**Subject:** Revised Reporting Fraud, Waste & Abuse Course Available April 4  
**Date:** Tuesday, March 29, 2016 9:16:00 AM

---

Dear A&M System Training Coordinators,

The System-required course Reporting Fraud, Waste & Abuse (no. 99003) has been revised with new content provided by The Texas A&M University System Office of Internal Audit and will be made available in TrainTraq on Monday, April 4th.

Additionally, the course has a different look-and-feel and now includes audio narration and closed captioning. The mastery test has been removed, and several practice questions throughout the training must be answered in order to advance. The completion records after the user selects the acknowledgement statement on the last slide of the course. You are encouraged to familiarize yourself with the course in the event an employee has a question.

Note that because of the extent of the revisions, it is likely that employees who have started but not yet completed the course at the time of the update will experience issues when they try to access the course again (the remedy is to restart the course). We anticipate that only a very small number of employees will be in this state (System IT did a preliminary check a few days ago and only 17 A&M System employees were in the middle of the Fraud course at the time). However, if you know of employees who have started but not yet completed the Fraud course, you may want to encourage them to complete it before the update.

All applicable assignment rules are still in effect and all course reports will remain the same.

If you have any questions regarding the changes made to this course, please contact Lesley Mizer ([lmizer@tamu.edu](mailto:lmizer@tamu.edu), 979.845.0083).
