available for computer resource allocation will experience a delay in receiving privileged access.
