Dear A&M System Training Coordinators,

The System-required course, *Orientation to the A&M System* (no. 99004), was updated to reflect recommendations from the Big 5 Redesign project. The focus of the course is on the structure and governance of the Texas A&M System. The section covering System policies was removed since most of the policies are addressed in other System-required courses.

Changes include:

- Removed duplicate content

- Added restricted navigation

- Standard course features to provide consistent experience in all System-required courses

- Added a standard training acknowledgement at the end

- Instructions on how to access a printable/accessible version of the course

All applicable assignment rules are still in effect and all course reports remain the same. If you have any questions regarding the changes made to this course, please contact Lesley Mizer (lmizer@tamu.edu.)

Many thanks to those of you who participated in the working group of the Big 5 Design Project-your feedback is helping to provide a consistent experience for employees.

Sincerely,

Lesley
