

Course Announcement – May 11, 2023

Dear A&M System Training Coordinators,

TrainTraq course no. [11020](#), *Hazard Communication*, has been updated. As you know, this course aims to equip learners with the knowledge and skills to ensure a safe and healthy workplace by effectively communicating potential hazards. The content updates for this course were provided by the System Office of Environment, Safety, and Security. Changes include:

- Five new videos: GHS Labeling; Safety Data Sheets; GHS Classification Criteria; Layout and Use of the MSDSonline website; and Safe Handling of Corrosive and Flammable Chemical Regents
- Additional practice questions to reinforce learning and assess the learner's understanding of the course material
- Increased interactivity to make the course more engaging and enjoyable for learners

The updated course will be available in TrainTraq after close of business today (Thursday, May 11). All applicable assignment rules are still in effect and all course reports remain the same. If you have questions, please let us know.

Thanks,

Pat
