

System Regulation 29.01.03, *Information Security*

Definitions

Information – data as processed, stored or transmitted by a computer.

Information resources technology (IT) -- data processing and telecommunications hardware, software, services, supplies, personnel, facility resources, maintenance, and training.

Significant IT equipment – includes, but is not limited to, mass storage, large/complex computational environments, most virtualized or physical-based servers, and any other internet exposed services.

System member (member) – includes System Offices and system member universities and agencies as outlined in System Policy 02.04, *System Members of The Texas A&M University System*.

1 Tex. Admin. Code, Ch. 202 (TAC 202) – defines applicable terms used in this regulation. See 1 Tex. Admin. Code § 202.1.
